thomas thistlewood diary pdf: Mastery, Tyranny, and Desire Trevor Burnard, 2009-11-17 Eighteenth-century Jamaica, Britain's largest and most valuable slave-owning colony, relied on a brutal system of slave management to maintain its tenuous social order. Trevor Burnard provides unparalleled insight into Jamaica's vibrant but harsh African and European cultures with a comprehensive examination of the extraordinary diary of plantation owner Thomas Thistlewood. Thistlewood's diary, kept over the course of forty years, describes in graphic detail how white rule over slaves was predicated on the infliction of terror on the bodies and minds of slaves. Thistlewood treated his slaves cruelly even while he relied on them for his livelihood. Along with careful notes on sugar production, Thistlewood maintained detailed records of a sexual life that fully expressed the society's rampant sexual exploitation of slaves. In Burnard's hands, Thistlewood's diary reveals a great deal not only about the man and his slaves but also about the structure and enforcement of power, changing understandings of human rights and freedom, and connections among social class, race, and gender, as well as sex and sexuality, in the plantation system.

thomas thistlewood diary pdf: In Miserable Slavery Douglas Hall, Thomas Thistlewood, 1999 Thomas Thistlewood (1721-1786) was a British estate overseer and small landowner in western Jamaica. He arrived in Jamaica, the most important of the British sugar colonies in 1750, when he was 29 years old. He became the overseer or manager of the Egypt sugar plantation near the small port of Savanna la Mar. He stayed in Jamaica until his death in 1786. He wrote a diary, which eventually ran to some 10,000 pages, and this diary became an important historical document on slavery and history of Jamaica.

thomas thistlewood diary pdf: Slavery and the Enlightenment in the British Atlantic, 1750-1807 Justin Roberts, 2013-07-08 This book focuses on how Enlightenment ideas shaped plantation management and slave work routines. It shows how work dictated slaves' experiences and influenced their families and communities on large plantations in Barbados, Jamaica, and Virginia. It examines plantation management schemes, agricultural routines, and work regimes in more detail than other scholars have done. This book argues that slave workloads were increasing in the eighteenth century and that slave owners were employing more rigorous labor discipline and supervision in ways that scholars now associate with the Industrial Revolution.

thomas thistlewood diary pdf: The 18th Century Climate of Jamaica Derived from the Journals of Thomas Thistlewood, 1750-1786 Michael Chenoweth, 2003 Thomas Thistlewood is known for his daily records of life on a slave plantation in eighteenth-century Jamaica. Thistlewood's previously unexamined weather journal is shown here to be the most important written record from the Earth's tropical regions available. His observation methods are superior to most of his contemporaries & provide a high-quality daily record of more than 35 years. Comparison of his records with modern weather records indicates that Thistlewood's Jamaica was a much cooler & moister place than in modern times. A 252-year record of tropical storm & hurricane frequency in Jamaica reveals that the late 20th-century minimum in storm frequency is unprecedented.

thomas thistlewood diary pdf: The Long Emancipation Ira Berlin, 2015-09-15 Perhaps no event in American history arouses more impassioned debate than the abolition of slavery. Answers to basic questions about who ended slavery, how, and why remain fiercely contested more than a century and a half after the passage of the Thirteenth Amendment. In *The Long Emancipation*, Ira Berlin draws upon decades of study to offer a framework for understanding slavery's demise in the United States. Freedom was not achieved in a moment, and emancipation was not an occasion but a near-century-long process—a shifting but persistent struggle that involved thousands of men and women. “Ira Berlin ranks as one of the greatest living historians of slavery in the United States... The Long Emancipation offers a useful reminder that abolition was not the charitable work of

respectable white people, or not mainly that. Instead, the demise of slavery was made possible by the constant discomfort inflicted on middle-class white society by black activists. And like the participants in today's Black Lives Matter movement, Berlin has not forgotten that the history of slavery in the United States—especially the history of how slavery ended—is never far away when contemporary Americans debate whether their nation needs to change.” —Edward E. Baptist, New York Times Book Review

thomas thistlewood diary pdf: *The Reaper's Garden* Vincent Brown, 2010-10-30 Winner of the Merle Curti Award Winner of the James A. Rawley Prize Winner of the Louis Gottschalk Prize Longlisted for the Cundill Prize “Vincent Brown makes the dead talk. With his deep learning and powerful historical imagination, he calls upon the departed to explain the living. The Reaper's Garden stretches the historical canvas and forces readers to think afresh. It is a major contribution to the history of Atlantic slavery.”—Ira Berlin From the author of *Tacky's Revolt*, a landmark study of life and death in colonial Jamaica at the zenith of the British slave empire. What did people make of death in the world of Atlantic slavery? In *The Reaper's Garden*, Vincent Brown asks this question about Jamaica, the staggeringly profitable hub of the British Empire in America—and a human catastrophe. Popularly known as the grave of the Europeans, it was just as deadly for Africans and their descendants. Yet among the survivors, the dead remained both a vital presence and a social force. In this compelling and evocative story of a world in flux, Brown shows that death was as generative as it was destructive. From the eighteenth-century zenith of British colonial slavery to its demise in the 1830s, the Grim Reaper cultivated essential aspects of social life in Jamaica—belonging and status, dreams for the future, and commemorations of the past. Surveying a haunted landscape, Brown unfolds the letters of anxious colonists; listens in on wakes, eulogies, and solemn incantations; peers into crypts and coffins, and finds the very spirit of human struggle in slavery. Masters and enslaved, fortune seekers and spiritual healers, rebels and rulers, all summoned the dead to further their desires and ambitions. In this turbulent transatlantic world, Brown argues, “mortuary politics” played a consequential role in determining the course of history. Insightful and powerfully affecting, *The Reaper's Garden* promises to enrich our understanding of the ways that death shaped political life in the world of Atlantic slavery and beyond.

thomas thistlewood diary pdf: *Gender and Empire* Angela Woollacott, 2006-01-23 One of the first single-authored books to survey the role of sex and gender in the 'new imperial history', *Gender and Empire* covers the whole British Empire, demonstrating connections and comparisons between the white-settler colonies, and the colonies of exploitation and rule. Through key topics and episodes across a broad range of British Empire history, Angela Woollacott examines how gender ideologies and practices affected women and men, and structured imperial politics and culture. Woollacott integrates twenty years of scholarship, providing fresh insights and interpretation using feminist and postcolonial approaches. Fiction and other vivid primary sources present the voices of historical subjects, enlivening discussions of central topics and debates in imperial and colonial history. The circulation of imperial culture and colonial subjects along with conceptions of gender and race reveals the integrated nature of British colonialism from the eighteenth to the twentieth centuries. Authoritative and approachable, this is essential reading for students of world history, imperial history and gender relations.

thomas thistlewood diary pdf: *Centering Woman* Hilary Beckles, 1999 Caribbean women black, white and brown, free and enslaved, migrants and creoles, rich and poor are assembled in this book and their lives examined as they battled both against male domination and among themselves for social advantage. Females challenged each other for monopoly access to and use of terms such as woman and feminine in the process widening the existing social and ethnic divisions among themselves, and thus fragmenting their collective search for autonomy. Hilary Beckles uses the method of narrative biography with its appealing sense of immediacy of women's language, script and social politics, to expose the gender order of Caribbean slave society as it determined and defined the everyday lives of women. He also seeks to explore the effectiveness of women's actions as they searched for freedom, material betterment, justice and social security. Understanding how

gender is socially determined, understood and lived serves to illuminate why and how some women subscribed to the institutional culture of patriarchy while others launched discreet missions of self-empowerment and collective liberation. This book is about feminism in action, not theorized by post-modern radicals, but by women who actively sought to create spaces and build structures within self-conceived visions of social advancement.

thomas thistlewood diary pdf: *The Market Revolution in America* John Lauritz Larson, 2009-09-14 The mass industrial democracy that is the modern United States bears little resemblance to the simple agrarian republic that gave it birth. The market revolution is the reason for this dramatic - and ironic - metamorphosis. The resulting tangled frameworks of democracy and capitalism still dominate the world as it responds to the panic of 2008. Early Americans experienced what we now call 'modernization'. The exhilaration - and pain - they endured have been repeated in nearly every part of the globe. Born of freedom and ambition, the market revolution in America fed on democracy and individualism even while it generated inequality, dependency, and unimagined wealth and power. In this book, John Lauritz Larson explores the lure of market capitalism and the beginnings of industrialization in the United States. His research combines an appreciation for enterprise and innovation with recognition of negative and unanticipated consequences of the transition to capitalism and relates economic change directly to American freedom and self-determination, links that remain entirely relevant today.

thomas thistlewood diary pdf: *Doctors and Slaves* Richard B. Sheridan, 2009-03-12 In this study Professor Sheridan presents a rich and wide-ranging account of the health care of slaves in the British West Indies, from 1680-1834. He demonstrates that while Caribbean island settlements were viewed by mercantile statesmen and economists as ideal colonies, the physical and medical realities were very different. The study is based on wide research in archival materials in Great Britain, the West Indies and the United States. By steeping himself in the eighteenth- and nineteenth-century sources, Professor Sheridan is able to recreate the milieu of a past era: he tells us what the slave doctors wrote and how they functioned, and he presents a storehouse of information on how and why the slaves sickened and died. By bringing together these diverse medical demographic and economic sources, Professor Sheridan casts new light on the history of slavery in the Americas.

thomas thistlewood diary pdf: *Slavery and the British Country House* Madge Dresser, Andrew Hann, 2013 The British country house has long been regarded as the jewel in the nation's heritage crown. But the country house is also an expression of wealth and power, and as scholars reconsider the nation's colonial past, new questions are being posed about these great houses and their links to Atlantic slavery. This book, authored by a range of academics and heritage professionals, grew out of a 2009 conference on 'Slavery and the British Country house: mapping the current research' organised by English Heritage in partnership with the University of the West of England, the National Trust and the Economic History Society. It asks what links might be established between the wealth derived from slavery and the British country house and what implications such links should have for the way such properties are represented to the public today. Lavishly illustrated and based on the latest scholarship, this wide-ranging and innovative volume provides in-depth examinations of individual houses, regional studies and critical reconsiderations of existing heritage sites, including two studies specially commissioned by English Heritage and one sponsored by the National Trust.

Thompson, 2016-03-15 A history of the common people and the Industrial Revolution: "A true masterpiece" and one of the Modern Library's 100 Best Nonfiction Books of the twentieth century (Tribune). During the formative years of the Industrial Revolution, English workers and artisans claimed a place in society that would shape the following centuries. But the capitalist elite did not form the working class—the workers shaped their own creations, developing a shared identity in the process. Despite their lack of power and the indignity forced upon them by the upper classes, the working class

emerged as England's greatest cultural and political force. Crucial to contemporary trends in all aspects of society, at the turn of the nineteenth century, these workers united into the class that we recognize all across the Western world today. E. P. Thompson's magnum opus, *The Making of the English Working Class* defined early twentieth-century English social and economic history, leading many to consider him Britain's greatest postwar historian. Its publication in 1963 was highly controversial in academia, but the work has become a seminal text on the history of the working class. It remains incredibly relevant to the social and economic issues of current times, with the Guardian saying upon the book's fiftieth anniversary that it "continues to delight and inspire new readers."

thomas thistlewood diary pdf: The Festival of Wild Orchid Ann-Margaret Lim, 2012 Alert to all the contradictions of contemporary Jamaica, these lyric and delicate poems find fresh things to say about the country's landscapes and seascapes. Written in both standard Caribbean English and Jamaican patois with wit, an imaginative eye, and warmth, this collection presents a feisty and questioning poetic persona: one who responds frankly to the endemic violence, misogyny, and poverty of a divided society. Through pungent phrases and arresting images, this compilation not only reflects upon the poet's Chinese and African heritages, but also celebrates the novelty of the world as discovered by her child.

thomas thistlewood diary pdf: The Mighty Experiment Seymour Drescher, 2004-10-14 By the mid-eighteenth century, the transatlantic slave trade was considered to be a necessary and stabilizing factor in the capitalist economies of Europe and the expanding Americas. Britain was the

most influential power in this system which seemed to have the potential for unbounded growth. In 1833, the British empire became the first to liberate its slaves and then to become a driving force toward global emancipation. There has been endless debate over the reasons behind this decision. This has been portrayed on the one hand as a rational disinvestment in a foundering overseas system, and on the other as the most expensive per capita expenditure for colonial reform in modern history. In this work, Seymour Drescher argues that the plan to end British slavery, rather than being a timely escape from a failing system, was, on the contrary, the crucial element in the greatest humanitarian achievement of all time. *The Mighty Experiment* explores how politicians, colonial bureaucrats, pamphleteers, and scholars taking anti-slavery positions validated their claims through rational scientific arguments going beyond moral and polemical rhetoric, and how the infiltration of the social sciences into this political debate was designed to minimize agitation on both sides and provide common ground. Those at the inception of the social sciences, such as Adam Smith and Thomas Malthus, helped to develop these tools to create an argument that touched on issues of demography, racism, and political economy. By the time British emancipation became legislation, it was being treated as a massive social experiment, whose designs, many thought, had the potential to change the world. This study outlines the relationship of economic growth to moral issues in regard to slavery, and will appeal to scholars of British history, nineteenth century imperial history, the history of slavery, and those interested in the history of human rights. *The Mighty Experiment* was the winner of First Prize, Frederick Douglass Book Prize, Gilder Lehrman Center for the Study of Slavery, Resistance, and Abolition.

thomas thistlewood diary pdf: *The Book of Night Women* Marlon James, 2009-02-19 From the author of the National Book Award finalist *Black Leopard, Red Wolf* and the WINNER of the 2015 Man Booker Prize for *A Brief History of Seven Killings* An undeniable success." — The New York Times Book Review A true triumph of voice and storytelling, *The Book of Night Women* rings with both profound authenticity and a distinctly contemporary energy. It is the story of Lilith, born into slavery on a Jamaican sugar plantation at the end of the eighteenth century. Even at her birth, the slave women around her recognize a dark power that they- and she-will come to both revere and fear. The Night Women, as they call themselves, have long been plotting a slave revolt, and as Lilith comes of age they see her as the key to their plans. But when she begins to understand her own feelings, desires, and identity, Lilith starts to push at the edges of what is imaginable for the life of a slave woman, and risks becoming the conspiracy's weak link. But the real revelation of the book-the secret to the stirring imagery and insistent prose-is Marlon James himself, a young writer at once breathtakingly daring and wholly in command of his craft.

Sheridan, 1994 This book covers the changing preference of growing sugar rather than tobacco which had been the leading crop in the trans-Atlantic colonies. The Sugar Islands were Antigua, Barbados, St. Christopher, Dominica, and Cuba through Trinidad. Jamaica has been by far the major producer of sugar, but The Lesser Antilles had the advantage of a shorter sea trip to deliver produce and rum to the European Markets during the 18th and 19th Centuries.

thomas thistlewood diary pdf: *Dark Matters* Simone Browne, 2015-10-02 In *Dark Matters*

Simone Browne locates the conditions of blackness as a key site through which surveillance is practiced, narrated, and resisted. She shows how contemporary surveillance technologies and practices are informed by the long history of racial formation and by the methods of policing black life under slavery, such as branding, runaway slave notices, and lantern laws. Placing surveillance studies into conversation with the archive of transatlantic slavery and its afterlife, Browne draws from black feminist theory, sociology, and cultural studies to analyze texts as diverse as the methods of surveilling blackness she discusses: from the design of the eighteenth-century slave ship *Brooks*, Jeremy Bentham's Panopticon, and *The Book of Negroes*, to contemporary art, literature, biometrics, and post-9/11 airport security practices. Surveillance, Browne asserts, is both a discursive and material practice that reifies boundaries, borders, and bodies around racial lines, so much so that the surveillance of blackness has long been, and continues to be, a social and political norm.

Aljoe, 2011-12-15 Analyses the relationships among the socio-historical contexts, generic forms, and rhetorical strategies of British West Indian slave narratives. Grounded by the syncretic theories of creolisation and testimonio it breaks new ground by reading these dictated and fragmentary narratives on their own terms as examples of 'creole testimony'.

thomas thistlewood diary pdf: Pursuing Intersectionality, Unsettling Dominant Imaginaries Vivian M. May, 2015-01-09 Pursuing Intersectionality, Unsettling Dominant Imaginaries offers a sustained, interdisciplinary exploration of intersectional ideas, histories, and practices that no other text does. Deftly synthesizing much of the existing literatures on intersectionality, one of the most significant theoretical and political precepts of our time, May invites us to confront a disconcerting problem: though intersectionality is widely known, acclaimed, and applied, it is often construed in ways that depoliticize, undercut, or even violate its most basic premises. May cogently demonstrates how intersectionality has been repeatedly resisted, misunderstood, and misapplied: provocatively, she shows the degree to which intersectionality is often undone or undermined by supporters and critics alike. A clarion call to engage intersectionality's radical ideas, histories, and justice orientations more meaningfully, Pursuing Intersectionality answers the basic questions surrounding intersectionality, attends to its historical roots in Black feminist theory and politics, and offers insights and strategies from across the disciplines for bracketing dominant logics and for orienting toward intersectional dispositions and practices.

The unexpurgated text, presented here with extensive notes and commentary, constitutes one of the richest and most evocative accounts ever written of colonial life—and one of the strongest indictments ever to appear against New World slavery.

thomas thistlewood diary pdf: Race and Family in the Colonial South , This volume of

papers from the Porter M. Fortune Chancellor's Symposium in Southern History held at the University of Mississippi in 1986 questions what was distinctively southern about the colonial South. Though this region was a land of diversity and had the kind of provincialism that typified other English colonies during this period, the editors find it nearly impossible to characterize the colonial South as unique. The roots of southern distinctiveness, however, were taking hold in the years before the American Revolution, as the papers here attest. In the opening essay Tate surveys recent historical scholarship on the period and targets trends for further study. Next, Galloway examines Indian-French relations in eastern Louisiana during the eighteenth century. Smith describes the family unit and examines the various forces that worked against its formation. In an examination of three slave-owning families, Morgan casts a new light on slavery in the colonies which he argues to have operated within a harsh patriarchal system that stressed domination, order, authority, and unswerving obedience. Menard's essay also is on the subject of slavery, showing the unique system in the Low Country of South Carolina. In the final paper Middlekauff assesses each of the preceding papers and suggests subjects for future studies of the colonial South.

thomas thistlewood diary pdf: Making Black History Dominique Haensell, 2021-10-04 This study proposes that - rather than trying to discern the normative value of Afropolitanism as an identificatory concept, politics, ethics or aesthetics - Afropolitanism may be best approached as a distinct historical and cultural moment, that is, a certain historical constellation that allows us to glimpse the shifting and multiple silhouettes which Africa, as signifier, as real and imagined locus, embodies in the globalized, yet predominantly Western, cultural landscape of the 21st century. As such, Making Black History looks at contemporary fictions of the African or Black Diaspora that have been written and received in the moment of Afropolitanism. Discursively, this moment is very much part of a diasporic conversation that takes place in the US and is thus informed by various negotiations of blackness, race, class, and cultural identity. Yet rather than interpreting Afropolitan literatures (merely) as a rejection of racial solidarity, as some commentators have, they should be read as ambivalent responses to post-racial discourses dominating the first decade of the 21st century, particularly in the US, which oscillate between moments of intense hope and acute disappointment. thomas thistlewood diary pdf: British West Indian Slavery, 1750-1834 J. R. Ward, 1988 The first account of Caribbean slavery to draw from the plantation records of several different sugar colonies, this book examines the attempts made by British West Indian planters to improve the treatment of their slaves, partly in response to the anti-slavery movement. Ward argues that although the measures taken did raise the standard of living and productive efficiency of plantation slaves, amelioration contained serious weaknesses that made it ultimately ineffective as a means of defending the institution of slavery. Though focused on the British West Indies, the book's main theme--the potential for reform and economic development in slave-based societies--will hold wider significance for a variety of economic and social historians.

thomas thistlewood diary pdf: Disposable People Kevin Bales, 2012-04-23 Slavery is illegal throughout the world, yet more than twenty-seven million people are still trapped in one of history's oldest social institutions. Kevin Bales's disturbing story of slavery today reaches from brick kilns in Pakistan and brothels in Thailand to the offices of multinational corporations. His investigation of conditions in Mauritania, Brazil, Thailand, Pakistan, and India reveals the tragic emergence of a new slavery, one intricately linked to the global economy. The new slaves are not a long-term investment as was true with older forms of slavery, explains Bales. Instead, they are cheap, require little care, and are disposable. Three interrelated factors have helped create the new slavery. The enormous population explosion over the past three decades has flooded the world's labor markets with millions

of impoverished, desperate people. The revolution of economic globalization and modernized agriculture has dispossessed poor farmers, making them and their families ready targets for enslavement. And rapid economic change in developing countries has bred corruption and violence, destroying social rules that might once have protected the most vulnerable individuals. Bales's vivid case studies present actual slaves, slaveholders, and public officials in well-drawn historical, geographical, and cultural contexts. He observes the complex economic relationships of modern slavery and is aware that liberation is a bitter victory for a child prostitute or a bonded miner if the result is starvation. Bales offers suggestions for combating the new slavery and provides examples of very positive results from organizations such as Anti-Slavery International, the Pastoral Land Commission in Brazil, and the Human Rights Commission in Pakistan. He also calls for researchers to follow the flow of raw materials and products from slave to marketplace in order to effectively target campaigns of naming and shaming corporations linked to slavery. Disposable People is the first book to point the way to abolishing slavery in today's global economy. All of the author's royalties from this book go to fund anti-slavery projects around the world.
