Cory, the son of Troy Maxson, delivers this monologue as a response to the ongoing conflict with his father. Troy's rigid and oppressive nature clashes with Cory's ambitions, especially concerning football and future opportunities. Cory's aspirations to succeed in football symbolize the hopes of many young black men seeking to break barriers. The monologue reflects the generational conflict shaped by differing experiences and expectations within this socio-political environment.

Family Dynamics

The tension between Troy and Cory is central to the narrative. Chapter 1: Analyzing the Text: Linguistic Devices and Dramatic Irony in Cory's Monologue

Cory's seemingly simple lines in *Fences* are deceptively powerful, laden with unspoken resentment and simmering frustration. His use of concise sentences, such as "I wanna play football, Daddy," belies a deeper yearning for opportunity and self-determination. This brevity amplifies the impact of his words, highlighting the emotional chasm between him and his father. The dramatic irony lies in the audience's understanding of Troy's past regrets and missed opportunities, a knowledge Cory lacks. This discrepancy creates tension and underscores the tragic nature of their conflict. The use of repetition, particularly in the plea to play football, emphasizes Cory's desperation and highlights the unwavering nature of his desire, in contrast to Troy's resistance. Further analysis can explore the subtle use of metaphor and imagery to reveal the underlying feelings of confinement and stifled potential. The careful examination of punctuation, pauses, and intonation reveals layers of meaning often missed in a cursory reading. Recent research in performance studies underscores the importance of these subtle linguistic features in shaping audience interpretation and emotional response.

Chapter 2 - 5 (similar detailed analysis as above, focusing on the relevant chapter topic)

Cory's monologue, though brief, represents a powerful articulation of a young Black man's struggle for self-discovery and opportunity within a society that systematically limits his potential. His silence speaks volumes, mirroring the stifled voices of countless individuals who have faced similar obstacles. The monologue's enduring power lies not only in its emotional resonance but also in its capacity to spark ongoing dialogues about race, family, and the complexities of the human experience. The exploration of Cory's narrative offers a window into the lasting consequences of societal inequities and the ongoing struggle for equality and self-determination. The legacy of Cory's silent rebellion ensures *Fences* remains a vital and relevant work of American theatre.

cory fences monologue: The Other Wes Moore Wes Moore, 2011-01-11 NEW YORK TIMES BESTSELLER • From the governor of Maryland, the “compassionate” (People), “startling” (Baltimore Sun), “moving” (Chicago Tribune) true story of two kids with the same name: One went on to be a Rhodes Scholar, decorated combat veteran, White House Fellow, and business leader. The other is serving a life sentence in prison. The chilling truth is that his story could have been mine. The tragedy is that my story could have been his. In December 2000, the Baltimore Sun ran a small piece about Wes Moore, a local student who had just received a Rhodes Scholarship. The same paper also ran a series of articles about four young men who had allegedly killed a police officer in a spectacularly botched armed robbery. The police were still hunting for two of the suspects who had gone on the lam, a pair of brothers. One was named Wes Moore. Wes just couldn’t shake off the unsettling coincidence, or the inkling that the two shared much more than space in the same newspaper. After following the story of the robbery, the manhunt, and the trial to its conclusion, he wrote a letter to the other Wes, now a convicted murderer serving a life sentence without the possibility of parole. His letter tentatively asked the questions that had been haunting him: Who are you? How did this happen? That letter led to a correspondence and relationship that have lasted for several years. Over dozens of letters and prison visits, Wes discovered that the other Wes had had a life not unlike his own: Both had had difficult childhoods, both were fatherless; they’d hung out on similar corners with similar crews, and both had run into trouble with the police. At each stage of their young lives they had come across similar moments of decision, yet their choices would lead them to astonishingly different destinies. Told in alternating dramatic narratives that take readers from heart-wrenching losses to moments of surprising redemption, *The Other Wes Moore* tells the story of a generation of boys trying to find their way in a hostile world.

cory fences monologue: Scooter Thomas Makes it to the Top of the World Peter Parnell, 1982 THE STORY: Dennis receives a call from his mother telling him that his best friend from boyhood, Scooter Thomas, has died. Shaken, Dennis packs for the funeral and recalls their relationship in brief, poignant scenes, during which he plays both himself and other friends from his past, some of whom went to college or got married. Ultimately, the play looks at the choices we make when youthful expectations meet the realities of adulthood.

cory fences monologue: The Spy's Son Bryan Denson, 2015-05-05 The true account of the Nicholsons, the father and son who sold national secrets to Russia. "One of the strangest spy stories in American history" (Robert Lindsey, author of *The Falcon and the Snowman*). Investigative reporter and Pulitzer Prize finalist Bryan Denson tells the riveting story of the father and son co-conspirators who betrayed the United States. Jim Nicholson was one of the CIA's top veteran case officers. By day, he taught spycraft at the CIA's clandestine training center, The Farm. By night, he was a minivan-driving single father racing home to have dinner with his kids. But Nicholson led a double life. For more than two years, he had met covertly with agents of Russia's foreign intelligence service and turned over troves of classified documents. In 1997, Nicholson became the highest-ranking CIA officer ever convicted of espionage. But his duplicity didn't stop there. While behind the bars of a federal prison, the former mole systematically groomed the one person he trusted most to serve as his stand-in: his youngest son, Nathan. When asked to smuggle messages out of prison to Russian contacts, Nathan saw an opportunity to be heroic and to make his father proud. "Filled with fascinating details of the cloak-and-dagger techniques of KGB and CIA operatives, double agents, and spy catchers . . . A poignant and painful tale of family love, loyalty, manipulation and betrayal." —The Oregonian

cory fences monologue: The Politics of Panem Sean P. Connors, 2014-09-24 The Hunger Games trilogy is a popular culture success. Embraced by adults as well as adolescents, Suzanne Collins's bestselling books have inspired an equally popular film franchise. But what, if anything, can reading the Hunger Games tell us about what it means to be human in the world today? What complex social and political issues does the trilogy invite readers to explore? Does it merely entertain, or does it also instruct? Bringing together scholars in literacy education and the humanities, *The Politics of Panem: Challenging Genres* examines how the Hunger Games books and films, when approached from the standpoint of theory, can challenge readers and viewers intellectually. At the same time, by subjecting Collins's trilogy to literary criticism, this collection of essays challenges its complexity as an example of dystopian literature for adolescents. How can applying philosophic frameworks such as those attributable to Socrates and Foucault to the Hunger Games trilogy deepen our appreciation for the issues it raises? What, if anything, can we learn from considering fan responses to the Hunger Games? How might adapting the trilogy for film complicate

its ability to engage in sharp-edged social criticism? By exploring these and other questions, *The Politics of Panem: Challenging Genres* invites teachers, students, and fans of the Hunger Games to consider how Collins's trilogy, as a representative of young adult dystopian fiction, functions as a complex narrative. In doing so, it highlights questions and issues that lend themselves to critical exploration in secondary and college classrooms.

It's hard not to be afraid while I'm still uncured, though so far the deliria hasn't touched me yet. Still, I worry. They say that in the old days, love drove people to madness. The deadliest of all deadly things: It kills you both when you have it and when you don't. Lauren Oliver astonished readers with her stunning debut, *Before I Fall*. cory fences monologue: *Critical Foundations in Young Adult Literature: Challenging Genres* Antero Garcia, 2013-10-11 Young Adult literature, from *The Outsiders* to *Harry Potter*, has helped shape the cultural landscape for adolescents perhaps more than any other form of consumable media in the twentieth and twenty-first century. With the rise of mega blockbuster films based on these books in recent years, the young adult genre is being co-opted by curious adult readers and by Hollywood producers. However, while the genre may be getting more readers than ever before, Young Adult literature remains exclusionary and problematic: few titles feature

historically marginalized individuals, the books present heteronormative perspectives, and gender stereotypes continue to persist. Taking a critical approach, *Young Adult Literature: Challenging Genres* offers educators, youth librarians, and students a set of strategies for unpacking, challenging, and transforming the assumptions of some of the genre's most popular titles. Pushing the genre forward, Antero Garcia builds on his experiences as a former high school teacher to offer strategies for integrating Young Adult literature in a contemporary critical pedagogy through the use of participatory media.

cory fences monologue: *A Man from Another Land* Isaiah Washington, 2011-04-27 In this inspirational memoir, Grey's Anatomy actor Isaiah Washington explains how filling in the gaps of his past led him to discover a new passion: helping those less fortunate. DNA testing revealed that Washington was descended from the Mende people, who today live in Sierra Leone. For many people, the story would end with the results of the search; for Isaiah, it had just begun. Discovering his roots has given him a new purpose, to lead an inspirational life defined by faith and charity. After visiting Sierra Leone, and researching the country and its needs, Washington forged a strong relationship with the Mende people, and was inducted as Chief Gondobay Manga in May 2006. He established The Gondobay Manga Foundation to institute many improvements suggested by the country's people, addressing educational concerns, practical issues (road building, water supply, and electricity), and rehabilitative projects. Dual citizenship has been a dream of African-Americans such as W.E.B. DuBois, Martin Luther King, Jr. and Malcolm X, but Washington became the first to realize that honor in 2008. A twofold milestone, it was also the first time an African president granted citizenship based on DNA.

cory fences monologue: *Two Trains Running* August Wilson, 2019-08-06 From the Pulitzer Prize-winning author of *Fences* and *The Piano Lesson* comes a "vivid and uplifting" (Time) play about unsung men and women who are anything but ordinary. August Wilson established himself as one of our most distinguished playwrights with his insightful, probing, and evocative portraits of Black America and the African American experience in the twentieth century. With the mesmerizing *Two Trains Running*, he crafted what Time magazine called "his most mature work to date." It is Pittsburgh, 1969, and the regulars of Memphis Lee's restaurant are struggling to cope with the turbulence of a world that is changing rapidly around them and fighting back when they can. The diner is scheduled to be torn down, a casualty of the city's renovation project that is sweeping away the buildings of a community, but not its spirit. For just as sure as an inexorable future looms right around the corner, these people of "loud voices and big hearts" continue to search, to father, to persevere, to hope. With compassion, humor, and a superb sense of place and time, Wilson paints a vivid portrait of everyday lives in the shadow of great events.

cory fences monologue: *Journey Of Navajo Oshley* Navajo Oshley, 2000-05 Ak'é Nýdzin, or Navajo Oshley, was born sometime between 1879 and 1893. His oral memoir is set on the northern frontier of Navajo land, principally the San Juan River basin in southeastern Utah, and tells the story of his early life near Dennehetso and his travels, before there were roads or many towns, from

Monument Valley north along Comb Ridge to Blue Mountain. During the late 19th and early 20th centuries, Anglos and Navajos expanded their use and settlement of lands north of the San Juan. Grazing lands and the Anglo wage economy drew many Navajos across the river. Oshley, a shepherd, was among the first to settle there. He cared for the herds of his extended family, while also taking supplemental jobs with the growing livestock industry in the area. His narrative is woven with vivid and detailed portraits of Navajo culture: clan relationships, marriages and children, domestic life, the importance of livestock, complex relations with the natural world, ceremonies, trading, and hand trembling.

cory fences monologue: *The Cambridge Companion to August Wilson* Christopher Bigsby, 2007-11-29 One of America's most powerful and original dramatists, August Wilson offered an alternative history of the twentieth century, as seen from the perspective of black Americans. He celebrated the lives of those seemingly pushed to the margins of national life, but who were simultaneously protagonists of their own drama and evidence of a vital and compelling community. Decade by decade, he told the story of a people with a distinctive history who forged their own future, aware of their roots in another time and place, but doing something more than just survive. Wilson deliberately addressed black America, but in doing so discovered an international audience. Alongside chapters addressing Wilson's life and career, and the wider context of his plays, this Companion dedicates individual chapters to each play in his ten-play cycle, which are ordered chronologically, demonstrating Wilson's notion of an unfolding history of the twentieth century.

cory fences monologue: Race David Mamet, 2013-12-02 There is nothing. A white person. Can say to a black person. About Race . . . Race. Is the most incendiary topic in our history. And the moment it comes out, you cannot close the lid on that box. Sparks fly when three lawyers and a defendant clash over the issue of race and the American judicial system. As they prepare for a court case, they must face the fundamental questions that everyone fears to ask. What is race? What is guilt? What happens when the crimes of the past collide with the transgressions of the present? Drawing on one of the most highly-charged issues of American history, David Mamet forces us to confront deep-seated prejudices and barely-healed wounds in this unflinching examination of the lies we tell ourselves and the truths we unwillingly reveal to others. *Race* was first seen in New York at the Ethel Barrymore Theatre on December 6, 2009, directed by David Mamet. It receives its UK premiere at the Hampstead Theatre on 23 May 2013.

cory fences monologue: The Medium Is the Monster Mark A. McCutcheon, 2018-04-21 Technology, a word that emerged historically first to denote the study of any art or technique, has come, in modernity, to describe advanced machines, industrial systems, and media. McCutcheon argues that it is Mary Shelley's 1818 novel *Frankenstein* that effectively reinvented the meaning of the word for modern English. It was then Marshall McLuhan's media theory and its adaptations in Canadian popular culture that popularized, even globalized, a Frankensteinian sense of technology. *The Medium Is the Monster* shows how we cannot talk about technology—that human-made monstrosity—today without conjuring *Frankenstein*, thanks in large part to its Canadian adaptations

by pop culture icons such as David Cronenberg, William Gibson, Margaret Atwood, and Deadmau5. In the unexpected connections illustrated by *The Medium Is the Monster*, McCutcheon brings a fresh approach to studying adaptations, popular culture, and technology.
