escambia biology eoc review: NOT ALONE The First Report of the White House Task Force to Protect Students From Sexual Assault The White The White House Task Force, 2014-05-08 Sexual violence is more than just a crime against individuals. It threatens our families, it threatens our communities; ultimately, it threatens the entire country. It tears apart the fabric of our communities. We have the capacity to stop sexual assault, support those who have survived it, and bring perpetrators to justice. President Barack Obama, January 22, 2014 Freedom from sexual assault is a basic human right... a nation's decency is in large part measured by how it responds to violence against women... our daughters, our sisters, our wives, our mothers, our grandmothers have every single right to expect to be free from violence and sexual abuse. Vice President Joe Biden, January 22, 2014
