Chireau, 2006-11-20 Black Magic looks at the origins, meaning, and uses of Conjure—the African American tradition of healing and harming that evolved from African, European, and American elements—from the slavery period to well into the twentieth century. seedfolks character chart: *Linking Literature with Life* Alexa L. Sandmann, John F. Ahern, 2002 Three significant changes have impacted the teaching of social studies to young adolescents in the past decade: (1) development of the curriculum standards for social studies by the National Council for the Social Studies (NCSS); (2) growth in the number of middle schools, which are premised on the integration of content; and (3) expansive use of children's literature in social studies. This book is in response to those innovations which are explained in two parts: (1) provides a rationale for using trade books in social studies and details strategies for nurturing students' reading comprehension; and (2) provides annotations for more than 250 trade books, along with ideas for classroom use, and recommends 150+ additional titles. An index by title and an index by subject are also included. (BT)

seedfolks character chart: The Raft Jim LaMarche, 2002-05-28 A flock of birds was moving toward me along the river, hovering over something floating on the water. It drifted downstream, closer and closer, until finally it bumped up against the dock. Though it was covered with leaves and branches, now I could tell that it was a raft. I reached down and pushed some of the leaves aside. Beneath them was a drawing of a rabbit. It looked like those ancient cave paintings I'd seen in books--just outlines, but wild and fast and free. Nicky isn't one bit happy about spending the summer with his grandma in the Wisconsin woods, but then the raft appears and changes everything. As Nicky explores, the raft works a subtle magic, opening up the wonders all around him--the animals of river and woods, his grandmother's humor and wisdom, and his own special talent as an artist.
