path japji sahib written in punjabi: Fighting Words John Renard, 2012-12-31 One of the critical issues in interreligious relations today is the connection, both actual and perceived, between sacred sources and the justification of violent acts as divinely mandated. Fighting Words makes solid text-based scholarship accessible to the general public, beginning with the premise that a balanced

approach to religious pluralism in our world must build on a measured, well-informed response to the increasingly publicized and sensationalized association of terrorism and large-scale violence with religion. In his introduction, Renard provides background on the major scriptures of seven religious traditions—Jewish, Christian (including both the Old and New Testaments), Islamic, Baha'i, Zoroastrian, Hindu, and Sikh. Eight chapters then explore the interpretation of select facets of these scriptures, focusing on those texts so often claimed, both historically and more recently, as inspiration and justification for every kind of violence, from individual assassination to mass murder. With its nuanced consideration of a complex topic, this book is not merely about the religious sanctioning of violence but also about diverse ways of reading sacred textual sources.

With a particular focus on the experiences of second generation Sikhs as they interact with various people in different social fields and cultural contexts, the book is constructed around three parts: 'family and home', 'public display and gender', and 'reflexivity and translations'. New scholarly voices and established academics present qualitative research and ethnographic fieldwork and analyse how young Sikhs try to solve social, intellectual and psychological tensions between the family and the expectations of the majority society, between Punjabi culture and religious values.

path japji sahib written in punjabi: The Guru Granth Sahib Pashaura Singh, 2003-09-26 This book examines three closely related questions in the process of canon formation in the Sikh tradition: how the text of the Adi Granth came into being, the meaning of gurbani, and how the Adi Granth became the Guru Granth Sahib. The censure of scholarly research on the Adi Granth was closely related to the complex political situation of Punjab and brought the whole issue of academic freedom into sharper focus. This book addresses some of these issues from an academic perspective. The Adi Granth, the sacred scripture of the Sikhs, means 'first religious book' (from the word 'adi' which means 'first' and 'granth' which means 'religious book'). Sikhs normally refer to the Adi Granth as the Guru Granth Sahib to indicate a confession of faith in the scripture as Guru. The contents of the Adi Granth are commonly known as bani (utterance) or gurbani (the utterance of the Guru). The transcendental origin (or ontological status) of the hymns of the Adi Granth is termed dhur ki bani (utterance from the beginning). This particular understanding of revelation is based upon the doctrine of the sabad, or divine word, defined by Guru Nanak and the succeeding Gurus. This book also explores the revelation of the bani and its verbal expression, devotional music in the Sikh tradition, the role of the scripture in Sikh ceremonies, and the hymns of Guru Nanak and Guru Arjan.

With clarity and candour, he writes of leaders like Jawaharlal Nehru and Indira Gandhi, the terrorist Jarnail Singh Bhindranwale, the talented and scandalous painter Amrita Shergil, and everyday people who became butchers during Partition. path japji sahib written in punjabi: Both Not Half Jassa Ahluwalia, 2024-05-13 'Full of warmth, humour, optimism and sometimes painful honesty' WILLIAM DALRYMPLE 'Anyone who's ever struggled to make sense of who they are and where they belong should read this book' NADIA WHITTOME MP 'An important voice of our generation' PARMINDER NAGRA 'This guy has better

Punjabi than both of us and he's only half Punjabi.' Only. Half. I stared at those words. The intent behind the comment was in no way malicious, but it hurt. I felt diminished. I felt like I was being robbed of something essential to me. And as I stared at my screen, realisation dawned. '#bothnohalf' I replied. For over twenty-five years, actor Jassa Ahluwalia described himself as 'half Indian, half English'. His fluent Punjabi always prompted bewilderment, medical staff questioned the legitimacy of his name, and the world of casting taught him he wasn't 'the right kind of mixed-race'. Feeling caught between two worlds, it wasn't long before Jassa embarked on a call to action: we need to change how we think and talk about mixed identity. By delving into the media we grew up consuming and the legacies of empire we have been taught, Ahluwalia asks: is there anything to be learnt from Rudyard Kipling? Why were movie stars urged to hide their mixed identities? To what extent did colonialism encourage or hinder mixed marriages? Is nationalism outdated? How can the politics of class and queer liberation inform our understanding of mixed identity? Both Not Half is a rallying cry for a new and inclusive future. It's a journey of self-discovery that unearths the historical roots of modern mixed identity as we know it, braving to deconstruct the binaries we have inherited and the narratives we passively accept. Part-memoir, part-manifesto: this is a campaign for belonging in a divided world.
