**plum in the golden vase pdf: Chinese Theories of Fiction** Ming Dong Gu, 2007-06-01 In this innovative work, Ming Dong Gu examines Chinese literature and traditional Chinese criticism to construct a distinctly Chinese theory of fiction and places it within the context of international fiction theory. He argues that because Chinese fiction, or *xiaoshuo*, was produced in a tradition very different from that of the West, it has formed a system of fiction theory that cannot be adequately accounted for by Western fiction theory grounded in mimesis and realism. Through an inquiry into the macrocosm of Chinese fiction, the art of formative works, and theoretical data in fiction commentaries and intellectual thought, Gu explores the conceptual and historical conditions of Chinese fiction in relation to European and world fiction. In the process, Gu critiques and challenges some accepted views of Chinese fiction and provides a theoretical basis for fresh approaches to fiction study in general and Chinese fiction in particular. Such masterpieces as the *Jin Ping Mei* (*The Plum in the Golden Vase*) and the *Hongloumeng* (*The Story of the Stone*) are discussed at length to advance his notion of fiction and fiction theory.

**plum in the golden vase pdf: Novel Medicine** Andrew Schonebaum, 2016-04-01 By examining the dynamic interplay between discourses of fiction and medicine, *Novel Medicine* demonstrates how fiction incorporated, created, and disseminated medical knowledge in China, beginning in the sixteenth century. Critical readings of fictional and medical texts provide a counterpoint to prevailing narratives that focus only on the "literati" aspects of the novel, showing that these texts were not merely read, but were used by a wide variety of readers for a range of purposes. The intersection of knowledge—fictional and real, elite and vernacular—illuminates the history of reading and daily life and challenges us to rethink the nature of Chinese literature.

**plum in the golden vase pdf: Androgyny in Late Ming and Early Qing Literature** Zuyan Zhou, 2003-02-28 The frequent appearance of androgyny in Ming and Qing literature has long interested scholars of late imperial Chinese culture. A flourishing economy, widespread education,

rising individualism, a prevailing hedonism--all of these had contributed to the gradual disintegration of traditional gender roles in late Ming and early Qing China (1550-1750) and given rise to the phenomenon of androgyny. Now, Zuyan Zhou sheds new light on this important period, offering a highly original and astute look at the concept of androgyny in key works of Chinese fiction and drama from the sixteenth to the eighteenth centuries. The work begins with an exploration of androgyny in Chinese philosophy and Ming-Qing culture. Zhou proceeds to examine chronologically the appearance of androgyny in major literary writing of the time, yielding novel interpretations of canonical works from *The Plum in the Golden Vase*, through the scholar-beauty romances, to *The Dream of the Red Chamber*. He traces the ascendance of the androgyny craze in the late Ming, its culmination in the Ming-Qing transition, and its gradual phasing out after the mid-Qing. The study probes deviations from engendered codes of behavior both in culture and literature, then focuses on two parallel areas: androgyny in literary characterization and androgyny in literati identity. The author concludes that androgyny in late Ming and early Qing literature is essentially the dissident literati's stance against tyrannical politics, a psychological strategy to relieve anxiety over growing political inferiority.

**plum in the golden vase pdf:** *The Substance of Fiction* Sophie Volpp, 2022-06-28 Do the portrayals of objects in literary texts represent historical evidence about the material culture of the past? Or are things in books more than things in the world? Sophie Volpp considers fictional objects of the late Ming and Qing that defy being read as illustrative of historical things. Instead, she argues, fictional objects are often signs of fictionality themselves, calling attention to the nature of the relationship between literature and materiality. Volpp examines a series of objects—a robe, a box and a shell, a telescope, a plate-glass mirror, and a painting—drawn from the canonical works frequently mined for information about late imperial material culture, including the novels *The Plum in the Golden Vase* and *The Story of the Stone* as well as the short fiction of Feng Menglong, Ling Mengchu, and Li Yu. She argues that although fictional objects invite readers to think of them as illustrative, in fact, inconsistent and discontinuous representation disconnects the literary object from potential historical analogues. The historical resonances of literary objects illuminate the rhetorical strategies of individual works of fiction and, more broadly, conceptions of fictionality in the Ming and Qing. Rather than offering a transparent lens on the past, fictional objects train the reader to be aware of the fallibility of perception. A deeply insightful analysis of late Ming and Qing

texts and reading practices, *The Substance of Fiction* has important implications for Chinese literary studies, history, and art history, as well as the material turn in the humanities.

**plum in the golden vase pdf:** *Reinventing Licentiousness* Y. Yvon Wang, 2021-03-15 *Reinventing Licentiousness* navigates an overlooked history of representation during the transition from the Qing Empire to the Chinese Republic—a time when older, hierarchical notions of licentiousness were overlaid by a new, pornographic regime. Y. Yvon Wang draws on previously untapped archives—ranging from police archives and surveys to ephemeral texts and pictures—to argue that pornography in China represents a unique configuration of power and desire that both reflects and shapes historical processes. On the one hand, since the late imperial period, pornography has democratized pleasure in China and opened up new possibilities of imagining desire. On the other, ongoing controversies over its definition and control show how the regulatory ideas of premodern cultural politics and the popular products of early modern cultural markets have contoured the globalized world. *Reinventing Licentiousness* emphasizes the material factors, particularly at the grassroots level of consumption and trade, that governed proper sexual desire and led to ideological shifts around the definition of pornography. By linking the past to the present and beyond, Wang's social and intellectual history showcases circulated pornographic material as a motor for cultural change. The result is an astonishing foray into what historicizing pornography can mean for our understandings of desire, legitimacy, capitalism, and culture.

**plum in the golden vase pdf:** *The Promise and Peril of Things* Wai-yee Li, 2022-05-17 Winner, 2023 Choice Outstanding Academic Title Our relationship with things abounds with paradoxes. People assign value to objects in ways that are often deeply personal or idiosyncratic yet at the same time rooted in specific cultural and historical contexts. How do things become meaningful? How do our connections with the world of things define us? In Ming and Qing China, inquiry into things and their contradictions flourished, and its depth and complexity belie the notion that material culture simply reflects status anxiety or class conflict. Wai-yee Li traces notions of the pleasures and dangers of things in the literature and thought of late imperial China. She explores how aesthetic claims and political power intersect, probes the objective and subjective dimensions of value, and questions what determines authenticity and aesthetic appeal. Li considers core oppositions—people and things, elegance and vulgarity, real and fake, lost and found—to tease out the ambiguities of material culture. With examples spanning the late sixteenth to the mid-eighteenth centuries, she shows how relations with things can both encode and resist social change, political crisis, and personal loss. *The Promise and Peril of Things* reconsiders major works such as *The Plum in the Golden Vase*, *The Story of the Stone*, Li Yu's writings, and Wu Weiye's poetry and drama, as well as a host of less familiar texts. It offers new insights into Ming and Qing literary and aesthetic sensibilities, as well as the intersections of material culture with literature, intellectual history, and art history.

**plum in the golden vase pdf:** *To Live as Long as Heaven and Earth* Robert Ford Campany, 2002-04-08 This book marks a new milestone in the study of Chinese religious history. Only a scholar as intelligent and dedicated as Campany would dare tackle and so eloquently translate one of the most important and difficult works of early Chinese religious history.—Paul Katz, author of *Images of the Immortal: The Cult of Lu Dongbin at the Palace of Eternal Joy* This is a pathbreaking work of lasting significance to the field of Chinese religious history. The scholarship is solid and current, drawing upon the best research from America, Europe, China, and Japan. The translation is accurate, clear, and elegant, based upon an innovative analysis of surviving sources.—Terry Kleeman, author of *Great Perfection: Religion and Ethnicity in a Chinese Millennial Kingdom* A competent translation of Ge Hong's hagiographies, with close attention paid to sources and editions, would already have constituted a major contribution to the field of Taoist studies. But Campany provides as well a survey of religious practices in Ge Hong's writings and a reading of the hagiographies which enables us to see the social practices that lie behind them. Together, these two works-in-one constitute the best available portrait of religion and society in early fourth-century China.—John Lagerwey, author of *Taoist Ritual in Chinese Society and History* Campany's annotated translation of Ge Hong's (283-343) classic, the first in English, admirably captures the book's rich evocation of the religious culture of Southern China in the fourth century. Ge Hong here offers a series of case studies of what he regarded as the historical and exemplary evidence for the existence of immortals. This translation of *Traditions of Divine Transcendents* conveys a lively and multifaceted vision of the Taoist conception of physical immortality. The book's emphasis on practices related to the cult of the immortals and the hope for transcendence squarely places its subject in the religious life of traditional Chinese society.—Franciscus Verellen, co-editor of *The Taoist Canon: A Historical Guide*

**plum in the golden vase pdf:** *Staging for the Emperors* Liana Chen (Assistant professor), 2021 Theatrical performance occupied a central place in the emotional and political life of the Qing dynasty imperial household. For over two centuries, the Qing court poured a tremendous amount of human and material resources into institutionalizing the theatrical arts for the purposes of entertainment and edification. The emperors and empresses were ardent patrons and key players in establishing an artistic form that the court theatre called its own. They went to great lengths to cultivate a discerning taste in theatre and oversaw the artistic and managerial aspects of court theatrical activities. In the imperial theatrical spaces within and outside the Forbidden City, which were designed and built with the capacity to produce stunning visual effects, theatrical productions

were staged to entertain imperial family members and to impress obeisance-paying guests from near and afar. Treating Qing dynasty court theatre as a unique site in which to examine important but uncharted realms of Chinese theatrical experience, *Staging for the Emperor* examines two distinct and interlocking dimensions of the Qing court theatre—the vicissitudes of the palace troupe and the multifaceted functions of court-commissioned ceremonial dramas—to highlight the diverse array of views held by individual rulers as they used theatrical means to promote their personal and political agendas. Drawing on recently discovered materials from a variety of court administrative bureaus, memoirs, diaries, and play scripts written for court ceremonial occasions, this study places the history of Qing court theatre in the broader context of Qing cultural and political history. *Staging for the Emperors* would appeal to readers interested in China studies and performance studies. It would also appeal to those outside the field of China studies who are interested in developing a cross-cultural perspective on the interplay between state rituals, power, identity formation, and theatrical experiences--

**plum in the golden vase pdf: *Sensuous Surfaces*** Jonathan Hay, 2010-06-25 With *Sensuous Surfaces*, Jonathan Hay offers one of the most richly illustrated and in-depth introductions to the decorative arts of Ming and Qing dynasty China to date. Examining an immense number of works, he explores the materials and techniques, as well as the effects of patronage and taste, that together have formed a loose system of informal rules that define the decorative arts in early modern China. Hay demonstrates how this system—by engaging the actual and metaphorical potential of surface—guided the production and use of decorative arts from the late sixteenth century through the middle of the nineteenth, a period of explosive growth. He shows how the understanding of decorative arts made a fundamental contribution to the sensory education of China's early modern urban population. Enriching his study with 280 color plates, he ultimately offers an elegant meditation, not only on Ming and Qing art but on the importance of the erotic in the form and function of decorations of all eras.

**plum in the golden vase pdf: Monks in Glaze** Eileen Hsiang-ling Hsu, 2016-11-21 *Monks in Glaze* is a complete reassessment of the famous group of large glazed ceramic sculptures known as the Yixian Luohans. Drawing upon hitherto-unknown epigraphic documents, Eileen Hsiang-ling Hsu proposes a new date (1511–1519) for the group's production and, for the first time, identifies the kiln centre near Beijing as its birthplace. Removed more than one hundred years ago from a massive grotto in northern China, the group's provenance disappeared after its dispersal between 1913 and 1933. Delving into the social and economic issues of religious patronage, imperial workshop practice, and nuanced style of post-Yuan Buddhist art, Hsu convincingly shows that such a large group of masterworks were products of well-developed commercial economy of the Ming dynasty.

**plum in the golden vase pdf: On Their Own Terms** Benjamin A. Elman, 2009-07-01 In On Their Own Terms, Benjamin A. Elman offers a much-needed synthesis of early Chinese science during the Jesuit period (1600-1800) and the modern sciences as they evolved in China under Protestant influence (1840s-1900). By 1600 Europe was ahead of Asia in producing basic machines, such as clocks, levers, and pulleys, that would be necessary for the mechanization of agriculture and industry. In the seventeenth and eighteenth centuries, Elman shows, Europeans still sought from the Chinese their secrets of producing silk, fine textiles, and porcelain, as well as large-scale tea cultivation. Chinese literati borrowed in turn new algebraic notations of Hindu-Arabic origin, Tychonic cosmology, Euclidian geometry, and various computational advances. Since the middle of the nineteenth century, imperial reformers, early Republicans, Guomindang party cadres, and Chinese Communists have all prioritized science and technology. In this book, Elman gives a nuanced account of the ways in which native Chinese science evolved over four centuries, under the influence of both Jesuit and Protestant missionaries. In the end, he argues, the Chinese produced modern science on their own terms.
