the wise mans fear pdf: Fear and Trembling Soren Kierkegaard, 2013-01-18 In our time nobody is content to stop with faith but wants to go further. It would perhaps be rash to ask where these people are going, but it is surely a sign of breeding and culture for me to assume that everybody has faith, for otherwise it would be queer for them to be . . . going further. In those old days it was different, then faith was a task for a whole lifetime, because it was assumed that dexterity in faith is not acquired in a few days or weeks. When the tried oldster drew near to his last hour, having fought the good fight and kept the faith, his heart was still young enough not to have forgotten that fear and trembling which chastened the youth, which the man indeed held in check, but which no man quite outgrows. . . except as he might succeed at the earliest opportunity in going further. Where these revered figures arrived, that is the point where everybody in our day begins to go further.

the wise mans fear pdf: The Dream of a Ridiculous Man Illustrated Fyodor Mikhailovich Dostoyevsky, 2021-04-06 The story opens with the narrator wandering the streets of St. Petersburg. He is contemplating the ridiculousness of his own life, and his recent realisation that nothing matters to him any more. It is this revelation that leads him to the idea of suicide. He reveals that, some months before, he had bought a revolver with the intent of shooting himself in the head. Despite a dismal night, the narrator looks up to the sky and views a solitary star. Shortly after seeing the star, a little girl comes running towards him. The narrator surmises that something is wrong with the girl's mother. He shakes the girl away and continues on to his apartment. Once in his apartment, he sinks into a chair and places the gun on a table next to him. He hesitates to shoot himself because of a nagging feeling of guilt that has plagued him ever since he shunned the girl. The narrator grapples with internal questions for a few hours before falling asleep in the chair. He descends into a vivid dream. In the dream, he shoots himself in the heart. He dies but is still aware of his surroundings. He gathers that there is a funeral and that it is he who is being buried. After an indeterminate amount of time in his cold grave, water begins to drip down onto his eyelids.

Unabridged (100% Original content) Font adjustments & biography included Illustrated About The Fall Of The House Of Usher: By Edgar Allan Poe The story begins with the unnamed narrator arriving at the house of his friend, Roderick Usher, having received a letter from him in a distant part of the country complaining of an illness and asking for his help. As he arrives, the narrator notes a thin crack extending from the roof, down the front of the building and into the lake. Although Poe wrote this short story before the invention of modern psychological science, Roderick's condition can be described according to its terminology. It includes a form of sensory overload known as hyperesthesia (hypersensitivity to textures, light, sounds, smells and tastes), hypochondria (an excessive preoccupation or worry about having a serious illness) and acute anxiety. It is revealed that Roderick's twin sister, Madeline, is also ill and falls into cataleptic, deathlike trances. The narrator is impressed with Roderick's paintings, and attempts to cheer him by reading with him and listening to his improvised musical compositions on the guitar. Roderick sings The Haunted Palace, then tells the narrator that he believes the house he lives in to be alive, and that this sentience arises from the arrangement of the masonry and vegetation surrounding it.

the wise mans fear pdf: *By the Waters of Babylon* Stephen Vincent Benet, 2015-08-24 The north and the west and the south are good hunting ground, but it is forbidden to go east. It is forbidden to go to any of the Dead Places except to search for metal and then he who touches the metal must be a priest or the son of a priest. Afterwards, both the man and the metal must be purified. These are the rules and the laws; they are well made. It is forbidden to cross the great river and look upon the place that was the Place of the Gods-this is most strictly forbidden. We do not even say its name though we know its name. It is there that spirits live, and demons-it is there that there are the ashes of the Great Burning. These things are forbidden- they have been forbidden since the beginning of time.

the wise mans fear pdf: *Command Of The Air* General Giulio Douhet, 2014-08-15 In the pantheon of air power spokesmen, Giulio Douhet holds center stage. His writings, more often cited than perhaps actually read, appear as excerpts and aphorisms in the writings of numerous other air power spokesmen, advocates-and critics. Though a highly controversial figure, the very controversy that surrounds him offers to us a testimonial of the value and depth of his work, and the need for airmen today to become familiar with his thought. The progressive development of air power to the point where, today, it is more correct to refer to aerospace power has not outdated the notions of Douhet in the slightest In fact, in many ways, the kinds of technological capabilities that we enjoy as a global air power provider attest to the breadth of his vision. Douhet, together with Hugh "Boom" Trenchard of Great Britain and William "Billy" Mitchell of the United States, is justly recognized as one of the three great spokesmen of the early air power era. This reprint is offered in the spirit of continuing the dialogue that Douhet himself so perceptively began with the first edition of this book, published in 1921. Readers may well find much that they disagree with in this book, but also much that is of enduring value. The vital necessity of Douhet's central vision-that command of the air is all important in modern warfare-has been proven throughout the history of wars in this century, from the fighting over the Somme to the air war over Kuwait and Iraq.
