Winnico Product Range

The winnico brand offers a broad spectrum of commercial kitchen equipment designed to meet the rigorous demands of professional food service environments. Their product range includes cooking

appliances, refrigeration units, food preparation equipment, and storage solutions. Each product is engineered with a focus on performance, energy efficiency, and user-friendly operation.

Cooking Appliances

Winnico's cooking equipment includes ovens, fryers, grills, and ranges. These appliances are constructed with high-grade stainless steel to ensure longevity and ease of cleaning. The cooking units are designed for fast heat recovery, consistent temperature control, and energy efficiency, catering to high-volume cooking settings.

Refrigeration Units

The refrigeration line by winnico features commercial refrigerators, freezers, and refrigerated prep tables. These units utilize advanced cooling technology to maintain optimal temperature levels, preserving food freshness and safety. The refrigeration appliances are also equipped with digital temperature controls and energy-saving compressors.

Food Preparation and Storage

Winnico provides a variety of food preparation tables, sinks, and shelving units. These products are designed for ergonomic use and maximize kitchen space. Storage solutions include durable shelving and cabinets that help organize kitchen tools and ingredients efficiently.

Key Features and Benefits

Winnico products are distinguished by their robust build quality, innovative design, and operational efficiency. The brand incorporates several advanced features that deliver tangible benefits to commercial kitchen operators.

Durability and Material Quality

One of the most notable features of winnico equipment is the use of premium stainless steel, which resists corrosion, staining, and wear. This ensures a longer lifespan and reduced maintenance costs, essential for commercial kitchens that operate daily.

Energy Efficiency

Winnico appliances are designed to minimize energy consumption without compromising performance. Features such as energy-efficient compressors, insulation, and precise temperature controls help reduce utility expenses and environmental impact.

Ease of Use and Maintenance

Winnico products emphasize user-friendly interfaces and simple cleaning procedures. Removable parts, accessible controls, and smooth surfaces all contribute to faster maintenance routines, reducing downtime and improving kitchen workflow.

Applications in Commercial Kitchens

The versatility of winnico equipment makes it suitable for various commercial kitchen settings. From small cafes to large-scale catering operations, winnico addresses the needs of diverse culinary environments.

Restaurants and Hotels

Restaurants and hotels benefit from winnico's reliable cooking and refrigeration solutions that support high-volume meal production. The brand's equipment helps maintain quality and consistency in food preparation, crucial for customer satisfaction.

Catering Services

Catering businesses require portable, efficient, and durable equipment. Winnico's product line includes mobile prep tables and compact refrigeration units tailored to meet these specific demands.

Institutional Kitchens

Institutions such as hospitals, schools, and correctional facilities rely on winnico for robust kitchen appliances that comply with health and safety standards. The brand's focus on durability and hygiene is particularly valuable in these settings.

Maintenance and Durability

Proper maintenance is essential to maximize the lifespan and performance of winnico kitchen equipment. The company provides guidelines and recommendations to ensure that appliances remain in optimal condition.

Regular Cleaning Procedures

Winnico appliances are designed with hygiene in mind, featuring smooth surfaces and removable parts that facilitate thorough cleaning. Regular cleaning prevents buildup of grease and debris that can impair performance.

Scheduled Inspections and Servicing

Routine inspections help identify wear and potential issues early. Winnico recommends periodic servicing by qualified technicians to maintain efficiency and safety, especially for complex appliances like refrigeration units and fryers.

Replacement Parts and Upgrades

The availability of genuine winnico replacement parts ensures that repairs restore original equipment functionality. The company also offers upgrades to enhance appliance performance and extend usability.

Customer Support and Warranty

Winnico places strong emphasis on customer satisfaction by providing comprehensive support and warranty coverage. This approach helps businesses protect their investment and minimize operational disruptions.

Warranty Coverage

Most winnico products come with manufacturer warranties that cover defects in materials and workmanship. Warranty terms vary by product but generally include repair or replacement services within a specified period.

Technical Support Services

Winnico offers accessible customer service channels, including phone and email support, to assist with troubleshooting and technical inquiries. Expert advice helps users optimize appliance use and resolve issues promptly.

Training and Resources

To facilitate proper use and maintenance, winnico provides instructional materials such as manuals, videos, and training sessions. These resources empower kitchen staff to operate equipment safely and efficiently.

Summary of Winnico's Advantages

- High-quality stainless steel construction for durability
- Energy-efficient technologies that reduce operational costs
- Wide range of products suitable for various commercial kitchen needs
- Designed for ease of cleaning and maintenance
- Comprehensive warranty and customer support services

Winnico: Unleash the Power Within - A Comprehensive Guide to Self-Empowerment

Introduction: Understanding Your Inner Winnico

The term "Winnico" represents the inherent strength and potential residing within each of us. It's that spark of resilience, that wellspring of creativity, that unwavering spirit that propels us forward even in the face of adversity. This book, *Winnico: A Journey to Self-Discovery and Empowerment*, is designed to help you connect with your inner Winnico and unleash its transformative power. We often underestimate our capabilities, allowing limiting beliefs and negative self-talk to hold us back. This introduction lays the groundwork for understanding the journey ahead, highlighting the importance of self-awareness and the potential for profound personal growth. We'll explore the concept of self-limiting beliefs and how they manifest in our lives, paving the way for the practical strategies detailed in the subsequent chapters. The key takeaway here is recognizing that the power to change your life rests within you.

Chapter 1: Identifying Limiting Beliefs - The Hidden Chains

Limiting beliefs are deeply ingrained negative thoughts and assumptions about ourselves, our abilities, and the world around us. These beliefs often originate from past experiences, societal conditioning, and negative self-talk. They act as invisible chains, restricting our potential and preventing us from pursuing our goals. This chapter focuses on identifying these limiting beliefs. Common examples include:

"I'm not good enough." This belief undermines self-worth and prevents risk-taking.
"I'm not smart enough." This belief can hinder learning and personal development.
"I'm not worthy of success." This belief sabotages ambition and achievement.
"I'm too old/young/unqualified." These beliefs limit opportunities and possibilities.
"I'll fail anyway." This belief breeds inaction and prevents progress.

Identifying these beliefs requires honest self-reflection. Journaling, meditation, and mindful self-observation are valuable tools. We'll explore techniques for uncovering these hidden narratives and understanding their impact on your thoughts, feelings, and behaviors.

Chapter 2: Challenging Negative Self-Talk - Rewriting Your Narrative

Negative self-talk is the internal dialogue that fuels limiting beliefs. It's the constant stream of criticism, doubt, and self-deprecation that keeps us trapped in a cycle of negativity. This chapter focuses on techniques for challenging and reframing negative self-talk. We'll explore:

Identifying negative thought patterns: Recognizing common phrases and thought distortions.
Cognitive restructuring: Replacing negative thoughts with more realistic and positive alternatives.
Positive affirmations: Repeating positive statements to reinforce self-belief and confidence.
Mindfulness and meditation: Cultivating present moment awareness to reduce negative rumination.
Self-compassion: Treating yourself with the same kindness and understanding you would offer a friend.

By actively challenging negative self-talk, you can rewrite your internal narrative and cultivate a more positive and empowering self-image.

Chapter 3: Building Self-Esteem and Confidence - Embracing Your Worth

Self-esteem and confidence are not innate qualities; they are skills that can be developed and strengthened over time. This chapter focuses on practical strategies for building self-esteem and confidence, including:

Setting realistic goals and celebrating achievements: Focusing on progress rather than perfection.
Practicing self-care: Prioritizing physical and mental well-being.
Developing new skills and challenging yourself: Expanding your capabilities and building competence.
Surrounding yourself with positive influences: Seeking out supportive relationships and avoiding negativity.
Focusing on your strengths and accomplishments: Recognizing and appreciating your positive qualities.

Chapter 4: Embracing Vulnerability and Authenticity - Being Your True Self

Authenticity means living in alignment with your values and beliefs, regardless of external pressure. Vulnerability involves acknowledging your imperfections and sharing your true self with others. This chapter emphasizes the importance of embracing both vulnerability and authenticity:

Letting go of the need for perfection: Accepting your imperfections and learning from mistakes.
Sharing your true self with others: Building meaningful relationships based on trust and honesty.
Developing emotional intelligence: Understanding and managing your emotions effectively.
Setting healthy boundaries: Protecting your time, energy, and emotional well-being.

Chapter 5: Setting Powerful Goals and Taking Action - Creating Your Vision

This chapter guides you through the process of setting powerful goals and taking consistent action. It will cover:

Defining SMART goals: Specific, Measurable, Achievable, Relevant, and Time-bound.

Creating a vision board: Visualizing your goals and creating a motivational tool.

Breaking down large goals into smaller, manageable steps: Avoiding overwhelm and maintaining momentum.

Developing a plan of action: Identifying the steps needed to achieve each goal.

Overcoming procrastination and building discipline: Developing strategies for staying motivated and on track.

Chapter 6: Cultivating Resilience and Overcoming Setbacks - Bouncing Back Stronger

Setbacks and challenges are inevitable on the journey of self-discovery. This chapter focuses on building resilience—the ability to bounce back from adversity. We'll discuss:

Developing a growth mindset: Viewing challenges as opportunities for learning and growth.

Learning from failures: Analyzing mistakes and using them to improve.

Practicing self-compassion: Treating yourself with kindness and understanding during difficult times.

Seeking support from others: Reaching out to friends, family, or professionals for help.

Chapter 7: Forging Meaningful Connections - Building Your Support Network

Strong relationships are essential for personal growth and well-being. This chapter focuses on building meaningful connections:

Identifying your values and finding like-minded individuals: Surrounding yourself with people who support your growth.

Developing effective communication skills: Expressing your needs and listening to others empathetically.

Cultivating empathy and compassion: Understanding and connecting with others on a deeper level.

Chapter 8: Living a Purpose-Driven Life - Aligning Actions with Values

Discovering and living a purpose-driven life is crucial for sustained happiness and fulfillment. This chapter will explore:

Identifying your passions and values: Understanding what truly matters to you.

Aligning your actions with your purpose: Making choices that reflect your values and contribute to a life of meaning.

Finding ways to make a positive impact on the world: Contributing to something larger than yourself.

Conclusion: Maintaining Your Winnico - A Lifelong Journey

Maintaining your inner Winnico is a lifelong journey, not a destination. This concluding chapter emphasizes the importance of continued self-reflection, personal growth, and self-care.

winnico: *Psychoanalysis, Group Analysis, and Beyond* Juan Tubert-Oklander, Reyna Hernández-Tubert, 2021-11-11 *Psychoanalysis, Group Analysis, and Beyond* presents an important new paradigm in psychoanalysis and group analysis, presenting the individual and the group as elements of a wider whole and taking socio-political and cultural contexts into account. Juan Tubert-Oklander and Reyna Hernández-Tubert explore the contributions of group analysis to this new perspective, which suggests a holistic conception of the respective status and nature of what the common-sense view of the world conceives as the individual and the community. Part I presents thoughts on the 'gelding' of psychoanalysis, focuses on the limitations of classical psychoanalysis, and elaborates on key topics including epistemology, inclusion and exclusion, culture, and the real. Part II considers the reincorporation of what had formerly been excluded, through the theory and practice of group analysis. Finally, Part III bridges the gap, presenting several approaches to the building of the new paradigm that is so sorely needed. *Psychoanalysis, Group Analysis, and Beyond* will be of great interest to group analysts, psychoanalysts, and psychotherapists in practice and in training, as well as other professionals specializing in group work.

winnico: *Monuments as Cultural and Critical Objects* Thomas Houlton, 2021-11-25 *Monuments as Cultural and Critical Objects* explores monuments as political, psychical, social, and mystical objects. Incorporating autoethnography, psychoanalysis, deconstruction, postcolonialism, and queer

ecology, Houlton argues for a radical, interdisciplinary approach to our monument-culture. Tracing historical developments in monuments alongside contemporary movements such as Rhodes Must Fall and Black Lives Matter, Houlton provides an in-depth critique of monument sites, as well as new critical and conceptual methodologies for thinking across the field. Alongside analysis of monuments to the Holocaust, colonial figures, and LGBTQIA+ subjects, this book provides new critical engagements with the work of D.W. Winnicott, Marion Milner, Jacques Derrida, Edward Said, Eve Sedgwick, and others. Houlton traces the potential for monuments to exert great influence over our sense of self, nation, community, sexuality, and place in the world. Exploring the psychic and physical spaces these objects occupy—their aesthetics, affects, politics, and powers—this book considers how monuments can challenge our identities, beliefs, and our very notions of remembrance. The interdisciplinary nature of *Monuments as Cultural and Critical Objects* means that it is ideally placed to intervene across several critical fields, particularly museum and heritage studies. It will also prove invaluable to those engaged in the study of monuments, psychoanalytic object relations, decolonization, queer ecology, radical death studies, and affect theory.

winnico: Complex Trauma Joanne Stubley, Linda Young, 2021-12-21 The new diagnosis of Complex Post Traumatic Stress Disorder presents diagnostic and treatment challenges that need to be grappled with, since, in a troubled world, it is increasingly important to understand the impact and aftermath of traumatic experiences and, crucially, how to work with those affected by them. In *Complex Trauma*, Joanne Stubley and Linda Young have assembled a fascinating range of approaches in order to explore the questions of understanding and intervention. They detail the relevance of an applied psychoanalytic approach, both in the Tavistock Trauma Service and, more broadly, in illuminating understanding of traumatized individuals. The book includes chapters related to the impact of trauma on the body, as well as on the mind, incorporating neurobiological and attachment theory to develop ideas on the impact and aftermath of complex trauma. A number of specialist areas of trauma work are covered within this volume, including work with adolescents, with refugees and asylum seekers, with military veterans, and with survivors of child sexual abuse. The editors bring together chapters that will be of interest to those working with traumatized individuals in a variety of settings and using different modalities. The central importance of relationships, as understood within the psychoanalytic model, is depicted throughout as being at the heart of understanding and working with traumatic experience.

winnico: The Omnipotent State of Mind Jean Arundale, 2022-06-23 This book presents an examination and exploration of the concept of omnipotence, its qualities and expression as a psychic state, its origins in the psyche and its appearance in the psychoanalytic process and in society. Linked with narcissism but underdeveloped as a concept in its own right, omnipotence is explored in this book from a range of psychoanalytic perspectives, including its positive value in normal development through to its potential as a destructive element in the personality. The Omnipotent State of Mind is presented in five parts, each exploring a specific theme. The contributors explore omnipotence in infants, children, adolescents and adults, consider why it is so difficult to give up, and examine how the omnipotent state of mind is expressed in culture and society. The range of attitudes towards omnipotence within different psychoanalytic traditions is represented by the international selection of contributors. The Omnipotent State of Mind will be of great interest to psychoanalysts in practice and in training, to psychoanalytic psychotherapists and to other professionals interested in omnipotent states of mind.

winnico: Understanding Infants Psychoanalytically Elizabeth Urban, 2022-03-28 Focussing on infants and the relationship between child and parent, this book presents a discourse on eminent Jungian child analyst Michael Fordham's model of development that extended Jung's theory to infancy and childhood. In this book, Elizabeth Urban, a Jungian psychotherapist in weekly conversations with Fordham, proposes five key areas, such as identifying periods of primary self-function and the active participation of the infant in development, that contribute to the Fordham model of infant development. Drawing extensively on her observations and experiences working in a London child and adolescent unit, and a mother and baby unit, as well as using real-life

observations to support the proposed contributions, the author provides a deeper understanding of infant development in the context of the relationship with the parents. This book is a unique contribution to the study of child development and is of great interest to paediatricians, psychotherapists, and other mental health professionals who work with children and their parents.

winnico: Therapy and the Postpartum Woman Karen Kleiman, 2022-09-01 Written by a pioneer and continuing advocate for perinatal health, this book remains an enduring reference for any therapist working with pregnant or postpartum women and their families suffering from perinatal mood and anxiety disorders. This Classic Edition includes a new preface by Hilary Waller that reflects on changes in the field since the book's first publication. Using a blend of professional objectivity, evidence-based research, and personal, straight-forward suggestions gathered from years of experience, this book brings the reader into the private world of therapy with the postpartum woman. Based on psychodynamic and cognitive-behavioral theories, and on D.W. Winnicott's 'good-enough mother' and the 'holding environment', the book is written by a therapist who has specialized in the treatment of postpartum depression for over 30 years. Chapters address diagnosis, medication, depression, psychosis, suicidal thoughts, bonding, as well as finding meaning and the power to heal during recovery. Bringing further attention to under recognized illnesses which plague mothers and cloud the childbirth experience, this Classic Edition serves as an accessible companion tool for clinicians and the women they treat.

winnico: Integrative Arts Psychotherapy Claire Louise Vaculik, Gary Nash, 2022-08-12 This book is a new addition to the art therapy literature setting out an integrative approach to using theory and the arts, which places clients at the centre of practice and supports collaboration across the therapeutic journey. The structural framework described enables different theories, contemporary research, and best-practice guidelines to be used to inform therapy, allowing the practitioner to work fluidly and rigorously in response to their clients' changing needs and therapeutic aims. Integrative arts psychotherapy brings therapeutic practice to life, as the use of the visual arts is enhanced by the possibilities offered for developing and deepening therapeutic work using sculpture/clay, drama/puppetry, poetry, sand play, music, and bodywork/movement. The work described in this book has grown from a British and European art therapy culture, community, and history - influenced by prominent American theorists. The book has been written for trainers, trainees, and practitioners of creative arts therapies, psychotherapy, and expressive arts therapies - nationally and worldwide. It may also be of interest to other professionals, or those in consultation with an art therapist, who want to understand what this type of art therapy can offer.

winnico: Personal Process in Child-Centred Play Therapy David Le Vay, Elise Cuschieri, 2022-09-02 Personal Process in Child-Centred Play Therapy provides a very specific exploration of the play therapy process from the personal perspective of the play therapist. This volume examines the personal challenges, opportunities, losses and gains, and numerous obstacles that one has to negotiate through the course of both training to become a play therapist and working as a qualified clinician with children who have complex life difficulties. The book aims to offer a forum within which the role, function and process of the personal within play therapy can be explored. Bringing together a number of experienced play therapists, the book shares often deeply personal accounts of their experience of training and clinical practice. Chapters challenge the unspoken therapist taboos of shame, childhood trauma, vulnerability and grief, shining a light on the more hidden areas of therapist experience. Clinical issues around the unconscious process are also explored, but once again from the personal position of the play therapist, rather than the child. With a unique and distinct perspective on the therapeutic process, this book is specifically intended for both trainee and experienced play therapists, but will be relevant to all psychotherapists involved in working therapeutically with children and young people.

winnico: The Self Psychology of Addiction and its Treatment Richard B. Ulman, Harry Paul, 2013-04-03 In the time of Freud, the typical psychoanalytic patient was afflicted with neurotic disorders; however, the modern-day psychotherapy patient often suffers instead from a variety of addictive disorders. As the treatment of neurotic disorders based on unconscious conflicts cannot be

applied to treatment of addictive disorders, psychoanalysis has been unable to keep pace with the changes in the type of patient seeking help. To address the shift and respond to contemporary patients' needs, Ulman and Paul present a thorough discussion of addiction that studies and analyzes treatment options. Their honest and unique work provides new ideas that will help gain access to the fantasy worlds of addicted patients. The Self Psychology of Addiction and Its Treatment emphasizes clinical approaches in the treatment of challenging narcissistic patients struggling with the five major forms of addiction. Ulman and Paul focus on six specific case studies that are illustrative of the five forms of addiction. They use the representative subjects to develop a self psychological model that helps to answer the pertinent questions regarding the origins and pathway of addiction. This comprehensive book links addiction and trauma in an original manner that creates a greater understanding of addiction and its foundations than any clinical or theoretical model to date.

winnico: Loss, Grief and Transformation Shoshana Ringel, 2021-10-21 This book is a timely and relevant book for psychotherapists and psychoanalysts who process loss both in their own lives and in the lives of their patients, offering perspectives from a range of theoretical backgrounds, clinical vignettes and personal insights. This volume addresses the scope of grief and mourning between the therapeutic dyad, and carefully examines how the patient and therapist experience intersect and imbue the analytic space and the therapeutic process. The book examines personal loss of parents and partners, as well as loss generated by mass trauma through the lens of the Holocaust, the immigrant experience, the COVID-19 pandemic and the environment. There are chapters that cover how the lost other continues to live within one's mind, and within the analytic relationship, how loss impacts one's internal self system, and how loss associated with traumatic experience with the deceased continues to reverberate. With a unique focus on the therapist's personal experience of loss, and how it shapes the clinical situation, as well as a broad range of perspectives on managing and working with loss in patients, this is an invaluable book for all practicing psychoanalysts and psychotherapists.

winnico: Social Work in the Age of Disconnection Michael Jarrette-Kenny, Miriam Jaffe, 2022-05-05 This edited text brings together the stories of nine clinical social workers working during COVID-19, exploring the disconnections caused by a forced use of technology as well as the disconnections apparent in a time of social injustice. Employing narrative strategies to capture this transformative moment of our history, these chapters explore the effects of technology and social media on psychotherapy, the delivery of services for the chronically mentally ill and elderly, as well as the consequences of recent cultural shifts on our conceptions of gender, sexuality, race, the immigrant experience, and political activism. While traditional research methodologies tend to address social problems as if they were divorced from the lives and experiences of human beings, these chapters employ phenomenological description of how the existing system functions, to identify theory-to-practice gaps and to recover the experiences of the person within the various institutional structures. Divided into three parts, each chapter begins with pre-reading and close reading questions and ends with writing prompts, allowing for practitioners and students to examine their own thoughts, and put what they have learnt into practice. Suitable for students of clinical social work and practicing mental health professionals, this book is essential for those wanting to make sense of social work practice in our constantly evolving times.

winnico: A Psychotherapist Paints Morris Nitsun, 2022-10-21 A Psychotherapist Paints is a unique account of an internationally known psychotherapist and group analyst's struggle to bring together his psychological experience and his interests and talent as an artist. This book describes a body of painting that was responsive to a major existential challenge, the COVID-19 pandemic, but which also comes from deeply personal experience; the paintings are a mirror of life through the decades. These paintings, fifty of which are included here in full colour, were mainly presented online to groups both small and large, who were invited to participate in a dialogue that became a vital part of the developing project. The value of this dialogue is reflected in the author's concept of the artist's matrix, describing the social context in which an artist produces and presents their work.

The paintings, together with the autobiographical narrative and the groups' generativity, combine to produce a moving testament to our times. Intrinsic to *A Psychotherapist Paints* is a question about what makes us creative and how creativity transforms our lives. The result is a work of both artistic and psychological power that will inspire psychotherapists, art psychotherapists and artists themselves, and will point to exciting new possibilities in all these fields.

winnico: Mutual Analysis Peter L. Rudnytsky, 2021-11-29 Sándor Ferenczi's mutual analysis with Elizabeth Severn—the patient known as R.N. in the *Clinical Diary*—is one of the most controversial and consequential episodes in the history of psychoanalysis. In his latest groundbreaking work, Peter L. Rudnytsky draws on a trove of archival sources to provide a definitive scholarly account of this experiment, which constitutes a paradigm for relational psychoanalysis, as Freud's self-analysis does for classical psychoanalysis. In Part 1, Rudnytsky tells the story of Severn's life and traces the unfolding of her ideas, culminating in *The Discovery of the Self*. He shows how her book contains disguised case histories not only of Ferenczi and Severn herself—and thereby forms an indispensable companion volume to Ferenczi's *Clinical Diary*—but also of Severn's daughter Margaret, an internationally acclaimed dancer whose history of childhood sexual abuse uncannily replicated Severn's own. Part 2 compares Severn to Clara Thompson and Izette de Forest as transmitters of Ferenczi's legacy, sets the record straight about Ferenczi's final illness, and reveals how Severn went beyond Freud and Groddeck in her capacity as Ferenczi's analyst. Finally, in Part 3, Rudnytsky delineates the contrast between Freud and Ferenczi as men and thinkers and makes it clear why he agrees with Erich Fromm that Ferenczi's example demonstrates how Freud's attitude need not be that of all analysts. The first comprehensive study of Ferenczi's mutual analysis with Severn, this book is a profound reexamination of Ferenczi's relationship to Freud and an impassioned defense of Severn and Ferenczi's views on the nature and treatment of trauma. It will appeal to psychoanalysts and psychotherapists, especially to relational analysts, self psychologists, and trauma theorists.

winnico: Workplace Attachments James Grady, Victoria Grady, Patrick McCreesh, Ian Noakes, 2019-07-04 How fast can your organization change? How long does it take to adopt new technology? Do things run the same when you bring in a new leader? How does the culture evolve with new acquisitions? There is an underlying thread in all these questions. Workplace attachment or our instinctual (biological) response to attach to both tangible and intangible objects continuously throughout life. *Workplace Attachments: Managing Beneath the Surface* provides the first comprehensive review of attachment in the workplace. We explore the biological and evolutionary roots of our attachments, explain how you can find attachment behaviour in your workplace, and help you proactively understand attachment behaviour with your team. Our practical research, case studies, and story-telling will help you understand how attachment behaviour impacts you, your employees, your peers and ultimately the culture of your organization. Once you understand how people attach, detach, and re-attach to objects and elements of your organization, you will be able to real and lasting change.

winnico: Sound Beginnings Pamela May, Erica Ashford, Gillian Bottle, 2018-09-18 By celebrating the spirit and principles that are enshrined in the Curriculum Guidance for the Foundation Stage (DfES, 2000), this book describes how children learn and develop best in good Early Years practice. It encourages the practitioner to take a step back from their day-to-day routines and objectives and instead focus on the child and how to

winnico: Christopher Bollas Steven Jaron, 2022-04-11 This book provides a clear and accessible overview of the seminal clinical thinking of Christopher Bollas. Placing Bollas's writings besides those of analysts including Milner, Bion, Winnicott, Lacan, and Green, Steven Jaron examines the central concept of the unthought known in terms of unconscious communication in the primary environment while occasioning a reworking of Oedipal configurations. Through vivid narratives of character analyzing a range of adult patients, at times requiring a rethinking of the conventional psychoanalytic frame, Jaron offers a fresh perspective on Bollas in arguing for the importance of considering not only the patient's self experience but also the psychoanalyst's. This

important study will be rewarding to beginning and seasoned analysts alike, offering suggestions for using Bollas' work in the consulting room as well as when faced with the demands of civic life today.

winnico: Eating Disorders Tom Wooldridge, 2022-08-19 This book presents an accessible introduction to the conceptualization and treatment of eating disorders from a psychoanalytic perspective. Each of the chapters offers a different perspective on these difficult-to-treat conditions and taken together, illustrate the breadth and depth that psychoanalytic thinking can offer both seasoned clinicians as well as those just beginning to explore the field. Different aspects of how psychoanalytic theory and practice can engage with eating disorders are addressed, including mobilizing its nuanced developmental theories to illustrate the difficulties these patients have with putting feelings into words, the loathing that they feel towards their bodies, the disharmonies they experience in the link between body and mind, and even the ways that they engage with online Internet forums. This is an accessible read for clinicians at the start of their career and will also be a useful, novel take on the subject for experienced practitioners.

winnico: Relationships with Families in Early Childhood Education and Care Joanne Lehrer, Fay Hadley, Katrien Van Laere, Elizabeth Rouse, 2022-07-13 Relationships with Families in Early Childhood Education and Care radically challenges the role assigned to parents in neoliberal discussions of early childhood education and care, and presents new ways of thinking about relationships with families. With contributions from international early childhood scholars and practitioners, this book includes outlooks of practitioners, families and children, particularly about the meanings they assign to relationships. Bringing together key understandings about how parent-partnerships can be understood, this book provides innovative examples of how to enact democratic partnerships with parents in diverse contexts. Relationships with Families in Early Childhood Education and Care is an ideal text for ECEC practitioners and policy makers, trainers, graduate students and researchers.

winnico: Psychosomatics Today Marilia Aisenstein, Elsa Rappoport De Aisemberg, 2022-06-01 This revised edition of Psychosomatics Today presents a thorough introduction to the different international schools of psychosomatics, written by leading professionals, and includes three new chapters on current practice. As well as exploring key psychosomatic topics, focusing primarily on the Paris School, the Latin American School, the American school of psychosomatic medicine, and the Kleinian approach to the soma, this revised edition adds a chapter about the German School of Psychosomatics, expands upon allergic object relations, and tackles the contemporary topic of overflow in theory and clinical practice. Spanning a variety of theoretical approaches, the book is illustrated by many clinical case studies which provide an engaging, holistic picture of the field, including adolescent and child therapies. Psychosomatics Today will be of great interest to psychoanalysts and psychoanalytic psychotherapists in practice and in training, students of psychiatry and psychology, and paediatricians and medical practitioners seeking a fuller understanding of psychosomatics.

winnico: Anthology of Contemporary Clinical Classics in Analytical Psychology Stefano Carpani, 2022-04-06 2022 Grady Award nominee for Best Edited Book! This anthology of contemporary classics in analytical psychology bring together academic, scholarly and clinical writings by contributors who constitute the post-Jungian generation. Carpani brings together important contributions from the Jungian world to establish the new ancestors in this field, in order to serve future generations of Jungian analysts, scholars, historians and students. This generation of clinicians and scholars has shaped the contemporary Jungian landscape, and their work continues to inspire discussions on key topics including archetypes, race, gender, trauma and complexes. Each contributor has selected a piece of their work which they feel best represents their research and clinical interests, each aiding the expansion of current discussions on Jung and contemporary analytical psychology studies. Spanning two volumes, which are also accessible as standalone books, this essential collection will be of interest to Jungian analysts and therapists, as well as to academics and students of Jungian and post-Jungian studies.

winnico: The Routledge Companion to Literature and Emotion Patrick Colm Hogan,

Bradley J. Irish, Lalita Pandit Hogan, 2022-04-05 The Routledge Companion to Literature and Emotion shows how the affective turn in the humanities applies to literary studies. Deftly combining the scientific elements with the literary, the book provides a theoretical and topical introduction to reading literature and emotion. Looking at a variety of formats, including novels, drama, film, graphic fiction, and lyric poetry, the book also includes focus on specific authors such as Shakespeare, Chaucer, Jane Austen, Virginia Woolf, and Viet Thanh Nguyen. The volume introduces the theoretical groundwork, covering such categories as affect theory, affective neuroscience, cognitive science, evolution, and history of emotions. It examines the range of emotions that play a special role in literature, including happiness, fear, aesthetic delight, empathy, and sympathy, as well as aspects of literature (style, narrative voice, and others) that bear on emotional response. Finally, it explores ethical and political concerns that are often intertwined with emotional response, including racism, colonialism, disability, ecology, gender, sexuality, and trauma. This is a crucial guide to the ways in which new, interdisciplinary understandings of emotion and affect—in fields from neuroscience to social theory—are changing the study of literature and of the ways those new understandings are impacted by work on literature also.

winnico: Group Relations and Other Meditations Carlos Sapochnik, 2021-09-30 This book examines the Tavistock tradition of using group relations conferences as temporary training organizations for groups and institutions, and how those can inform and enrich the theory and practice of experiential learning more generally. First, this book analyses the structures, rituals, and beliefs of group relations conferences, drawing on the author's learned experience in the field, followed by meditations extending to broader areas, such as the social nature of corruption, martial arts, Western culture's longing for creativity, and the use of drawing in social science research. It addresses the tension between psychoanalysis and systemic theory in group relations thinking, refining and re-defining key concepts of the practice, challenging notions of dependence and dependency, performative poetics, learning, the politics of power, nostalgia, and the unspoken reasons for the wish to join conference staff teams. It offers a critique of the polarity concerning terms such as spontaneity, the sense of mystery, openness to the unexpected, and trust in unconscious processes, as opposed to the desire for certainty and the confusion, anxiety, and aggression evoked when groups find themselves without familiar signposts. Drawing on his thinking developed over the course of a professional life as organizational consultant, artist, designer, teacher, researcher, and poet, the author invites the reader to challenge boundaries towards a less inflexible and defended engagement with the Other. The metaphor of bricolage, an activity that inspires creativity and originality, suggests possible ways of putting known things together to approach new meaning as provisional and shifting. The many strands thus gathered reveal new dimensions of group life that crucially affect our everyday living and surviving, both as individuals and as members of society. This work will allow psychoanalysts, psychotherapists, group therapists, organizational consultants and trainers to put the lessons learned from group relations conferences into everyday practice.

winnico: New Theory and Practice of Transactional Analysis in Organizations Sari van Poelje, Anne de Graaf, 2021-11-11 This innovative book presents state-of-the-art thinking on using transactional analysis (TA) to change the structure, relationships and culture in organizations. The book is arranged according to the three levels of organizations described by Eric Berne – the structural, interpersonal and psychodynamic levels – and the chapters expand on his concepts at each level. With contributions by an international range of authors, incorporating a selection of practical case studies, the book illuminates key themes including group and team dynamics, psychological safety, emotion and, most foundationally, boundaries. Exploring the tensions of boundaries that can determine both the stability of a system as well as its innovative potential, this book provides a strong structural framework for TA coaches, consultants and analysts, as well as other professionals working with and within organizations.

winnico: Psychotherapy: An Erotic Relationship David Mann, 2021-12-15 Psychotherapy: An Erotic Relationship challenges the traditional belief that transference and countertransference are

merely forms of resistance that jeopardize the therapeutic process. David Mann shows how the erotic feelings and fantasies experienced by clients and therapists can be used to bring about a positive transformation. Combining extensive and lively clinical examples with theoretical insights and new research on infants, David Mann suggests that the development of the erotic derives from interactions between the parent and child and is seldom absent from the therapist-patient relationship. However, while the erotic always contains elements of past relationships, it also expresses hope for a different outcome in the present and future. Individual chapters explore the function of the erotic within the unconscious: erotic pre-Oedipal and Oedipal material; homoeroticism in therapy; sexual intercourse as a metaphor for psychological change; the primal scene in the transference, and the difficulties of working with perversions. The book is as relevant now as it was when originally published. This Classic Edition contains a new introduction by David Mann, summarizing his current ideas since this book was first published in 1997. It brings the therapy setting alive, offering clinicians both an accessible and deeper understanding of the interaction between erotic transference and countertransference; it also gives an explicit picture of how these aspects of therapy can be used to enhance the therapeutic process. It remains an essential resource for psychoanalysts, psychotherapists and counsellors, their clients and anybody with an interest in Eros, desire, or mental health issues.

winnico: Torture Survivors in Analytic Therapy Monica Luci, 2022-02-14 This important new book introduces and discusses the underpinning of psychodynamic psychotherapy for torture survivors in a clinical setting and incorporates concepts from analytical psychology and other theoretical bases in order to provide readers with a deeper understanding of this complex trauma. Using the concepts of analytical psychology, relational psychoanalysis, and neuroscience, and relying on the theoretical basis of her book *Torture, Psychoanalysis and Human Rights* (Routledge, 2017), Luci focuses on three key clinical cases and illustrates the therapeutic paths that the therapeutic dyad explore and experiences in order to get out of the patient's inner prison created or aggravated by the experience of torture. The book discusses the role of the therapist when working with torture survivors, the requirement of a slow and cautious approach when dealing with such trauma, and the importance of a careful and respectful consideration of issues of identity, politics, and culture. Featuring a useful guide, this book will be of great interest to mental health professionals, psychotherapists and students practicing in services that provide assistance to torture and war trauma survivors.

winnico: Eingeweide, Pillen, Feminismus Elizabeth A. Wilson, 2022-01-11 In *Eingeweide, Pillen, Feminismus* fordert Elizabeth A. Wilson Feministinnen auf, ihre ablehnende Haltung gegenüber biologischen und pharmazeutischen Daten zu überdenken. Sie stellt die Frage, welches begriffliche und methodische Neuland sich die feministische Theorie erschliessen kann, indem sie sich der Biologie gegenüber weniger instinktiv ablehnend verhält. Wilson nimmt sich Forschungen zu Antidepressiva, Placebos, Übertragung, Fantasie, Essstörungen und Suizidneigungen vor, um zwei Punkte herauszuarbeiten: inwieweit pharmazeutische und biologische Daten der feministischen Theorie nutzen können und welchen unverzichtbaren Stellenwert Aggression in der feministischen Politik hat. *Eingeweide, Pillen, Feminismus* provoziert die feministische Theoriebildung mit der Behauptung, dass sie wirksamer wäre, wenn sie sich mit biologischen Daten auseinandersetzen und ihr eigenes aggressives Potenzial zulassen könnte.

winnico: Ensino de Filosofia e Currículo Ronai Pires da Rocha, 2020-03-26 São poucas as publicações dedicadas à teoria curricular no Brasil, e ainda mais raros os estudos específicos como

este. Assim, não é de estranhar que Ensino de Filosofia e Currículo, lançado em 2008, tenha esgotado sua primeira edição, um feito raro para um livro com este título. Isso sugere que este livro criou aos poucos seu próprio espaço na bibliografia brasileira sobre o tema, graças aos pontos de vista originais que apresenta sobre temas caros ao educador e ao professor de Filosofia: interdisciplinaridade e transversalidade curricular, epistemologia e currículo, filosofia e infância, relações entre história, método e problemas filosóficos, didática e pedagogia, e muitos outros, abordados sem que o contexto e a conjuntura da Educação no Brasil sejam desconsiderados. Ensino de Filosofia e Currículo é um título hoje incorporado na bibliografia brasileira sobre estudos curriculares e vem sendo crescentemente considerado como uma das contribuições mais relevantes para os estudos curriculares entre nós. Esta segunda edição foi amplamente revista e a ela foi acrescentada um novo prefácio, que atualiza o livro.

winnico: Narcisismo e Reconhecimento Inara Luisa Marin, 2022-06-15 A teoria crítica tem dois princípios fundamentais: a orientação para a emancipação e a crítica da teoria tradicional. Esses princípios operam como ferramentas de um diagnóstico de tempo presente (Zeitdiagnose) que, por sua vez, permite distinguir entre os potenciais e os obstáculos à emancipação, identificáveis nas sociedades capitalistas modernas. Na história da teoria crítica, esse diagnóstico é reformulado a cada vez com o correr das situações históricas, desde seu primeiro modelo materialista interdisciplinar até trabalhos mais recentes, numa constelação que mobiliza diferentes disciplinas das ciências humanas e, sobretudo – a que nos interessa aqui –, a psicanálise.

winnico: Coaching Supervision Groups Jo Birch, 2021-11-29 Written by experienced coaching supervisors, this book offers a kaleidoscope of wisdom drawn from a complex professional field. Theoretical concepts, practitioner research, models and techniques are brought alive here through the lived experience of the authors. As coaching supervisors continue to develop their practice, those wishing to extend their skills into group work step into a new context which stretches and strengthens their own learning, as well as that of supervisees, in this mutual, intentional learning environment. Coaching supervisors are encouraged to begin with the inner journey, developing their own knowledge as each chapter offers a new perspective, enabling readers to gain a philosophical understanding of the process, which will guide them on their journey through the unpredictable terrain of group work. Coaches, mentors and other practitioners looking for a Supervision Group experience will gain insights into the range of opportunities available, opening myriad possibilities for furthering personal and professional learning.

winnico: Contemporary Practice in Studio Art Therapy Christopher Brown, Helen Omand, 2022-03-30 Contemporary Practice in Studio Art Therapy discovers where studio practice stands in the profession today and reflects on how changing social, political, and economic contexts have influenced its ethos and development. This is the first UK volume devoted to studio art therapy, and the writers explore what is meant by a studio approach and how they are adapting art-based practices in radical new ways and settings. It comprises three parts – Part I: Frames of reference explores how particular social, cultural, and political contexts have led to the discourses within practice; Part II: Models of practice gives accounts of current studio art therapy practice, describing rationale for working methods and providing a resource for practitioners; Part III: Curating, exhibiting and archiving considers how the display and disposal of artworks, particularly relevant to studio approaches, may be thought about and implemented. The book includes chapters from North American authors who illustrate a trajectory of practice that has the potential to point to future developments. The book will be essential reading for practitioners and students who are interested in taking a fresh perspective on art therapy and will be encouraged by new ways of thinking about the studio approach in today's changing world.

winnico: Vulnerable Children Lindy Burton, 2022-05-29 Originally published in 1968, this book was an experimental investigation into some personality characteristics associated with three types of child problem behaviour. The behaviour of the children in school is described, and their underlying personality needs, as evinced by the stories they told to the author, are assessed. The behaviour at home of the asthmatic and road accident children is examined and their early developmental history traced. The part played by prolonged environmental stress, constitutional vulnerability and transitory needs is considered.

winnico: Play Therapy and Expressive Arts in a Complex and Dynamic World Isabella Cassina, Claudio Mochi, Karen Stagnitti, 2022-08-19 This book offers cutting-edge expertise and knowledge in new and developing play therapy, therapeutic play, and expressive arts for families and children in crisis and challenging situations. The book focuses on the use of play therapies in complex and dynamic situations such as pandemics, post-disaster conditions, crisis, migration, poverty, and deprivation. Evidence in the book is rooted in theory and contains examples of direct clinical experiences of play therapy approaches by the authors from across six continents, offering innovative methods to apply expressive arts modalities across different situations. It highlights the need to understand the context and needs of the children and families in their particular situations and provides examples of application of therapeutic principles and techniques in individual and group settings and within schools and communities. With reflections and guidance on how to support children in reaching their potential in a variety of difficult contexts, the book will be key reading for scholars and researchers in the fields of play therapy, expressive arts therapies, and creative psychotherapy, as well as professionals in these areas.

winnico: Bion, Intuition and the Expansion of Psychoanalytic Theory Antònia Grimalt, 2022-06-09 Bion, Intuition and the Expansion of Psychoanalytic Theory illuminates how Bion's work on intuition has changed the landscape of contemporary psychoanalysis through his understanding of its supra-scientific and non-sub-scientific condition. Based on the work of the biannual Bion conference, this book includes contributions from the most eminent voices on Bion's work. The global cohort of contributors in this volume examine topics such as dream work, the Infinite Unconscious, the Spectral model of the mind, the realm of the minus and observation and intuition. Each chapter explores different elements arising from Bion's insistence on learning from experience and establishing the difference between knowing and becoming as an experiential process of the mind as a container in relation to its contents of sensations, feelings, dreams and thoughts. This book will be of key interest to analysts and analytic therapists of all schools and is an essential resource for those that follow the work of Bion.

winnico: Transforming Infantile Trauma in Analytic Work with Children and Adults Martha Stevns, Lucinda Hawkins, 2022-09-23 This vivid and moving volume presents the clinical work and writings of Alessandra Cavalli, an internationally known child and adult psychoanalyst who taught and supervised widely, ran infant observation seminars in the UK and Europe and was closely involved in the development of child analysis training in Russia. Informed by a deep knowledge of theory, each chapter draws on many strands of both psychoanalytic and Jungian thought, integrating multiple analytic languages into a coherent clinical language specific to Cavalli. The book includes 11 of her most important papers about work with children and adults, with an introduction by the distinguished Jungian psychoanalyst Warren Colman. Her work was primarily concerned with the impact of trauma on the developing self and the importance of weathering emotional storms in search of meaning, and the book will be fascinating reading for clinicians of different psychoanalytic approaches working with adults and children as well as students of psychotherapy and counselling.

winnico: Manga Discourse in Japan Theatre Fukushima, 2005-03-24 During the Japanese 'bubble' economy of the 1980's, the youth of Japan began to exert unprecedented influence on Japanese culture through their spirited patronage of certain art forms previously deemed subcultural or avant-garde. Among these were manga (Japanese comics or animation) and shogekijo (Japanese little theater). These art forms, while ve

winnico: Hating, Abhorring and Wishing to Destroy Donald Moss, Lynne Zeavin, 2021-11-09 The

kinds of hatreds that analysts have assumed make up part of the unspoken backdrop of Western civilization have now erupted into our daily foreground. This book, consisting of essays from eleven psychoanalysts, responds to that eruption. The five essays of Part 1, Hating in the first person plural, take on the pervasive impact of structured forms of hatred – racism, misogyny, homophobia, and transphobia. These malignant forces are put into action by large- and small-group identifications. Even the action of the apparent lone wolf inevitably enacts loyal membership in a surrounding community. The hating entity is always we. In Part 2, The racialized object/the racializing subject, the essays' focus narrows to an examination of racist expressions of hating, abhorring, and wishing to destroy. A particular focus is the state of excitement attached to this form of hatred, to its sadistic origins, and to the endless array of objects offered to the racializing subject. In Part 3, This land: whose is it, really?, its two essays focus on symbolic and physical violence targeting the natural world. We expand the traditional field of psychoanalytic inquiry to include the natural world, the symbolic meaning of its trees, and the psychopolitical meanings of its land. This book offers a psychoanalytically informed guide to understanding and working against hatreds in clinical work and in everyday life and will appeal to training and experienced psychoanalysts, as well as anyone with an interest in current political and cultural climates.

winnico: Record Keeping in Psychotherapy and Counseling Ellen T. Luepker, 2022-03-17
Record Keeping in Psychotherapy and Counseling: Ethics, Practice and Supervision, grounded in contemporary challenges, emphasizes protecting the therapeutic and supervisory relationship through offering an essential framework for thoughtful record keeping within legal, ethical, supervisory, and clinical contexts. A reader-friendly conversational style plus compelling case examples from a variety of settings—clinic to courtroom—bring dilemmas and strategies to life. New case studies invite readers to examine principles of ethical decision-making in order to reach sound decisions, meeting a critical need in training and continuing education. New material on telehealth and electronic records, the impact of digital communications on the therapeutic relationship, and experience implementing the Health Insurance Portability and Accountability Act (HIPAA) bring this book up to date. Sample forms for readers' use and modification are available on the publisher's website. Practitioners in all mental health disciplines, from students to seasoned clinicians, the supervisors, and teachers will continue to rely on this book for protecting themselves, their patients, and their trainees.
