Thats where this story begins since I never saw the face of my great grandfather, James Joseph Volmar, whos buried somewhere around Etoil, Texas; except for one picture where hes lined up with members of the Masonic Lodge, upright dignified men in aprons, embroidered cowls down to their waists. And thats not a picture to be passed around to average folks or women. I expect that at my great grandfathers wake, a Mason sneaked the picture out from under his coat and gave it to my Big Papa who wears the black ring too. My grandfather had a big bunch of brothers and two sisters. Well, you might as well say one sister. My great-aunt Edna got TB when she was a girl and they sent her to Boonville, Arkansas, to a sanatorium for a twelve-year quarantine. When it was time to get out, shed been there most of her life and decided to stay. Big Papas wild brother Bill got the Volmars from Texas to Louisiana. They had to hotfoot it out after Bill went and killed a man during an argument. Leroy, Eb, and Bill ran to North Louisiana hoping the law would give out before they did. That dead body changed just about everything for the Volmars. Recently at a family reunion my brother and I were talking about our great-uncle Bill.

Donna, do you think he was saved? Well, I know he was saved one day from the law when he made it to Louisiana where he married five times, a younger woman each time. Jim, my daddy, was a roughneck and picked up where his wild Uncle Bill left off. From Chapter 9 Blow Out I was up in the derrick and I heard a rumble down in the hole. I don't think the driller realized when he heard the kick what was happening. Before I had time to yell down, there was a flash, and then a blast jarred my feet off my board. The well was gonna go. I reached out to cling onto one of the steel shafts when I was knocked from one side to the other in that derrick. Thank God I didn't have on a damn safety belt up 120 feet high. Sounded like a freight train when we hit that gas. I leaned out and pulled the soft line close. Had to get ready to leap out on the damn thing. I hung out there seemed like forever while that rope swung me back and forth, banged me up against the derrick. I pushed away with one foot until I could get my legs around the rope and slide down. The whole shebang was about to blow. I was flying down that rope by the time my feet touched the ground. Looked up to see the god damn tubing bust clean off. Oil went spewing everywhere, shot way high in the air. It felt like hail until I looked down and saw grease plastered all over me. We fell over each other trying to get away. After we jumped in the car, we looked around at each other, What in the shit just happened? Are you hurt, Daddy? I'm okay, but look at my arms, they're already red and burning. I don't ever want to be caught up in that derrick again when some god damn driller isn't paying attention. Or maybe he'd never seen a well come in. I won't ever work for him again. You can get fuckin' killed. Honey, I've got to hurry up and get in the tub. Find my lye soap and Petroleum Jelly. You're a sight. Have you looked in the mirror? I'm scared. Baby. I'll be alright. From Chapter 10 Greyhound to Cincinnati I see the faces of smutty, ragshag men watching me from all the rows clear to the back. Guess they decided they didn't need a shave to ride a Greyhound. Any one of them could be that serial killer on the news. There's a bad smell in here, too. Granny says bouquet for smell. She says it's more ladylike. But I think she'd even agree there's no sweet bouquet on this bus. One day, I'll get me a ticket on an airplane. Hey, Bubba, I wonder what Mother will have for us to eat. Writers will come away with an extremely precise set of tools to work with—specific, useful techniques to make the audience care about their characters, and that make their characters grow in meaningful ways. They will construct a surprising plot that is unique to their particular concept, and they will learn how to express a moral vision that can genuinely move an audience. The foundations of story that Truby lays out are so fundamental they are applicable—and essential—to all writers, from novelists and short-story writers to journalists, memoirists, and writers of narrative non-fiction.

doubt john patrick shanley pdf: *A Soldier's Play* Charles Fuller, 1982-09 Winner of the Pulitzer Prize for Drama, 1982 A black sergeant cries out in the night, They still hate you, then is shot twice and falls dead. Set in 1944 at Fort Neal, a segregated army camp in Louisiana, Charles Fuller's forceful drama—which has been regularly seen in both its original stage and its later screen version starring Denzel Washington—tracks the investigation of this murder. doubt john patrick shanley pdf: *The Architecture of Story* Will Dunne, 2016-04-08 This new book from the author of *The Dramatic Writer's Companion* approaches some of the same issues as its predecessor but from a slightly different angle. It offers playwrights, screenwriters, and other dramatic writers in-depth analysis of the dramatic architecture of three award-winning contemporary American plays: *Doubt: A Parable* by John Patrick Shanley, *Topdog/Underdog* by Suzan-Lori Parks, and *The Clean House* by Sarah Ruhl. Each relatively brief chapter is devoted to a specific story element—from Characters and Main Event to Emotional Environment and Back Story—with subsections that break down this element in each of the plays. Readers can choose to read across the chapters to follow the analysis of each play, but the structure gives primary emphasis to the story elements, comparing and contrasting how different writers have successfully handled them. Each chapter ends with a set of questions to help readers analyze and develop that element in their own work.

Having spent decades working with dramatists to refine and expand their existing plays and screenplays, Dunne effortlessly blends condensed dramatic theory with specific action steps—over sixty workshop-tested exercises that can be adapted to virtually any individual writing process and dramatic script. Dunne's in-depth method is both instinctual and intellectual, allowing writers to discover new actions for their characters and new directions for their stories. The exercises can be used by those just starting the writing process and by those who have scripts already in development. With each exercise rooted in real-life issues from Dunne's workshops, readers of this companion will find the combined experiences of more than fifteen hundred workshops in a single guide. This second edition is fully aligned with a brand-new companion book, *Character, Scene, and Story*, which offers forty-two additional activities to help writers more fully develop their scripts. The two books include cross-references between related exercises, though each volume can also stand alone. No ordinary guide to plotting, this handbook centers on the principle that character is key. "The character is not something added to the scene or to the story," writes Dunne. "Rather, the character is the scene. The character is the story." With this new edition, Dunne's remarkable creative method will continue to be the go-to source for anyone hoping to take their story to the stage. "Dunne mixes an artist's imagination and intuition with a teacher's knowledge of the craft of dramatic writing." —May-Brit Akerholt, award-winning dramaturg

With a courageous and compelling voice, Lasn deconstructs the advertising culture and our fixation on icons and brand names. And he shows how to organize resistance against the power trust that manages the brands by uncooling consumer items, by dermarketing fashions and celebrities, and by breaking the media trance of our TV-addicted age. doubt john patrick shanley pdf: Edible Insects Arnold van Huis, Food and Agriculture Organization of the United Nations, 2013 Edible insects have always been a part of human diets, but in some societies there remains a degree of disdain and disgust for their consumption. Although the majority of consumed insects are gathered in forest habitats, mass-rearing systems are being developed in many countries. Insects offer a significant opportunity to merge traditional knowledge and modern science to improve human food security worldwide. This publication describes the contribution of insects to food security and examines future prospects for raising insects at a commercial scale to improve food and feed production, diversify diets, and support livelihoods in both developing and developed countries. It shows the many traditional and potential new uses of insects for direct human consumption and the opportunities for and constraints to farming them for food and feed. It examines the body of research on issues such as insect nutrition and food safety, the use of insects as animal feed, and the processing and preservation of insects and their products. It highlights the need to develop a regulatory framework to govern the use of insects for food security. And it presents case studies and examples from around the world. Edible insects are a promising alternative to the conventional production of meat, either for direct human consumption or for indirect use as feedstock. To fully realise this potential, much work needs to be done by a wide range of stakeholders. This publication will boost awareness of the many valuable roles that insects play in sustaining nature and human life, and it will stimulate debate on the expansion of the use of insects as food and feed.
