kirtu com: **Unit Delimitation in Biblical Hebrew** M.C.A. Korpel, Joseph Oesch, 2021-10-11 Series: Pericope 4 - Scripture as written and read in antiquity Bible scholars and translators are often confronted with the problem of sectioning biblical texts. Until recently sentence division and paragraphing were largely left to the imagination of the individual scholar. This resulted in a wide range of different divisions of one and the same text. There is, however, a lot of long neglected evidence on how the ancient scribes themselves understood the structure of the texts they were transmitting. Research in ancient scribal traditions shows that in the entire ancient Near East

scribes provided their texts with special, structuring markers. For example, rulings, lines left open, extra large capitals, different colouring at the beginning of new passages, and for the division into smaller units, strokes, dots and spaces. Actually many markers lending structure to our modern texts appear to be derived from very ancient customs. This volume contains the papers read during the Third Pericope Meeting held in connection with the SBL International Meeting at Berlin, 2002.

Topics discussed are the unit delimitation in parts of Genesis, Numbers, Isaiah, Ezekiel, Psalms, and Song of Songs. Furthermore general studies on Masoretic accentuation, the importance of pausal forms for unit delimitation, description of scribal practices in the Jewish tradition, as well as unit division in Northwest Semitic texts are included. Pericope is a new successful series that aims at making available data on unit delimitation found in biblical and related manuscripts to the scholarly world and to evaluate these data for the benefit of biblical interpretation. kirtu com: South Asian Pornographies Darshana Sreedhar Mini, Anirban K. Baishya, 2024-06-21 South Asian Pornographies is the first consolidated volume that explores the relationships between pornography, obscenity, law and desire in South Asia. Focusing on case studies from India, Sri Lanka and Bangladesh while gesturing towards other countries in South Asia, the authors of this volume come from fields as varied as history, literature, media and communication, and the visual arts. The book proposes that as a geo-political location, South Asia has a unique relationship to pornography, given the multiplicity of cultural and legal-censorial regimes that define the obscene and the permissible. South Asian case studies can demonstrate how pornography in the region is often defined in oblique terms, finding reflection in various modes of popular (and sometimes underground) culture, bypassing legal and censorial constraints. Like questions of identity that can only be answered in the plural (identities rather than identity), this book demonstrates how a range of pornographies constitutes the force field of sexualized media in South Asia. It will be of interest to researchers and advanced students of Communication Studies, Cultural Studies, Film Studies, History, Sociology, and Social and Cultural Anthropology. The chapters in this book were originally published in the journal Porn Studies.

kirtu com: The Dynamics of Human Life in the Bible Martin J. Buss, 2022-04-06 In The Dynamics of Human Life in the Bible: Receptivity and Power, Martin J. Buss describes the dynamics of human life that are encouraged in the Bible and how biblical guidance compares with other religious traditions. The dynamics include both receptivity ("from" another) and power ("for" or "over" another), often in combination ("with" another). For example, love joins receptive cognition of worth with energetic support. Receptivity, the only way to deal with fundamental values, seeks material and religious benefits and is the human side of revelation and salvation. Public acknowledgement strengthens divine influence. Furthermore, receptivity accepts challenges. These include individual and social growth and semi-identification with others, which has societal rather than concrete individual consequences. Power is crucial in legal remedies and penalties. Life with

others is important in practical “wisdom” and in Christian “mutual love.” Buss finds that biblical directives parallel those of non-Christian religious traditions. This situation is in line with biblical views of general revelation and developments in history.

kirtu com: *Intertextuality in Ugarit and Israel* Johannes de Moor, 2021-10-25 In modern literary studies intertextuality is at the centre of interest. Although the relationship between texts has always been an important aspect of Old Testament studies, especially in literary criticism, the scale of comparison has broadened, including for example the interrelationships between the First, Second and Third Isaiah, or the whole Book of the Twelve. These relatively new approaches raise a number of methodical questions which were addressed at the Tenth Joint Meeting of the British Society for Old Testament Study and the Dutch 'Oudtestamentisch Werkgezelschap', held at Oxford, 22nd to 25th July 1997. Did the ancient authors have a well-defined concept of a book? How did they relate to the literary work of their predecessors and contemporaries? Can we trace the theological motifs behind their use of other literary compositions? What does an ancient version reveal about the way it interpreted its source text? One of the problems confronting biblical scholars in this kind of research is the lack of controllable models. Therefore it is useful to study the work of the Ugaritic chief priest Ilmilku whose three major literary compositions provide us with a unique possibility to monitor intertextual relationships in the work of one and the same ancient author. Ugaritic and other ancient Near Eastern parallels help us to understand how the Priestly writer re-interpreted the Yahwistic account of the creation of mankind. Apparently intertextuality in Israel is a phenomenon which cannot properly be understood without taking other literature from the ancient world into account.

kirtu com: **Comentários do Antigo Testamento - Cântico dos cânticos** Tremper Longman III, 2023-05-15 Por toda a Bíblia, o relacionamento com Deus é descrito pela metáfora do casamento. Como com toda metáfora, o leitor deve observar uma reticência apropriada no que diz respeito a forçar a analogia. Entretanto, no Cântico aprendemos sobre a intensidade emocional, a intimidade e a exclusividade de nosso relacionamento com o Deus do universo. (Da Introdução) Os relacionamentos são uma parte maravilhosa, misteriosa, muitas vezes indescritível, às vezes dolorosa, da experiência humana. O mais íntimo de todos os relacionamentos humanos, de acordo com a Bíblia, é aquele entre um marido e uma esposa. Não é surpresa, portanto, que haja um livro da Bíblia, o Cântico dos Cânticos, que enfoque esse relacionamento. O que surpreende é quão pouca atenção seja dada ao Cântico dos Cânticos pelos estudiosos, pela igreja e pelos leitores da Bíblia. Com este volume, Tremper Longman III descompacta para as pessoas modernas o que este antigo poema de amor diz sobre a relação homem-mulher e, por analogia, sobre o amor de Deus por seu povo.

kirtu com: Women in Ugarit and Israel Hennie J. Marsman, 2021-10-01 In this volume the presupposition is investigated whether women in a polytheistic society had a better position than women in a monotheistic society. To this end the social and religious position of women in Ugarit according to its literary texts is compared to that of women in Israel according to the Hebrew Bible, while the wider context of the ancient Near East is also taken into consideration. After an overview of feminist biblical exegesis, the book discusses the roles of women in the family and in society. It also provides an analysis of the roles of women as religious specialists and as worshippers. Finally, the data on the position of women in the literary texts is compared to that in non-literary texts.
