Chapter 1: Content Strategy Development: Laying the Foundation

Before diving into content creation, a solid strategy is paramount. This involves:

1.1 Identifying Your Target Audience: Knowing Your Customer

Understanding your ideal customer is crucial. Consider their demographics, psychographics (values, interests, lifestyle), pain points, and online behavior. Detailed buyer personas will help you tailor your content to resonate deeply with your target audience. Use tools like Google Analytics to understand your current website traffic and identify patterns.

1.2 Setting SMART Goals: Defining Success

Your content marketing goals must be Specific, Measurable, Achievable, Relevant, and Time-bound (SMART).
