

aris udsms

aris udsms represents a pivotal system within the University of Dar es Salaam (UDSM), designed to streamline academic and administrative processes for both students and faculty. This comprehensive platform integrates various functionalities, including course registration, academic records management, and examination coordination. By leveraging aris udsms, the university enhances operational efficiency, providing users with timely access to essential information. The system's role in improving communication between departments and students cannot be overstated, as it ensures transparency and accuracy within the academic environment. Understanding the features, benefits, and usage guidelines of aris udsms is crucial for maximizing its potential. This article delves into the core aspects of aris udsms, outlining its functionalities, user experience, and impact on UDSM's educational ecosystem.

- Overview of ARIS UDSM
- Key Features and Functionalities
- User Access and Navigation
- Benefits of Using ARIS UDSM
- Common Challenges and Solutions
- Future Developments and Enhancements

Overview of ARIS UDSM

The Academic Records Information System (ARIS) at the University of Dar es Salaam, commonly referred to as aris udsms, is an integrated software solution that supports the management of academic records and administrative tasks. Developed to replace manual record-keeping, aris udsms enables the university to maintain accurate and up-to-date information related to student enrollment, course details, and examination results. Its implementation at UDSM marks a significant step towards digital transformation, aligning with global trends in higher education management systems. The system is designed to serve a diverse user base, including undergraduate and postgraduate students, academic staff, and administrative personnel.

Historical Background

aris udsms was introduced as part of UDSM's strategic initiative to digitize academic processes and improve data accuracy. Prior to its deployment, record management was primarily paper-based, leading to delays and errors. The transition to aris udsms began in the early 2010s, with continuous upgrades to accommodate growing institutional needs.

This evolution reflects UDSM's commitment to adopting innovative technologies that enhance the educational experience and administrative efficiency.

System Architecture

The architecture of aris udsM is based on a centralized database system that ensures secure storage and retrieval of academic data. It integrates modules for registration, grading, timetable management, and reporting. The system supports web-based access, allowing users to interact with the platform remotely through secure login credentials. This design facilitates real-time updates and synchronization across various university departments.

Key Features and Functionalities

aris udsM offers a wide range of features tailored to meet the needs of its users within the University of Dar es Salaam. These functionalities are designed to simplify complex academic workflows and enhance the overall user experience. Understanding these features provides insight into how aris udsM supports academic excellence and operational transparency.

Course Registration

One of the primary features of aris udsM is its course registration module. Students can enroll in courses for each semester through an intuitive online interface. The system provides real-time updates on course availability, prerequisites, and schedules. This feature eliminates the need for physical queues and paperwork, making the registration process efficient and user-friendly.

Academic Records Management

aris udsM maintains comprehensive academic records for each student, including grades, transcripts, and attendance. Faculty members can input exam scores and monitor student progress within the system. This centralized data repository ensures that academic records are accurate, accessible, and secure.

Examination Coordination

The system facilitates examination scheduling and result processing. Examination officers can organize exam timetables and manage student attendance electronically. Additionally, exam results are uploaded directly into aris udsM, allowing students and faculty to view performance outcomes promptly.

User Access and Navigation

Effective use of aris udsM depends on user familiarity with the system's interface and navigation tools. The platform is designed to accommodate various user roles, each with specific access privileges and functionalities.

Student Portal

The student portal within aris udsM provides personalized access to academic information. Students can view their course registrations, check exam schedules, and download academic transcripts. The portal also offers notifications and updates related to academic deadlines and university announcements.

Faculty and Staff Access

Faculty members and administrative staff access aris udsM through secure login credentials that grant permissions based on their roles. Professors can manage course content, submit grades, and communicate with students. Administrative staff utilize the system for reports generation, verification of records, and managing academic calendars.

Navigation Tips

- Use clear menu options to access different modules such as Registration, Results, and Timetable.
- Regularly update personal and academic information to ensure accuracy.
- Utilize the help and support features embedded in the system for troubleshooting.

Benefits of Using ARIS UDSM

The implementation of aris udsM has brought numerous advantages to the University of Dar es Salaam community. These benefits contribute to enhanced academic management and improved service delivery across the institution.

Improved Efficiency

aris udsM automates many administrative tasks that were previously manual, significantly reducing processing times for course registration, exam management, and result dissemination. This efficiency enables both students and staff to focus more on academic excellence rather than bureaucratic procedures.

Data Accuracy and Security

By centralizing academic records, aris udsu minimizes errors that commonly occur with paper-based systems. The platform incorporates security protocols to protect sensitive information, ensuring that student data remains confidential and tamper-proof.

Enhanced Communication

The system facilitates seamless communication between students, faculty, and administration. Notifications about academic events, deadlines, and policy updates are distributed promptly, keeping all stakeholders well-informed.

Accessibility

aris udsu's web-based nature allows users to access the system anytime and anywhere with internet connectivity. This flexibility supports remote learning and administrative functions, especially important in contemporary educational landscapes.

Common Challenges and Solutions

Despite its advantages, the use of aris udsu can present challenges that affect user experience and system performance. Identifying these issues and implementing effective solutions is essential for maintaining system reliability.

Technical Difficulties

Users may encounter login problems, slow system response times, or occasional downtime. These technical challenges can disrupt academic activities if not promptly addressed.

Training and User Adaptation

Some students and staff may initially struggle with navigating the system due to limited technical skills or resistance to change from traditional methods.

Solutions

1. Regular system maintenance and updates to enhance stability and performance.
2. Provision of comprehensive training sessions and user manuals for all stakeholders.
3. Establishment of dedicated support teams to respond to technical queries and issues

swiftly.

Future Developments and Enhancements

To keep pace with evolving educational needs, aris udsM is subject to continuous improvements. Future developments focus on expanding functionalities and integrating advanced technologies to further benefit the UDSM community.

Integration with Learning Management Systems

Plans are underway to integrate aris udsM with existing learning management platforms to provide a unified academic environment. This integration will allow seamless access to course materials, assignments, and assessments alongside academic records.

Mobile Application Development

Developing a dedicated mobile app for aris udsM aims to enhance accessibility and convenience, enabling users to perform academic tasks on-the-go.

Advanced Analytics and Reporting

Incorporating data analytics tools will enable the university to generate insightful reports on student performance trends, resource utilization, and administrative efficiency.

Frequently Asked Questions

What is ARIS at UDSM?

ARIS at UDSM refers to the Academic Records and Information System used by the University of Dar es Salaam to manage student academic records and administrative processes online.

How can students access ARIS at UDSM?

Students can access ARIS at UDSM by visiting the university's official ARIS portal and logging in with their student credentials provided during registration.

What features does ARIS offer to UDSM students?

ARIS offers features such as course registration, viewing exam results, fee payment status, accessing academic transcripts, and updating personal information.

Is ARIS at UDSM available for staff members?

Yes, ARIS at UDSM is accessible to staff members for managing academic records, submitting grades, and handling administrative tasks related to students.

How secure is the ARIS system at UDSM?

ARIS at UDSM implements security measures such as encrypted logins and user authentication to protect student data and ensure privacy.

Can prospective students use ARIS at UDSM?

Prospective students may use ARIS for application purposes if the system supports online admissions; otherwise, it is primarily for enrolled students and staff.

What should I do if I forget my ARIS password at UDSM?

If you forget your ARIS password at UDSM, you should use the password recovery option on the ARIS portal or contact the university's IT support for assistance.

Are there any tutorials available for using ARIS at UDSM?

Yes, UDSM often provides user guides and tutorial videos on their website or through the ARIS portal to help students and staff navigate the system effectively.

How often is the ARIS system updated at UDSM?

The ARIS system at UDSM is periodically updated by the university's IT department to improve functionality, add new features, and enhance security.

Additional Resources

1. Aris UDSM: The Rise of a Visionary Leader

This book chronicles the inspiring journey of Aris UDSM from his early beginnings to becoming a prominent figure in his field. It explores his leadership qualities, challenges he faced, and how his vision transformed his community. Readers gain insight into the principles and values that guided his success.

2. Innovations and Impact: Aris UDSM's Contributions to Technology

Focusing on Aris UDSM's groundbreaking work in technology, this book highlights his innovative projects and their significant impact on the industry. It provides a detailed look at his methodology, creative problem-solving skills, and the legacy he is building through technological advancements.

3. The Leadership Philosophy of Aris UDSM

This title delves into the leadership style and philosophy of Aris UDSM, offering readers practical lessons and strategies for effective leadership. Through case studies and personal anecdotes, the book reveals how Aris motivates teams, drives change, and fosters a culture of excellence.

4. Aris UDSM and the Future of Sustainable Development

Exploring Aris UDSM's commitment to sustainability, this book discusses his initiatives aimed at promoting environmental responsibility and social equity. It examines his role in advancing sustainable development goals and inspiring others to contribute to a greener future.

5. The Entrepreneurial Spirit of Aris UDSM

This book highlights Aris UDSM's journey as an entrepreneur, detailing the creation and growth of his ventures. It offers valuable insights into his approach to innovation, risk-taking, and resilience in the competitive business landscape.

6. Aris UDSM: Bridging Cultures Through Education

Focusing on Aris UDSM's efforts in education, this book showcases how he uses learning as a tool to bridge cultural gaps and empower communities. It highlights his educational programs, partnerships, and the transformative impact on students across diverse backgrounds.

7. Strategic Vision: How Aris UDSM Shapes Organizational Success

This book explores the strategic thinking and planning techniques employed by Aris UDSM to steer organizations toward success. It provides a comprehensive look at his decision-making processes, goal-setting methods, and ability to adapt to changing environments.

8. Aris UDSM: A Legacy of Community Empowerment

Detailing Aris UDSM's community work, this book celebrates his dedication to uplifting marginalized groups and fostering inclusive growth. It features stories of individuals and communities positively affected by his initiatives and highlights the sustainable change he advocates.

9. The Personal Journey of Aris UDSM: Challenges and Triumphs

This intimate biography reveals the personal side of Aris UDSM, sharing his struggles, motivations, and moments of triumph. It offers a heartfelt narrative that inspires readers to overcome obstacles and pursue their passions with determination and hope.

Aris Udsm

ARIS UDSM: A Comprehensive Guide to the Academic Resource Information System at the University of Dar es Salaam

Ebook Name: Mastering ARIS UDSM: A Student's Guide to Success

Outline:

Introduction: What is ARIS UDSM? Its purpose and importance for students.

Chapter 1: Accessing and Navigating ARIS UDSM: Step-by-step instructions on logging in, navigating the interface, and understanding the system's layout. Troubleshooting common login issues.

Chapter 2: Utilizing ARIS UDSM for Academic Purposes: Detailed explanation of key features: course registration, fee payment, grade viewing, transcript access, and downloading academic documents.

Chapter 3: Managing Your Academic Profile on ARIS UDSM: Updating personal information, contact details, and managing notification settings. Understanding the importance of accurate information.

Chapter 4: ARIS UDSM and Research: Exploring resources available within ARIS for research purposes (if applicable). Linking ARIS to library resources.

Chapter 5: Troubleshooting and Support: Common problems and their solutions. Contacting ARIS support for assistance.

Conclusion: Recap of key features and advice for effective ARIS UDSM usage.

ARIS UDSM: A Comprehensive Guide to the Academic Resource Information System at the University of Dar es Salaam

Introduction: Understanding the Importance of ARIS UDSM

The Academic Resource Information System (ARIS) at the University of Dar es Salaam (UDSM) is a crucial online platform for all students. It serves as the central hub for managing various aspects of academic life, from course registration and fee payments to accessing grades and important academic documents. A thorough understanding of ARIS UDSM is essential for successful navigation of university life and ensuring a smooth academic journey. This guide provides a comprehensive overview of the system's features and functionalities, empowering students to utilize ARIS effectively and efficiently. This guide will equip you with the knowledge and skills necessary to leverage ARIS UDSM to its fullest potential.

Chapter 1: Accessing and Navigating ARIS UDSM: Your First Steps

Accessing ARIS UDSM typically involves visiting the university's official website and locating the

ARIS portal link. You'll need your student ID number and a password (often initially provided during enrollment or registration). The login process is usually straightforward, but it's crucial to follow the instructions carefully. The interface itself might vary slightly over time, but generally, it will be user-friendly and intuitive, with clear navigation options. Look for menus or tabs related to your academic needs, such as "Student Information," "Course Registration," "Fees," and "Grades."

Troubleshooting Common Login Issues:

Forgotten Password: Most systems provide a "forgot password" option that allows you to reset your password via email or other means of verification. Follow the instructions on the login page carefully.

Incorrect Credentials: Double-check your student ID number and password for any typos or errors. Ensure you're using the correct case (uppercase/lowercase).

Browser Issues: Try clearing your browser cache and cookies, or trying a different browser altogether. Outdated browser versions can sometimes cause compatibility problems.

System Downtime: If you suspect the system is down, check the UDSM website for any announcements or service disruptions. Contact the IT support department if the problem persists.

Chapter 2: Utilizing ARIS UDSM for Academic Purposes: Key Features Explained

ARIS UDSM is far more than just a login portal; it's a comprehensive academic management tool. Understanding its core functionalities is vital for effective academic planning and administration. Here's a breakdown of key features:

Course Registration: This section allows you to select and register for courses based on your program requirements and available offerings. Pay close attention to deadlines and prerequisites.

Fee Payment: ARIS UDSM often integrates with payment gateways, allowing you to pay your tuition fees and other academic charges online. Ensure you follow the payment instructions carefully and retain proof of payment.

Grade Viewing: Access your academic performance throughout the semester or academic year. Understand the grading system used by UDSM and what constitutes a passing grade.

Transcript Access: You can typically download or request official academic transcripts through ARIS. This is crucial for future applications to graduate programs or employment opportunities.

Downloading Academic Documents: This feature allows for downloading important documents such as course syllabi, exam schedules, and other relevant academic materials.

Chapter 3: Managing Your Academic Profile on ARIS UDSM: Keeping Your Information Up-to-Date

Maintaining an accurate and up-to-date profile in ARIS UDSM is crucial. Inaccurate information can lead to delays or issues with your academic progress. Ensure your personal information, contact details, and emergency contact information are always current. This includes your name, address, phone number, and email address. Regularly check your notification settings to ensure you receive important updates and announcements from the university.

Chapter 4: ARIS UDSM and Research: Accessing Academic Resources

While the primary function of ARIS is administrative, it may also offer links or integration with the UDSM library system or other academic databases. Explore the system for any research-related resources that may be available. Understanding how to access and utilize these resources can significantly enhance your research capabilities.

Chapter 5: Troubleshooting and Support: Getting Help When You Need It

Despite its user-friendly design, you might encounter occasional issues while using ARIS UDSM. Don't hesitate to seek help from the university's IT support department or refer to the frequently asked questions (FAQs) section on the ARIS portal. Documenting your issues and providing specific details will assist support staff in providing effective solutions.

Conclusion: Mastering ARIS UDSM for Academic Success

Proficiency in using ARIS UDSM is paramount to a smooth and successful academic journey at the University of Dar es Salaam. By understanding its features, functionalities, and troubleshooting methods, students can effectively manage their academic affairs, access important information, and ultimately achieve their academic goals.

FAQs

1. How do I reset my ARIS UDSM password? Follow the "Forgot Password" link on the login page and follow the instructions.
2. Where can I find my course schedule? This is typically found within the "Student Information" or "Courses" section after registering.
3. How do I pay my tuition fees online? The payment method is usually detailed within the "Fees" section of ARIS.
4. When will my grades be available? Refer to the university's academic calendar for grade release dates.
5. What should I do if I encounter a technical problem? Contact the UDSM IT support department.
6. How do I access my academic transcript? The process will be outlined in the "Transcript" section of ARIS.
7. Is ARIS UDSM accessible on mobile devices? Check the UDSM website or contact support to confirm mobile compatibility.
8. What if my personal information is incorrect on ARIS? Log in and update your information in the designated section.
9. Can I use ARIS UDSM to register for graduation? Likely, yes; consult the graduation procedures outlined by the university.

aris udsM: The Courage for Change Matthew Laban Luhanga, 2009 African universities including the University of Dar es Salaam faced major resource constraints in the 1970's and 1980's. These constraints had a negative impact on higher education in Africa leading to a decline in the quality of education provided, stagnant or falling enrolments in the face of rapidly expanding populations, deteriorating infrastructure and staff exodus to greener pastures. Written by the Vice Chancellor of the University of Dar es Salaam 1991-2007 this book captures the achievements which were engineered under his leadership to transform the University into an institution which would be better placed to meet the development needs of Tanzania in the 21st century. The book covers the

bleak atmosphere prevailing when the author took over as Vice Chancellor in 1991, transformation achievements in the academic, finance and gender aspects, a sampling of the administrative challenges faced and some of the unfinished business which was passed on to succeeding Vice Chancellor.

aris udsM: Bibliography of Agricultural Research in Tanzania , 1990

aris udsM: Agribusiness and Innovation Systems in Africa Kurt Larsen, Ronald Kim, Florian Theus, 2009 This book examines how agricultural innovation arises in four African countries ? Ghana, Kenya, Tanzania, and Uganda ? through the lens of agribusiness, public policies, and specific value chains for food staples, high value products, and livestock.

aris udsM: UDSM Five-year Rolling Strategic Plan, 2004/2005-2008/2009: Main document Chuo Kikuu cha Dar es Salaam. Directorate of Planning and Development, Chuo Kikuu cha Dar es Salaam, 2004

aris udsM: Biotechnology and Innovation Systems Bo Göransson, Carl Magnus Pålsson, 2011-01-01 This book explores how policies targeting public research institutions, such as universities, contribute to the appropriation of biotechnology through national innovation systems. Around the world, biotechnology has become a driving force for dramatic change in systems and policies intended to spur innovation. The leading contributors expertly construct a detailed picture of policy approaches that support biotechnology and how such approaches work under different economic and social conditions. They also provide an insight into the role of universities in this process. Researchers, academics, students, policy advisors, decision-makers and other professionals involved, and working in, the fields of biotechnology, innovation systems, higher education and development will find this book an invaluable resource.

aris udsM: Water V I Grover, 2006-01-04 Water is one of the most essential element for the survival of living beings. With the increase in demand and decreasing quality and quantity, water has become one of the major issues and problems in the world today. It is unevenly distributed geographically and temporally, resulting in surpluses for some people and a threat for others. This book covers topics on scientific aspects, governance, and best management practices. The book shows that good governance, policies for effective conservation and public participation are important for water use. There are a lot of examples of best management practices all over the world ? for effective and efficient use of water, community-based programs in North America, Asia and Africa. The book provides two case studies.

aris udsM: UDSM Five-year Rolling Strategic Plan, 2000/2001-2004/2005 Chuo Kikuu cha Dar es Salaam, 2000

aris udsM: Higher Education in Tanzania Brian Cooksey, Daniel J. Mkude, Daniel Mkude, Lisbeth A. Levey, 2003 Examines institutional transformation in the University of Dar es Salaam. The Partnership for Higher Education in Africa commissioned case studies of higher education provision in Tanzania, Uganda, Kenya, Mozambique, Nigeria, Ghana and South Africa, as part of its effort to stimulate enlightened, equitable, and knowledge-based national development, and to provide guides to understanding. The University of Dar es Salaam has put in place measures to stop the process of decay and better fulfil its core functions - the unity and commitment within its leadership attracting both government and donors. This text explores the attributes needed to harvest the fruits of the reform. In association with Partnership for Higher Education in Africa; Tanzania: Mkuki na Nyota

aris udsM: Egerton Journal , 2006

aris udsM: Metrology in Urban Drainage and Stormwater Management Jean-Luc Bertrand-Krajewski, Francois Clemens-Meyer, Mathieu Lepot, 2021 This book presents the advancements made in applied metrology in the field of Urban Drainage and Storm water Management over the past two decades in scientific research as well as in practical applications. Given the broadness of this subject (measuring principles, uncertainty in data, data validation, data storage and communication, design, maintenance and management of monitoring networks, technical details of sensor technology), the focus is on water quantity and a sound metrological basis. The book offers common ground for academics and practitioners when setting up monitoring

projects in urban drainage and storm water management. This will enable an easier exchange of results so as to allow for a faster scientific progress in the field. A second, but equally important goal, is to allow practitioners access to scientific developments and gained experience when it comes to monitoring urban drainage and storm water systems. In-depth descriptions of international case studies covering all aspects discussed in the book are presented, along with self-training exercises and codes available for readers on a companion website.

aris udsM: Managing Research for Agricultural Development Mathias Lema, Chira Schouten, Ted Schrader, 2003

aris udsM: Sub-Saharan African Science, Technology, Engineering, and Mathematics Research Andreas Blom, George Lan, Mariam Adil, 2015-12-21 This book analyzes Africa's current performance in Science, Technology, Engineering and Math (STEM) research, as well as future trends. It looks at Africa's research performance over a decade, what it means for the continent's development and how it can benefit the growing number of young people who leave university each year looking for jobs. The book focuses on research output and citation impact, important indicators of the strength of a region's research enterprise. These indicators are correlated with the region's long-term development and important drivers of economic success. Moreover, research is a key ingredient for quality higher education. The research performance of these regions is compared to that of South Africa, Malaysia, and Vietnam; the latter two countries had a comparable research base to the SSA regions at the beginning of the period of analysis.

aris udsM: Biosafety and Biotechnology in Tanzania S. Nchimbi-Msolla, 2005

aris udsM: Innovation in Information Systems and Technologies to Support Learning Research Mohammed Serrhini, Carla Silva, Sultan Aljahdali, 2019-11-30 This book provides glimpses into contemporary research in information systems & technology, learning, artificial intelligence (AI), machine learning, and security and how it applies to the real world, but the ideas presented also span the domains of telehealth, computer vision, the role and use of mobile devices, brain-computer interfaces, virtual reality, language and image processing and big data analytics and applications. Great research arises from asking pertinent research questions. This book reveals some of the authors' "beautiful questions" and how they develop the subsequent "what if" and "how" questions, offering readers food for thought and whetting their appetite for further research by the same authors.

aris udsM: 10th AAU General Conference, Nairobi, Kenya, February 2001 Association of African Universities. General Conference, 2001

aris udsM: Student Politics in Africa Luescher, Thierry M., Klemencic, Manja, 2016-05-12 The second volume of the African Higher Education Dynamics Series brings together the research of an international network of higher education scholars with interest in higher education and student politics in Africa. Most authors are early career academics who teach and conduct research in universities across the continent, and who came together for a research project and related workshops and a symposium on student representation in African higher education governance. The book includes theoretical chapters on student organising, student activism and representation; chapters on historical and current developments in student politics in Anglophone and Francophone Africa; and in-depth case studies on student representation and activism in a cross-section of universities and countries. The book provides a unique resource for academics, university leaders and student affairs professionals as well as student leaders and policy-makers in Africa and elsewhere.

aris udsM: Higher Education Reforms in Africa Matthew Laban Luhanga, 2003 The purposes of this publication are to record the experiences of the University of Dar es Salaam's reform programmes initiated in the early 1990s' and to present information and the positive aspects of the reform programmes to other African universities or other institutions of higher education in developing countries, so that they may pursue their own programmes without re-inventing the wheel. Chapters cover: the university in the contexts of higher education delivery in the world, in developing countries, in Africa, and in Tanzania; the historical development of the university up until

the time of the reforms; an account and evaluation of how the institutional transformation process began and what it achieved; principles and parameters that might account for the relative success of the reforms; and lessons to be learned. The book also includes sample questionnaires and notes from interviews with four Vice Chancellors of the university and student leaders. The authors are professors in telecommunications, linguistics and environmental engineering at the University of Dar es Salaam.

aris udsu: *The Concept of Human Rights in Africa* Issa G. Shivji, 1989 1 The dominant discourse

aris udsu: **Bebop to the Boolean Boogie** Clive Maxfield, 2008-12-05 This entertaining and readable book provides a solid, comprehensive introduction to contemporary electronics. It's not a how-to-do electronics book, but rather an in-depth explanation of how today's integrated circuits work, how they are designed and manufactured, and how they are put together into powerful and sophisticated electronic systems. In addition to the technical details, it's packed with practical information of interest and use to engineers and support personnel in the electronics industry. It even tells how to pronounce the alphabet soup of acronyms that runs rampant in the industry. - Written in conversational, fun style that has generated a strong following for the author and sales of over 14,000 copies for the first two editions - The Third Edition is even bigger and better, with lots of new material, illustrations, and an expanded glossary - Ideal for training incoming engineers and technicians, and for people in marketing or other related fields or anyone else who needs to familiarize themselves with electronics terms and technology

aris udsu: *Water Reuse* Chris Binnie, Martin Kimber, 2008-05-14 Water Reuse: An International Survey of current practice, issues and needs examines water reuse practices around the world from different perspectives. The objective is to show how differently wastewater reuse is conceived and practised around the world as well as to present the varied needs and possibilities for reusing wastewater. In the first section water reuse practices around the world are described for regions having common water availability, reuse needs and social aspects. The second section refers to the "stakeholders" point of view. Each reuse purpose demands different water quality, not only to protect health and the environment but also to fulfil the requirements of the specific reuse. Reuses considered are agricultural, urban agriculture as a special case of the former, municipal and industrial. Alongside these uses, the indirect reuse for human consumption through aquifer recharge is also discussed. The third section deals with emerging and controversial topics. Ethical and economical dilemmas in the field are presented as a subject not frequently addressed in this field. The role of governments in respect of public policy in reuse is discussed as well as the different international criteria and standards for reusing wastewater. The importance of public acceptance and the way to properly handle it is also considered. The fourth section of the book presents contrasting case studies; typical situations in the developed world (Japan and Germany) are compared to those in developing countries (Pakistan and Brazil) for agricultural and industrial reuse. Indirect planned reuse for human consumption (Germany) is compared with an unplanned one (Mexico). The Windhoek, Namibia case study is presented to emphasize why if the direct reuse of wastewater for human consumption has been performed with success for more than 35 years it is still the only example of this type around the world. To illustrate the difficulties of having a common framework for regulating water reuse in several countries, the Mediterranean situation is described. Other case studies presented refer to the reuse situation in Israel, Spain, Cameroon, Nepal and Vietnam, these latter countries being located in water rich areas. This book will be an invaluable information source for all those concerned with water reuse including water utility managers, wastewater policy makers and water resources planners as well as researchers and students in environmental engineering, water resources planning and sanitary engineering. aris udsM: Cultural Mobilities Between Africa and the Caribbean Birgit Englert, Barbara Gföllner, Sigrid Thomsen, 2021-06-17 This book investigates the cultural connections between Africa and the Caribbean, using the lens of Mobility Studies to tease out the shared experiences between these highly diverse parts of the world. Despite their heterogeneity in terms of cultures, languages, and political and economic histories, the connections between the African continent and the Caribbean are manifold, stretching back to the trans-Atlantic slave trade. The authors in this book look to the past as well as to the present, focusing on the manifold mobile connections between the regions' subjects, objects, ideas, texts, images, sounds, and beliefs. In doing so, the book demonstrates that mobility extends beyond just the movement of people, and that we can also see mobility in objects and ideas, travelling either in a material sense or in imaginary terms, in physical as well as in virtual spaces. Bringing the transdisciplinary fields of African Studies, Caribbean Studies, and Mobility Studies into dialogue, this book will be of interest to students and scholars across the humanities and social sciences. The Open Access version of this book, available at <http://www.taylorfrancis.com>, has been made available under a Creative Commons Attribution-Non Commercial (CC-BY-NC) 4.0 license. aris udsM: Studies in the African Past Various Authors, 2015-11-01 This journal has been produced by the African Archaeology Network since 2001. However, by 2014, the Network became defunct, following end of funding contract with Sida Sweden. The department of Archaeology and Heritage of the University of Dar-es-Salaam in which the Network was based, in the meeting of 2013 decided to take the journal and continue maintaining it at the request of the General Coordinator of African Archaeology Network. Volume 12 is therefore the first issue of the journal under the Department of Archaeology and Heritage, University of Dar-es-Salaam. The head of the department and the chief editor would like to inform all colleagues that the journal will continue to serve the interests of African Archaeology Network in publication as it did before. It is through such means that the Network can be kept alive. The journal is still international and members from different countries are invited to contribute papers, assist in reviewing, and help in editorial work. Efforts have started being made to request other international members to assist in the editorial work in order to raise the quality of our journal.

aris udsM: International Comparative Perspectives on Religion and Education Charl C.

Wolhuter, Corene de Wet, 2014-05-31 This book scrutinises religion in education in ten countries. It reveals much about the tension between religion and education in secular countries, and the blending between religion and education in religious countries, such as Iran and Malaysia, as well as secular countries such as the Netherlands. It also shows the important role the church currently plays in education in developing countries, such as Tanzania.

aris udsM: Sapienza for International Development Cooperation Carlo Giovanni Cereti, Francesca Giofrè, 2021-07-05 The volume presents the interventions of the speakers and the posters of the professors of Sapienza University of Rome as evidence of the results achieved in international cooperation with a special emphasis on capacity building actions in the main geographical areas identified as: Africa, Mena countries and Latin America and Asia. The materials were presented at the University Conference "Sapienza in International Development: Strategies, Projects, Initiatives" held in Rome, at the Aula Magna of Sapienza University of Rome, on 11 December 2018 and organized with the collaboration of the Roma Sapienza Foundation. The volume also presents in its introductory part a moment of reflection on the geographical areas of cooperation of greatest interest and strategic for Sapienza.
