Material Composition

Typically, the crib is made from sustainable hardwoods such as oak, maple, or birch, which are known for their robustness. This choice aligns with eco-friendly practices and ensures that the crib can withstand the rigors of daily use over multiple years or even through multiple children.

Structural Design Elements

The crib's frame incorporates reinforced joints and slats spaced to meet

safety requirements while providing adequate ventilation. The base often features adjustable mattress heights, allowing parents to modify the sleeping surface as the infant grows. This adaptability extends the lifespan of the crib from newborn stages to toddlerhood.

These certifications confirm that the crib has undergone rigorous testing for structural integrity, toxic substance absence, and design safety features.

Child-Proofing Features

Additional safety components include rounded edges to prevent injury, non-toxic finishes, and hardware designed to resist loosening over time. The crib's slat spacing is regulated to prevent entrapment hazards, and the adjustable mattress height reduces fall risks as the child becomes more mobile.

Comfort and Usability Enhancements

Beyond safety and construction, the Pinehurst Lifestyle Crib integrates features aimed at increasing comfort for both infants and parents. It is designed to support healthy sleep patterns and ease of use in daily routines.

Mattress Support and Comfort

The adjustable support system for the mattress allows parents to provide a firm, flat sleeping surface, which is critical for infant safety and comfort. The crib accommodates standard-sized mattresses, enabling the use of high-quality, breathable mattress options.

pinehurst lifestyle crib: What Women Fear Angie Smith, 2011-08-31 A woman's faith in God is challenged by the first question Satan asks Eve in the Bible: Did God really say you can't eat from any tree in the garden? That seed of doubt and the story it begins to unfold breed a concept of fear still haunting each of us on some level every day-the idea that our actions could ruin something beautiful, and God might not have control of things. In What Women Fear, acclaimed writer and speaker Angie Smith admits, fear is a major part of my testimony and talks openly about her treatment for anxiety as a child. Giving a voice to the problem, she says, I truly believe every single one of us struggles with some type of fear, whether it's fear of flying or fear of being 'found out.' Maybe you don't worry about dying, but you get sick thinking about the fact that you might fail. Rather than suggesting that those who truly love the Lord would never fear, Angie blends her own experiences with those of men and women from throughout Scripture to help us start dealing more effectively with these true, human emotions. Whether it's a constant What if?, a nagging fear of abandonment or betrayal, fear of your own or someone else's death, fear of trusting God's plan, or even the fear that God's existence is a lie, Angie will walk you through stories of others who have simultaneously loved God and struggled with fear. Join Angie and discover how to let Jesus redeem this struggle as only He can, that He will be glorified, and you will be transformed! Endorsements Angie Smith has the rare gift to write a non-fiction page-turner as good as any fiction book I've read. As her words tumbled out in raw honesty, fresh hope spread before me. Her teachings on fear are comforting, practical, and gut honest. I can't wait for you to read this life-changing book. What

pinehurst lifestyle crib: The Short Season of Sharon Springs Stuart M. Blumin, Deborah Adelman Blumin, 1980 If travelers along Route 20 in east-central New York notice the village of Sharon Springs at all, it is only when they are caught in the speed trap located halfway down the hill leading to the town's single traffic light. But if one turns north at the light and drives into the heart of town, one is met with sights more interesting than might have been anticipated. During winter, the village resembles a sleeping relic of nineteenth-century America. In the summer, the streets are alive with people, many wearing the black coats and earlocks that are the marks of the Hasidic Jew--the flavor is not that of rural America, but a prewar Hungary or Romania. *The Short Season of Sharon Springs* is a portrait in photographs and words of the rise, decline, and survival of this strange little village and health spa in rural New York. Stuart M. Blumin has written a history of Sharon Springs that begins with the founding of the spa in 1825, describes the golden age of

upper-class resort life in the nineteenth century, analyzes the passing of that age and the emergence of a new era of local contraction and decay, and chronicles the curious manner in which the spa has managed to survive into our own day. He tells, also, the parallel story of the rural village that grew up around the hotels and baths, and that waxed and waned with the spa, even though it drew most of its sustenance not from tourism but from agriculture. Hansi Durlach has photographed the village, the villagers, and the summer visitors in ways that convey her own vision of contemporary Sharon Springs, and to her striking images are added a number of photographs that depict Sharon Springs in the nineteenth and early twentieth centuries. The text and photographs together tell the singular tale of a little community that is at once a part of and apart from rural America. Hansi Durlach is a professional photographer. Stuart M. Blumin is Associate Professor of History at Cornell University. Deborah Adelman Blumin is a sociologist who has worked for the State of New York.
