blumberg a55 lease: *Kumba Africa* Sampson Ejike Odum, 2020-11-03 'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

blumberg a55 lease: *Yvain* Chretien de Troyes, 1987-09-10 The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, *Yvain*, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. *Yvain* is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

blumberg a55 lease: *Janis* Holly George-Warren, 2019-10-22 Longlisted for the 2020 Andrew Carnegie Medals for Excellence This blazingly intimate biography of Janis Joplin establishes the Queen of Rock & Roll as the rule-breaking musical trailblazer and complicated, gender-bending rebel she was. Janis Joplin's first transgressive act was to be a white girl who gained an early sense of the power of the blues, music you could only find on obscure records and in roadhouses along the Texas and Louisiana Gulf Coast. But even before that, she stood out in her conservative oil town. She was a tomboy who was also intellectually curious and artistic. By the time she reached high school,

she had drawn the scorn of her peers for her embrace of the Beats and her racially progressive views. Her parents doted on her in many ways, but were ultimately put off by her repeated acts of defiance. Janis Joplin has passed into legend as a brash, impassioned soul doomed by the pain that produced one of the most extraordinary voices in rock history. But in these pages, Holly George-Warren provides a revelatory and deeply satisfying portrait of a woman who wasn't all about suffering. Janis was a perfectionist: a passionate, erudite musician who was born with talent but also worked exceptionally hard to develop it. She was a woman who pushed the boundaries of gender and sexuality long before it was socially acceptable. She was a sensitive seeker who wanted to marry and settle down—but couldn't, or wouldn't. She was a Texan who yearned to flee Texas but could never quite get away—even after becoming a countercultural icon in San Francisco. Written by one of the most highly regarded chroniclers of American music history, and based on unprecedented access to Janis Joplin's family, friends, band mates, archives, and long-lost interviews, Janis is a complex, rewarding portrait of a remarkable artist finally getting her due.

blumberg a55 lease: Unfolding Practice Arzu Mistry, 2016-06-01 Unfolding Practice: Reflections on Learning and Teaching is a conversation between two artist-educators. Flowing across five chapters, the double sided accordion book has been curated from ten years of recorded conversations, field notes, planning, sketches, reflection, and teaching. The front of the book weaves text, illustration, cutouts, and screen prints, journeying through artistic process and educational practice. The back of the book is a guide, expanding on the practice of using accordion books as a tool for capturing, visualizing, and building upon reflective thinking. The brown paper alludes to the craft paper that is ubiquitous in schools and captures process more than the preciousness of a final product.

The field encompasses both prenatal and postnatal care of the mother and the infant. Fetal screening helps to assess the viability of the fetus and investigate the presence of any congenital abnormalities. Other methods such as nonstress test, fetal karyotype, fetal haematocrit and oxytocin challenge test are used for fetal assessment. In case of fetal distress, placental malfunction, pre-eclampsia and intrauterine growth retardation, labor may be medically induced. Ectopic pregnancy, placental abruption, shoulder dystocia, obstetrical haemorrhage and puerperal sepsis are certain obstetrical emergencies which require immediate medical attention. Postnatal care is provided to the mother following parturition. The infant's health is also monitored and the mother is advised regarding baby care. This book aims to shed light on some of the unexplored aspects of obstetrics and the recent researches in this field. The various studies that are constantly contributing towards advancing investigative and interventional technologies and evolution of this field are examined in detail. For someone with an interest and eye for detail, this book covers the most significant topics in maternal-fetal medicine.
