making faces kevyn aucoin pdf: *Survival of the Prettiest* Nancy Etcoff, 2011-02-02 A provocative and thoroughly researched inquiry into what we find beautiful and why, skewering the myth that the pursuit of beauty is a learned behavior. In *Survival of the Prettiest*, Nancy Etcoff, a faculty member at Harvard Medical School and a practicing psychologist at Massachusetts General Hospital, argues that beauty is neither a cultural construction, an invention of the fashion industry, nor a backlash against feminism—it's in our biology. Beauty, she explains, is an essential and ineradicable part of human nature that is revered and ferociously pursued in nearly every civilization—and for good reason. Those features to which we are most attracted are often signals of fertility and fecundity. When seen in the context of a Darwinian struggle for survival, our sometimes extreme attempts to attain beauty—both to become beautiful ourselves and to acquire an attractive partner—suddenly become much more understandable. Moreover, if we understand how the desire for beauty is innate, then we can begin to work in our own interests, and not just the interests of our genetic tendencies.

making faces kevin aucoin pdf: Mary, Will I Die? Shawn Sarles, 2021-09-07 Bestselling author Shawn Sarles' most terrifying YA horror yet . . . It starts innocently enough. Four kids - three girls, one boy - are at one of their houses, playing games. One of them has read about Bloody Mary and the idea that if you look into a mirror and say her name thirteen times, she will show you the future. Some legends say she'll show you your one true love or a skull to mark your death within five years. Others say that conjuring Bloody Mary will bring her into your world. Both sets of legends are true. The kids go through with the act, saying her name thirteen times. One girl looks in the mirror and sees her longtime crush. One girl looks in the mirror and sees the boy in the group. But she pretends to see something else. One girl looks in the mirror and sees a girl she's never seen before but can't get out of her mind. And the boy . . . he sees a skull. But he pretends to see something else. They try to laugh it off. And mostly they forget about it. Or at least they don't talk about it. Yes, over the next few years, whenever they look into a mirror, it's like there's always another figure standing in the background, getting closer. Just short of five years later, the four of them are no longer friends, having gone on separate paths. The girl whose house it was has always tried to avoid the mirror they used - because she always sensed someone in the background. One morning as she's passing by, she sees much more than her own reflection - it's a scary figure taunting her. She startles and breaks the mirror. When the pieces are put back together (barely), the figure is gone. That day in school, a new girl arrives. Her name is Mary . . .

making faces kevin aucoin pdf: Vidal Vidal Sassoon, 2010-09-03 Vidal Sassoon's extraordinary life has taken him from an impoverished East End childhood to global fame. The father of modern hairdressing, his slick sharp cutting took the fashion world by storm and reinvented the hairdressers' art. Before Vidal Sassoon, a trip to the hairdressers meant a shampoo and set or a stiffly lacquered up-do that would last a week - or more. After Vidal Sassoon, hair was sleek, smooth and very, very stylish. Along with his lifelong friend and partner in style, Mary Quant, who he first met in 1957 and who to this day sports a Sassoon-style geometric bob, he styled the 1960s. As memorable as the mini - be it car or skirt - he is one of the few people who can genuinely be described as iconic. His memoirs are as rich in anecdote as one might hope and full of surprising and often moving stories of his early life - his time at the Spanish & Portuguese Jewish Orphanage in Maida Vale, fighting Fascists in London's East End and fighting in the army of the fledgling state of Israel in the late Forties. And then there's the extraordinary career, during which he cut the hair of everyone who was anyone, launched salons all over the world, founded the hairdressing school that

still bears his name and became a global brand, with Vidal Sassoon products on all our bathroom shelves.

making faces kevin aucoin pdf: Color Theory for the Makeup Artist Katie Middleton, 2018-06-12 *Color Theory for the Make-up Artist: Understanding Color and Light for Beauty and Special Effects* analyzes and explains traditional color theory for fine artists and shows how to apply it directly toward make-up applications Make-up artists control color the same way a painter does. They choose color palettes, match colors, blend new colors, and create designs on a canvas that is always changing. Some colors cancel others, some balance each other, and some oppose other colors. However, painters seldom have to consider inconsistencies in how their art will be lit and where it will be displayed the way that a make-up artists does. This book teaches how to mix any color using just red, yellow, blue, and white. It discusses the reason for variations in skin colors and undertones, and how to identify and match these using make-up, while choosing flattering colors for the eyes, lips, and cheeks. Colors found inside the body are explained for special effects make-up, like why we bruise, bleed, or appear sick, and ideas and techniques are also described for painting prosthetics. The book also explains how lighting affects color on film, television, theater, and photography sets, and how to properly light a workspace for successful applications. Whether you are a professional or a beginner, you will never stop learning. There will always be new products, techniques, and fashions - this book provides guidance and inspiration to keep practicing, creating, and honing your skills.
