Overview of the Ethiopian Fasting Traditions

The Ethiopian fasting calendar 2023 is deeply intertwined with the religious doctrines of the Ethiopian Orthodox Church, which prescribes various fasting periods throughout the year. Fasting in Ethiopia is not merely a dietary restriction but a spiritual discipline meant to purify the body and soul. These fasts often involve abstaining from animal products such as meat, dairy, and eggs, in addition to limiting food intake during certain hours. The fasting traditions are observed by a large majority of Ethiopians, including laypeople and clergy alike, and they emphasize humility, repentance, and devotion.

Historical Roots of Ethiopian Fasting

The practice of fasting in Ethiopia dates back centuries and is influenced by biblical teachings and early Christian traditions. The Ethiopian Orthodox Church follows a unique liturgical calendar that combines both the Julian and Gregorian systems, resulting in specific fasting periods that may differ from other Christian

denominations. This historical heritage ensures that fasting remains a central aspect of Ethiopian religious identity.

Religious Significance

Fasting is viewed as a way to emulate the life of Jesus Christ, especially his 40 days of fasting in the wilderness. It is also seen as a form of sacrifice and preparation for important religious events such as Easter and Christmas. Through fasting, believers seek spiritual renewal and closeness to God.

Major Fasting Periods in 2023

The Ethiopian fasting calendar 2023 includes several major fasting seasons that vary in length and intensity. Each fasting period is associated with specific religious events and carries a distinct spiritual significance. Below are the primary fasting seasons observed throughout 2023.

Great Lent (Abiy Tsom)

The Great Lent is the most significant fasting period in the Ethiopian Orthodox Church. It lasts for 55 days, beginning on February 27, 2023, and ending on April 22, 2023. This fast commemorates the 40 days Jesus spent fasting in the desert, with an additional 15 days leading up to Easter Sunday. During this period, adherents refrain from eating animal products and often fast until noon or later.

Nativity Fast (Tsome Gahad)

This 40-day fast precedes Christmas and begins on November 25, 2023, continuing until January 6, 2024, which is the Ethiopian Christmas Day according to the Julian calendar. This fasting period honors the birth of Jesus Christ and involves similar dietary restrictions as the Great Lent.

Assumption Fast (Filseta)

Observed from August 7 to August 22 in 2023, the Assumption Fast is a 15-day period dedicated to the Virgin Mary's assumption into heaven. This fast is particularly important in Ethiopian Christian practice, reflecting devotion and reverence to Mary.

Wednesday and Friday Fasts

In addition to the major fasting seasons, Ethiopian Orthodox Christians fast every Wednesday and Friday

throughout the year. Wednesdays commemorate the betrayal of Christ, while Fridays mark his crucifixion. These weekly fasts are integral to the fasting calendar and serve as regular spiritual reminders.

Specific Fasting Days and Their Significance

Beyond the extended fasting seasons, the Ethiopian fasting calendar 2023 also includes several important single-day fasts. These days often coincide with major religious feasts or commemorations of saints and biblical events.

Fast of the Apostles

The Fast of the Apostles typically varies in length and falls between the end of Pentecost and the Feast of Saint Peter and Saint Paul on July 12, 2023. This fast honors the apostles and their missionary work, encouraging believers to reflect on their faith and commitment.

Fast of the Assumption of the Virgin Mary

Preceding the Assumption Fast, this specific day commemorates the Virgin Mary's ascent and is observed with fasting and prayer.

Fast of the Prophets

This fast usually occurs in preparation for the Feast of the Prophets and is observed with abstinence and spiritual reflection.

Other Important Fast Days

- Fast of Nineveh – A three-day fast commemorating the repentance of the people of Nineveh.

Spiritual Practices

Fasting is complemented by increased church attendance, prayer sessions, and reading of religious texts. Many Ethiopians use fasting periods as an opportunity for confession and repentance to deepen their spiritual connection.

It's not merely abstaining from food; it's a journey of spiritual cleansing, reflection, and drawing closer to God. This practice is deeply ingrained in the Ethiopian Orthodox Tewahedo calendar, with numerous fasts observed throughout the year. These fasts are a testament to the faith's commitment to spiritual discipline and a pathway to deeper communion with the divine. It's based on the Julian calendar, with a seven-year-leap cycle and a different starting point for its year. This difference can create confusion when trying to determine the precise dates of Ethiopian fasts. This chapter provides a thorough explanation of the Ethiopian calendar system and its relationship to the Gregorian calendar. It will teach readers how to convert dates between the two systems and provide helpful resources, tables, or even a converter that aids in determining the correct dates for each fast.

Chapter 3: Types of Fasts & Their Observances: A Detailed Guide

Ethiopian Orthodox Tewahedo fasting isn't uniform. Different fasts have varying levels of strictness. This chapter explains different types of fasting within the Ethiopian Orthodox tradition:

Complete Abstinence: Certain days may involve total abstinence from food and drink until sunset.
Partial Abstinence: Other times might restrict certain foods and drinks, such as meat, dairy, alcohol, or specific grains, while allowing others.
Fasting from Specific Foods: Some fasts target specific food groups. The details of each restriction will be carefully explained.

The chapter emphasizes the spiritual significance of these varying levels of fasting, helping readers understand the reasoning and purpose behind each restriction. This is often tied to specific liturgical events and saints' days.

Chapter 4: Spiritual Guidance & Reflections: Connecting with Your Faith

This chapter goes beyond the calendar and dates to provide spiritual insights and reflections pertinent to the Ethiopian fasting season. It explores the theological foundation of fasting within the Ethiopian Orthodox tradition and how the practice aligns with spiritual growth, humility, and prayer.

Thought-provoking questions, prayers, and scripture verses are provided to enhance the spiritual journey during each fast. This will aid in increasing spiritual understanding of the significance of the fast. This section aims to cultivate a deeper connection with God during the fasts.

ethiopian fasting calendar 2023: The Abiy Project Tom Gardner, 2024-06-27 In 2018, Ethiopia and the world were in the throes of 'Abiymania', a fervour of popular support for the divided country's young, charismatic new prime minister. Arriving as if from nowhere, Abiy Ahmed, a Pentecostal Christian, promised democratic salvation and national unity. For his role brokering a historic peace with neighbouring Eritrea, he received the 2019 Nobel Peace Prize. Hailed at home as a prophet and abroad as a liberal reformer, Abiy was all things to all men. But his democratic revolution wasn't quite what it seemed. Within two years, Ethiopia had lurched into a devastating civil war, threatening state collapse. By 2023, genocidal fighting had killed hundreds of thousands in the northern Tigray region; famine stalked the land; and Ethiopia's once-promising economy lay in tatters. But Abiy had never looked stronger. Based on hundreds of interviews with Ethiopians of all persuasions, and extensive reporting across the country, this book traces the fading hope of Ethiopia's transition, unravelling the paradoxes of an enigmatic world leader. Despite everything, Abiy remains in power, embodying the new Ethiopia in all its contradiction, triumph and tragedy. But his attempt to remould the country in his image almost broke it--and may break it still.

ethiopian fasting calendar 2023: The Orthodox Church of Ethiopia John Binns, 2016-11-28 Surrounded by steep escarpments to the north, south and east, Ethiopia has always been geographically and culturally set apart. It has the longest archaeological record of any country in the world. Indeed, this precipitous mountain land was where the human race began. It is also home to an ancient church with a remarkable legacy. The Ethiopian Church forms the southern branch of historic Christianity. It is the only pre-colonial church in sub-Saharan Africa, originating in one of the earliest Christian kingdoms—with its king Ezana (supposedly descended from the biblical Solomon) converting around 340 CE. Since then it has maintained its long Christian witness in a region dominated by Islam; today it has a membership of around forty million and is rapidly growing. Yet despite its importance, there has been no comprehensive study available in English of its theology and history. This is a large gap which this authoritative and engagingly written book seeks to fill. The Church of Ethiopia (or formally, the Ethiopian Orthodox Tewahedo Church) has a recognized place in worldwide Christianity as one of five non-Chalcedonian Orthodox Churches. As Dr Binns shows, it has developed a distinctive approach which makes it different from all other churches. His book explains why this happened and how these special features have shaped the life of the Christian people of Ethiopia. He discusses the famous rock-hewn churches; the Ark of the Covenant (claimed by the Church and housed in Aksum); the medieval monastic tradition; relations with the Coptic Church; co-existence with Islam; missionary activity; and the Church's venerable oral traditions, especially the discipline of gene—a kind of theological reflection couched in a unique style of improvised allegorical poetry. There is also a sustained exploration of how the Church has

been forced to re-think its identity and mission as a result of political changes and upheaval following the overthrow of Haile Selassie (who ruled as Regent, 1916-1930, and then as Emperor, 1930-74) and beyond.

ethiopian fasting calendar 2023: The Traditional Teaching of the Ethiopian Orthodox Täwahedo Church Christine Chaillot, 2023-11-06 Christine Chaillot's new book, The Traditional Teaching of the Ethiopian Orthodox Täwahedo Church: Faith and Spirituality, presents a topic that is little if at all known outside Ethiopia, even in Christian circles. Moreover, it is a much neglected field in the wider study of African education. It is a teaching based on ancient texts and books, taught orally to the students who will become the future clergy and who will then share their knowledge with the faithful in Church life. The studies of the different disciplines are pursued at different schools and at different levels, in liturgy, theology with commentaries of books (Old and New Testaments, books of the Church fathers and monks) as well as composition of poems (qenes) and iconography. All this teaching presented in the present volume is deeply related to the faith and spirituality of the Ethiopian Orthodox Church. This teaching is a unique intangible cultural heritage. One wonders, however, what its future will be in the context of the modern educational methods and social attitudes that have evolved in Ethiopia over the last half-century.

ethiopian fasting calendar 2023: The Early Modern Jesuit Attitude towards Hindu and Ethiopian Strains of Asceticism Leonardo Cohen, 2023-12-04 This book presents an early modern Jesuit attitude towards Hindu and Ethiopian strains of asceticism. The Jesuits' descriptions of both the yogis and the Ethiopian renunciates were marked by ambivalence. While critical of these ascetics, the missionaries also pointed out admirable facets of their comportment. In both the Society of Jesus' positive and negative impressions, there are glaring ethnocentric views that shift the spotlight onto the other's flaws. Like many historical cases, these perceptions evolved into a sort of inverted mirror image of the self that revealed differences between the European Catholic and the native renunciate.

ethiopian fasting calendar 2023: Holy Women, Holy Men Church Publishing,, 2010 Fully revised and expanded, this new work is the first major revision of the liturgical calendar of the Episcopal Church in more than 40 years! It is the official revision of Lesser Feasts and Fasts and authorized by the 2009 General Convention. All commemorations in Lesser Feasts and Fasts have been retained, and many new ones added. Three scripture readings (instead of current two) are provided for all minor holy days. Additional new material includes a votive mass of the Blessed Virgin Mary, many more ecumenical commemorations, plus a proper for space exploration. For years the oft revised volume, Lesser Feasts and Fasts (LFF), has served parishes and individuals mark part of the holiness of each day by providing Scripture readings, a collect, a Eucharistic preface, and a narrative about those remembered on the church's calendar that day whose lives have witnessed to the grace of God. Holy Women, Holy Men (HWHM) is a major effort to revise, but also to expand and enrich LFF. Where LFF provided two readings (gospel and other New Testament) plus a psalm, HWHM adds an Old Testament citation. Where LFF was limited to few non-Anglicans in the post-reformation period (and few non-Episcopalians after 1789), HWHM dramatically broadens appreciation for other Christians and their traditions. Over-emphasis on clergy is redressed by additional laity, males by females, and in-church activities by contributions well beyond the workings of institutional agendas. These almost daily commemorations occupy over 600 of the book's 785 pages, by far the lion's share of its content. Remaining sections address: principles of revision and guides for future revision; liturgical propers for seasons (Advent/Christmas, Lent, and Easter); and new propers for a miscellany of propers usable with individuals (or events) not officially listed in the formal calendar. Two cycles of propers for daily Eucharist are also included, one covering a six week period, the other a two year cycle.

ethiopian fasting calendar 2023: *The Boy Who Never Gave Up* Ready Set Go Books, 2019-06-30 The boy who became Saint Yared grew up in the ancient kingdom of Axum. According to legend, he struggled as a student, just as this story shows, but eventually triumphed and went on to invent Ethiopia's system of musical notation. His work drew on local traditions and the church concept of the Holy Trinity, while his hymns had four parts based on the four seasons of the year, winter, summer, spring, and autumn. Hundreds of years before European composers developed a seven-note system of writing music, Yared wrote music using dashes, curves, and dots to represent ten different notes. Ready Set Go Books, an Open Hearts Big Dreams Project, is focused on increasing the literacy rate in Ethiopia through giving readers books with stories in their heart languages, full of colorful illustrations with Ethiopian settings and details. Ethiopia's population is 44% children, ages 0-14 (43 million out of 97 million total). Only 5.5% of children attend pre-school or kindergarten, and the adult literacy rate is 49%. Our books are based on wise Ethiopian sayings that often rhyme in Amharic. If an adult says the first half, many children can chant the second half. Sometimes the meaning of these sayings is clear. Sometimes it has to be puzzled out and argued over. But sayings and idioms and proverbs help people express truths and beliefs in unusual ways. ethiopian fasting calendar 2023: Importance of irrigated agriculture to the Ethiopian economy: capturing the direct net benefits of irrigation Fitsum Hagos, Makombe, Godswill, Namara, Regassa E., Awulachew, Seleshi Bekele, 2009 Irrigation development has been identified as a means to stimulate economic growth and rural development in Ethiopia. However, little attempt has been made to quantify the contribution of irrigation to national income. Using data from selected irrigation schemes, representing small, medium and large-scale schemes of modern or traditional typologies; the present coverage and planned growth of irrigation, actual and expected contributions of irrigation to the national economy were quantified following the approach of adjusted gross margin analysis. Our results show that irrigation yields 219.7% higher income compared to the rainfed system while its current and future contribution to agricultural GDP is estimated to be about 5.7 and 12% although irrigation covers about 5 and 9% of the total cultivated land area, respectively.
