gather hymnal pdf: Old School Hymnal Bryce H. Lowrance, 2021-05-25 From the song of Moses on the shore of the Red Sea, to the hymn at the close of our Lord's first communion, the singing of psalms, hymns and spiritual songs is an essential part of worship for God's people. In the wisdom of the Glorious Creator, God created man in his image, which included a voice - a uniquely human instrument capable of producing melody. And so, our Lord delights in worship with the voice of praise. From the psalms composed by David on the grassy hillsides of Bethlehem, to the thunderous chorus of "Holy! Holy! Holy!" offered by the seraphim in the throne room of heaven, expressions of singing in worship are evident. And notably, Zephaniah declared the Lord rejoices in singing Himself: "The LORD thy God in the midst of thee is mighty; he will save, he will rejoice over thee with joy; he will rest in his love, he will joy over thee with singing." (Zephaniah 3:17). Truly, God's people rejoice in songs of praise through the ages. By singing Psalms in the early church, in quiet whispers of praise in dens and caves of the earth during persecution, singing praises to our Lord endures. In recent centuries, times of revival and despair alike have sown seeds of creativity, and hymns of praise blossomed and bloomed. As such, visionary men like Elder Lee Hanks, saw fit to collect hymns, true to God's word in sentiment, and place them in hymnbook form to use in worship. To commemorate the 100th year of the Old School Hymnal, with hearts set on the glory of God, and enveloped by our rich history of worship in song, we the members of the newly restructured, non-profit Old School Hymnal Foundation Board, humbly present to you the Centennial Edition. In 1920, the founding members of the 1st edition presented a compilation of beloved hymns. In updating the hymnal, we prayerfully labored to honor their focus, endeavoring to maintain treasured, long-standing hymns, while also offering new compositions. We believe the Lord blessed us to remain true to scripture and honor Him with the words and melodies selected. In following the

footsteps of our forefathers in hymnody, we echo the words of Elders Monsees and Pittman, in the preface to the 3rd edition, as we tried to include “the best old songs, and some of the new good ones...” In recent years, the Holy Spirit has blessed the creation of new hymns, born from the souls of redeemed children of God, moved and affected by the influence of grace. In honoring the spirit of past editions, and striving to obey the unction of the Holy Spirit, we are united in the desire to share some new songs. Having begun in the fall of 2019, and concluded in the midst of uncertain times, we believe a Providential blessing is in the timing of this effort. As unprecedented upheaval and abject fear prevails, we are compelled to present a point of light to push back against the darkness. While angry, dispirited voices reach a fever pitch, as the vitriolic squawk of malicious accusations command our attention, amidst the din of hard speeches and great swelling words, our prayer is that a different sound rises above the fray. In Christian homes, among congregations of Spirit-led worship, and from hearts of weary sinners, may songs of praise and voices of worship rise to adorn and adore the worthy name of Jesus. Accepting full responsibility for omissions, oversights and mistakes, and pleading for the mercy and blessing of God, we give to you this Centennial Edition, trusting the voice of praise will lift up to glorify our resurrected, reigning and returning Savior.

gather hymnal pdf: Known Unknowns JOHN L. MAULE BELL (GRAHAM.), Graham Maule, 2018-04-30 Singing a new song is not an optional extra, but a faithful response to a divine command. This command is the opening phrase of Psalms 96 and 98. And, St John the Divine says, this is what the saints in heaven are doing all the time. But, on earth, things are not so easy. Sometimes it's because the latest new song in the old hymnbook is two centuries old. Or the congregation has been told by some sadist that it 'doesn't sing well'. Or sometimes the organist can only play what s/he hears on the radio. Or the guitarist can do anything, as long as it's only three major chords. However, even in such dire straits, the divine command has to be obeyed. So what if we kept familiar tunes - hymn tunes or folk tunes - and set words to them in 21st-century idioms? What if we gave some ancient psalms a makeover, replaced threadbare wedding and funeral songs or dealt with the things that people actually talk about when they're not in church? And what if most of the suggested tunes were so well known that - even if musicians took the huff - people could still sing the verses on their own? What if you looked under the covers of this book and began to upset the quiet of the place in which you are presently standing by beginning to hum? This book amounts to a modest proposal from the Wild Goose Resource Group on how to make the most of minimal congregational song resources in an accessible and resilient way.

This valuable resource of over two hundred prayers, blessings, poems, and sacred songs from diverse Christian traditions speaks to the heart of vocation's richness. -Part I (Ages and Stages) gathers prayers for children, teens, young adults, and adults in mid-life, later, and older adulthood. -Part II (Work and Profession) offers blessings for traditional professions and overlooked occupations--from nurses to truck drivers, janitors to lawyers, salespeople to stay-at-home parents. -Part III (A Year of Blessing) highlights times to preach and pray about vocation throughout the church year and cultural calendar. Drawing from research with hundreds of Christians in congregations across the country about their sense of God's call in their lives, the book fills the gap between Christianity's rich theologies of vocation and people's pastoral needs in living out their callings. To Bless Our Callings is a perfect resource for catechists, musicians, worship leaders, spiritual directors, retreat leaders, campus ministers, and chaplains.

gather hymnal pdf: *Liberation, (De)Coloniality, and Liturgical Practices* Becca Whitla, 2020-10-24 Becca Whitla uses liberationist, postcolonial, and decolonial methods to analyze hymns, congregational singing, and song-leading practices. By way of this analysis, Whitla shows how congregational singing can embody liberating liturgy and theology. Through a series of interwoven theoretical lenses and methodological tools—including coloniality, mimicry, epistemic disobedience, hybridity, border thinking, and ethnomusicology—the author examines and interrogates a range of factors in the musical sphere. From beloved Victorian hymns to infectious Latin American coritos; congregational singing to radical union choirs; Christian complicity in coloniality to Indigenous ways of knowing, the dynamic praxis-based stance of the book is rooted in the author's lived experiences and commitments and engages with detailed examples from sacred music and both liturgical and practical theology. Drawing on what she calls a syncopated liberating praxis, the author affirms the intercultural promise of communities of faith as a locus theologicus and a place for the in-breaking of the Holy Spirit.

gather hymnal pdf: *Countercultural* Gil Rendle, 2023-05-08 After decades of anti-institutionalism, here is a book that is honest about the importance of congregations and our need for them in our lives. Despite our lack of trust in institutions, we cannot live without them and still hope to live together in communities, let alone a nation. For important reasons our neighborhood institutions of religion (congregations) hold hope not found in other places. Politics and the economy have proven themselves gridlocked and incapable of breaking the narratives of fear and scarcity that now divide us. However, to step up into public space in order to offer what they hold as so important to these divided times, leaders of congregations need to understand why they are so countercultural and why being countercultural is an important role to play. This is not a time for congregations to try to fit into the culture and to worry about growing their membership and increasing their finances. It is not a time to let organizational anxieties determine next steps. What is required is courage – leaders courageous enough to speak openly with confidence of what they know, congregations courageous enough to seek new forms with which to offer the ancient wisdom that people still search for. As much as religious institutions are now needed, old forms no longer work in a fast and deeply changing culture. Instead of trying to improve what is already known, this book will provide a way for congregations to thrive and fulfill their purpose by being

countercultural.
