lillian pierce benbow: Watching Jim Crow Steven D. Classen, 2004-03-12 In the early 1960s, whenever the Today Show discussed integration, wlbt-tv, the nbc affiliate in Jackson, Mississippi, cut away to local news after announcing that the Today Show content was "network news . . . represent[ing] the views of the northern press." This was only one part of a larger effort by wlbt and other local stations to keep African Americans and integrationists off Jackson's television screens.

Watching Jim Crow presents the vivid story of the successful struggles of African Americans to achieve representation in the tv programming of Jackson, a city many considered one of the strongest bastions of Jim Crow segregation. Steven D. Classen provides a detailed social history of media activism and communications policy during the civil rights era. He focuses on the years between 1955—when Medgar Evers and the naacp began urging the two local stations, wlbt and wjtv, to stop censoring African Americans and discussions of integration—and 1969, when the U.S. Court of Appeals issued a landmark decision denying wlbt renewal of its operating license. During the 1990s, Classen conducted extensive interviews with more than two dozen African Americans living in Jackson, several of whom, decades earlier, had fought to integrate television programming. He draws on these interviews not only to illuminate their perceptions—of the civil rights movement, what they accomplished, and the present as compared with the past—but also to reveal the inadequate representation of their viewpoints in the legal proceedings surrounding wlbt's licensing. The story told in Watching Jim Crow has significant implications today, not least because the Telecommunications Act of 1996 effectively undid many of the hard-won reforms achieved by activists—including those whose stories Classen relates here.

lillian pierce benbow: The Revolution Wasn't Televised Lynn Spigel, Michael Curtin, 2013-10-08 Caricatures of sixties television--called a vast wasteland by the FCC president in the early sixties--continue to dominate our perceptions of the era and cloud popular understanding of the relationship between pop culture and larger social forces. Opposed to these conceptions, *The Revolution Wasn't Televised* explores the ways in which prime-time television was centrally involved in the social conflicts of the 1960s. It was then that television became a ubiquitous element in American homes. The contributors in this volume argue that due to TV's constant presence in everyday life, it became the object of intense debates over childraising, education, racism, gender, technology, politics, violence, and Vietnam. These essays explore the minutia of TV in relation to the macro-structure of sixties politics and society, attempting to understand the struggles that took place over representation the nation's most popular communications media during the 1960s.

lillian pierce benbow: Black Greek-Letter Organizations 2.0 Matthew W. Hughey, Gregory S. Parks, 2011-02-18 At the turn of the twentieth century, black fraternities and sororities, also known as Black Greek-Letter Organizations (BGLOs), were an integral part of what W.E.B. Du Bois called the "talented tenth." This was the top ten percent of the black community that would serve as a cadre of educated, upper-class, motivated individuals who acquired the professional credentials, skills, and capital to assist the race to attain socioeconomic parity. Today, however, BGLOs struggle to find their place and direction in a world drastically different from the one that witnessed their genesis. In recent years, there has been a growing body of scholarship on BGLOs. This collection of essays seeks to push those who think about BGLOs to engage in more critically and empirically based analysis. This book also seeks to move BGLO members and those who work with them beyond conclusions based on hunches, conventional wisdom, intuition, and personal experience. In addition to a rich range of scholars, this volume includes a kind of call and response feature between scholars and prominent members of the BGLO community.

lillian pierce benbow: Protest & Praise Jon Michael Spencer, Here is a skillful tracing of two tracks in the evolution of musical genres that have evolved from black religion. Songs of protest developed from the spiritual through social-gospel hymnody to culminate in songs of the civil-rights movement and the blues. Born in rebellion, they envision the Kingdom of God. Songs of praise, by contrast, express adoration. Beginning with the ring-shout, Spencer follows the history of intoned declamation through the tongue song, Holiness-Pentecostal music, and the chanted sermon of the black preacher. Spencer's approach, termed theomusicology, unlocks the wealth of African-American sacred music with a theological key. The result is a fascinating account of a

people's struggle with God in history.

lillian pierce benbow: The Civil Rights Movement in Mississippi Ted Ownby, 2013-10-24 Contributions by Chris Myers Asch, Emilye Crosby, David Cunningham, Jelani Favors, Françoise N. Hamlin, Wesley Hogan, Robert Lockett, Carter Dalton Lyon, Byron D'Andra Orey, Ted Ownby, Joseph T. Reiff, Akinyele Umoja, and Michael Vinson Williams Based on new research and combining multiple scholarly approaches, these twelve essays tell new stories about the civil rights movement in the state most resistant to change. Wesley Hogan, Françoise N. Hamlin, and Michael Vinson Williams raise questions about how civil rights organizing took place. Three pairs of essays address African Americans' and whites' stories on education, religion, and the issues of violence. Jelani Favors and Robert Lockett analyze civil rights issues on the campuses of Jackson State University and the University of Mississippi. Carter Dalton Lyon and Joseph T. Reiff study people who confronted the question of how their religion related to their possible involvement in civil rights activism. By studying the Ku Klux Klan and the Deacons for Defense in Mississippi, David Cunningham and Akinyele Umoja ask who chose to use violence or to raise its possibility. The final three chapters describe some of the consequences and continuing questions raised by the civil rights movement. Byron D'Andra Orey analyzes the degree to which voting rights translated into political power for African American legislators. Chris Myers Asch studies a Freedom School that started in recent years in the Mississippi Delta. Emilye Crosby details the conflicting memories of Claiborne County residents and the parts of the civil rights movement they recall or ignore. As a group, the essays introduce numerous new characters and conundrums into civil rights scholarship, advance efforts to study African Americans and whites as interactive agents in the complex stories, and encourage historians to pull civil rights scholarship closer toward the present.

lillian pierce benbow: Art in Mississippi, 1720-1980 Patti Carr Black, 1998 In *Art in Mississippi* Patti Carr Black focuses on several hundred significant artists and showcases in full color the work of more than two hundred. Nationally acclaimed native Mississippians are here George Ohr, Walter Anderson, Marie Hull, Theora Hamblett, William Dunlap, Sam Gilliam, William Hollingsworth, Jr., Karl Wolfe, Mildred Nungester Wolfe, John McCrady, Ed McGowin, James Seawright, and many others. Prominent artists who lived or worked in the state for a significant period of time are included as well - John James Audubon, Louis Comfort Tiffany, George Caleb Bingham, William Aiken Walker, and more. Black explores how art reflects the land and how modes of living and values dictated by Mississippi's changing topography created a variety of art forms. She demonstrates the influence of Mississippi's diverse cultures upon the art and shows how it has responded in many forms - painting, architecture, sculpture, fine crafts - to the changing aesthetics of national art movements.

lillian pierce benbow: Pearls of Wisdom from a Woman of Color, Courage and Commitment: Pearlle Craft Dove Pearlle Craft Dove, 2015-01-31 As a student of history and education particularly, at historically Black colleges and universities, the evolution of professional education and the requirements for preparation in teacher education have produced critical thoughts and complementary text. It would seem that the chapters identified for publication in this volume from the ideals of Pearlle C. Dove should join the list of critical volumes for the ages in teacher education. This editor takes pride in knowing that his undergraduate degree came through the preparation program developed under the leadership of Dr. Pearlle C. Dove. When I considered that I was required to read about Mortimer Adler, John Dewey, and George S. Counts, Horace Mann Bond and Carter G. Woodson in my teacher preparation program as a history education major, the contents of this volume seemingly make my educational journey comprehensible. Mainly, this book's chapters enabled me to realize why great educators can produce a legacy through their body of work for generations. Perhaps, the reader of these volumes from 1960-2014 can acquire an appreciation for the impact of one professor-administrator on a teacher education program, a community of learners, a higher education institution, a sorority, a faith-based institution, and a future professor-administrator. I believe that Pearlle Dove invoked a presence that inspired generations of learners, communities, stakeholders, the profession of teacher education and at ninety-two years of

age a beacon of hope for those charting through the turbulent waters of educational change in the twenty-first century.

lillian pierce benbow: *Encyclopedia of the African Diaspora [3 volumes]* Carole Boyce Davies, 2008-07-29 The authoritative source for information on the people, places, and events of the African Diaspora, spanning five continents and five centuries. The field of African Diaspora studies is rapidly growing. Until now there was no single, authoritative source for information on this broad, complex discipline. Drawing on the work of over 300 scholars, this encyclopedia fills that void. Now the researcher, from high school level up, can go to a single reference for information on the historical, political, economic, and cultural relations between people of African descent and the rest of the world community. Five hundred years of relocation and dislocation, of assimilation and separation have produced a rich tapestry of history and culture into which are woven people, places, and events. This authoritative, accessible work picks out the strands of the tapestry, telling the story of diverse peoples, separated by time and distance, but retaining a commonality of origin and experience. Organized in A-Z sections covering global topics, country of origin, and destination country, the work is designed for easy use by all.

lillian pierce benbow: *Prolife Feminism* Linda Naranjo-Huebl, Rachel MacNair, Rachel M. MacNair, 2006-01-20 We need a new way of seeing! --Jennifer Ferguson, South African musician & Former MP, African National Congress Is abortion on demand a woman's right, or a wrong inflicted on women? Is it a mark of liberation, or a sign that women are not yet free? From Anglo-Irish writer Mary Wollstonecraft to Kenyan environmentalist and 2004 Nobel Peace Prize laureate Wangari Maathai, many eighteenth- through twenty-first-century feminists have opposed it as violence against fetal lives arising from violence against female lives. This more inclusive, surprisingly old-but-new vision of reproductive choice is called prolife feminism. This book's original edition in 1995 offered brilliant essays on abortion and related social justice issues by the likes of suffragists Susan B. Anthony and Elizabeth Cady Stanton and civil rights leader Fannie Lou Hamer. A decade of activism and research since has made this second, greatly expanded second edition necessary. It not only documents the continuing evolution of prolife feminism worldwide, but more accurately represents the rich diversity of past and present women--and men--who have stood up for both mother and child. It thus is a vital, unique resource for peacemaking in the increasingly globalized abortion war.

lillian pierce benbow: *Bertha Maxwell-Roddey* Sonya Y. Ramsey, 2022-06-21 The life and accomplishments of an influential leader in the desegregated South This biography of educational activist and Black studies forerunner Bertha Maxwell-Roddey examines a life of remarkable

achievements and leadership in the desegregated South. Sonya Ramsey modernizes the nineteenth-century term “race woman” to describe how Maxwell-Roddey and her peers turned hard-won civil rights and feminist milestones into tangible accomplishments in North Carolina and nationwide from the late 1960s to the 1990s. Born in 1930, Maxwell-Roddey became one of Charlotte’s first Black women principals of a white elementary school; she was the founding director of the University of North Carolina at Charlotte’s Africana Studies Department; and she cofounded the Afro-American Cultural and Service Center, now the Harvey B. Gantt Center for African-American Art + Culture. Maxwell-Roddey founded the National Council for Black Studies, helping institutionalize the field with what is still its premier professional organization, and served as the 20th National President of Delta Sigma Theta Sorority, Inc., one of the most influential Black women’s organizations in the United States. Using oral histories and primary sources that include private records from numerous Black women’s home archives, Ramsey illuminates the intersectional leadership strategies used by Maxwell-Roddey and other modern race women to dismantle discriminatory barriers in the classroom and the boardroom. Bertha Maxwell-Roddey offers new insights into desegregation, urban renewal, and the rise of the Black middle class through the lens of a powerful leader’s life story. Publication of this work made possible by a Sustaining the Humanities through the American Rescue Plan grant from the National Endowment for the Humanities.
