very hungry caterpillar pdf: Metamorphosis Franz Kafka, 2021-03-19 Franz Kafka, the author has very nicely narrated the story of Gregor Samsa who wakes up one day to discover that he has metamorphosed into a bug. The book concerns itself with the themes of alienation and existentialism. The author has written many important stories, including "The Judgement", and much of his novels "Amerika", "The Castle", "The Hunger Artist". Many of his stories were published during his lifetime but many were not. Over the course of the 1920s and 30s Kafka's works were published and translated instantly becoming landmarks of twentieth-century literature. Ironically, the story ends on an optimistic note, as the family puts itself back together. The style of the book epitomizes Kafka's writing. Kafka very interestingly, used to present an impossible situation, such as a man's transformation into an insect, and develop the story from there with perfect realism and intense attention to detail. *The Metamorphosis* is an autobiographical piece of writing, and we find that parts of the story reflect Kafka's own life.

very hungry caterpillar pdf: Alice in Wonderland Lewis Carroll, 2024-09-25 Alice's Adventures in Wonderland is an 1865 English children's novel by Lewis Carroll, a mathematics don at the University of Oxford. It details the story of a girl named Alice who falls through a rabbit hole into a fantasy world of anthropomorphic creatures. It is seen as an example of the literary nonsense genre. The artist John Tenniel provided 42 wood-engraved illustrations for the book. It received positive reviews upon release and is now one of the best-known works of Victorian literature; its narrative, structure, characters and imagery have had a widespread influence on popular culture and literature, especially in the fantasy genre. It is credited as helping end an era of didacticism in children's literature, inaugurating an era in which writing for children aimed to delight or entertain. The tale plays with logic, giving the story lasting popularity with adults as well as with children. The titular character Alice shares her name with Alice Liddell, a girl Carroll knew; scholars disagree about the extent to which the character was based upon her.
