This multi-faceted approach addresses diverse learning styles and promotes holistic language acquisition.

## **Effective Study Strategies**

**realidades workbook 1 pdf: Principios, herramientas e implementación de Lean Construction**

Luis Fernando Botero Botero, 2021-05-01 Principios, herramientas e implementación de Lean Construction aborda el desarrollo de los sistemas de producción desde la producción artesanal, su evolución hacia la producción en masa, hasta el cambio radical del paradigma de producción en el siglo con el modelo Toyota en Japón, cuyas bases fueron utilizadas para proponer la teoría transformación-flujo-valor en la construcción. Se describen algunas herramientas enmarcadas en los principios Lean y aplicables al entorno de la construcción, en sinergia con otros enfoques recientes como la construcción virtual y la construcción sostenible. Además, se desarrollan conceptos teóricos y aplicaciones prácticas recopiladas por el autor durante los últimos quince años a partir de su investigación sobre el tema, y de múltiples ejercicios de acompañamiento como consultor en la implementación de Lean Construction en empresas de Colombia, Panamá y Costa Rica.

**Discourses and Identities in Romance Fiction** María Isabel González-Cruz, 2022-03-01

Despreciado por la crítica por su condición de literatura popular y femenina, el género romántico no solo continúa imbatible en el mercado editorial con su elevado índice de ventas, sino que en las últimas décadas está siendo objeto de interesantes estudios académicos. Discursos e Identidades en la Ficción Romántica se suma a esta corriente, al abordar el análisis interdisciplinar de un corpus de novelas publicadas en lengua inglesa entre 1955 y 2004. Ambientados en las islas atlánticas de Madeira y Canarias, estos textos encierran una variedad de discursos que ponen de manifiesto una visión muy anglófona de los lugares visitados por las protagonistas. Además del esperado discurso de género, en sus páginas se detecta un discurso del paraíso que resalta el exotismo de las islas, despertando en ocasiones la concienciación medioambiental, aunque también se perciben actitudes lingüísticas e incluso raciales, a medida que las autoras indagan en el descubrimiento del Otro. Ni los personajes ni los narradores son ajenos al choque de identidades y al contacto lingüístico (anglo-español y anglo-portugués), de manera que los conflictos que generan la identidad nacional, la identidad de género y la identidad étnica se vislumbran claramente tras la aparente sencillez de la intriga amorosa de este tipo de novelas. Disdained by critics for its status as popular and feminine literature, romance fiction not only remains unbeatable in the publishing market in terms of sales, but has also been the subject of interesting academic studies in recent decades. Discourses and Identities in Romance Fiction joins this trend by addressing the interdisciplinary analysis of a corpus of novels published in English between 1955 and 2004. Set on the Atlantic islands of Madeira and the Canaries, these texts develop a variety of discourses that reveal a very Anglophone vision of the places visited by their protagonists. In addition to the expected gender discourse, these romances tend to include a paradise narrative that highlights the exoticism of the islands, sometimes awakening environmental awareness. Linguistic and even racial attitudes also come to the forefront, as the writers explore and describe the features of the Other. Neither the characters nor the narrators are oblivious to the clash of identities and the linguistic contact (English-Spanish and English-Portuguese) exposed in this type of novels, revealing the conflicts generated by national, gender and/or ethnic identities behind the apparent simplicity of their love plots.
