focus on grammar 4 pdf: **Focus in Generative Grammar** Michael S. Rochemont, 1986-01-01

The topic of this book is the notion of 'focus' and its linguistic characterization. The main thesis is that focus has a uniform grammatical identification only as a syntactic element with - in English at least - a certain systematic phonological interpretation and - presumably universally - a range of semantic interpretations. In broad respects, the framework within this investigation is conducted is that of Chomsky & Lasnik (1977) and the subsequent Government and Binding framework. After considering defining the location of prominence in a focused phrase in terms of constituent structure, the author argues that an argument structure approach to the focus phrase/prominence relation is more promising. This is then exemplified in analyses of cleft focus and constructional focus.

focus on grammar 4 pdf: Anthony C Thiselton and the Grammar of Hermeneutics Robert Knowles, 2014-07-08 A provisional and preliminary attempt to show how the formative hermeneutical thinking of Anthony C. Thiselton - once systematized and critiqued - can begin to resolve the major problems found in the discipline of hermeneutics today, most notably its varying 'disunities' - theoretical, practical, and inter-disciplinary. This book aims to show that the formative thinking of Anthony C. Thiselton provides valuable insights for a programmatic construction towards a unified hermeneutical theory. This construction provides powerful keys for unlocking six contemporary problems in hermeneutics: disorganization, complexity, abstraction, theoretical disunity on several levels, inter-disciplinary polarization, and irresponsible interpretation. Robert Knowles' exhaustive analysis engages critically and creatively.

focus on grammar 4 pdf: The Grammar-Pragmatics Interface Nancy Hedberg, Ron Zacharski, 2007-05-15 This collection of papers celebrates the work of Jeanette K. Gundel, who has contributed to the field of the grammar-pragmatics interface through her publications on the syntactic realization of topic and comment and the cognitive status of referring expressions, as well as by inspiring colleagues to make contributions to the overall field of pragmatics. This volume collects together papers from colleagues and former students on pragmatics and syntax, pragmatics and reference, and pragmatics and social variables. The volume includes papers devoted to explicating the grammar-pragmatics interface, with the focus of the papers ranging from Gricean and post-Gricean pragmatics, construction grammar, and genre theory to formal semantics, as well as papers devoted to expanding on Gundel's own original approach to factors such as the cognitive status decisions underlying speakers' choice of referring expression and the topic and focus decisions underlying speakers' choice of syntactic construction.
