henri cartier bresson the decisive moment pdf: Photographically Speaking David duChemin, 2011-10-11 When looking at a photograph, too often a conversation starts-and, unfortunately, ends-with a statement such as, "I like it." The logical next question, "Why?", often goes unasked and unanswered. As photographers, we frequently have difficulty speaking about images because, frankly, we don't know how to think about them. And if we don't know how to think about a photograph and its "visual language"- how an image is constructed, how it works, and why it works-then, when we're behind the camera, are we really making images that best communicate our vision, our original intent? Vision-crucial as it is-is not the ultimate goal of photography; expression is the goal. And to best express ourselves, it is necessary to learn and use the grammar and vocabulary of the visual language. *Photographically Speaking* is about learning photography's visual language to better speak to why and how a photograph succeeds, and in turn to consciously use that visual language in the creation of our own photographs, making us stronger photographers who are able to fully express and communicate our vision. By breaking up the visual language into two main components-"elements" make up its vocabulary, and "decisions" are its grammar-David duChemin transforms what has traditionally been esoteric and difficult subject matter into an accessible and practical discussion that photographers can immediately use to improve their craft. Elements are the "words" of the image, what we place within the frame-lines, curves, light, color, contrast. Decisions are the choices we make in assembling those elements to best express and communicate our vision-the use of framing, perspective, point of view, balance, focus, exposure. All content within the frame has meaning, and duChemin establishes that photographers must consciously and deliberately choose the elements that go within their frame and make the decisions about how that frame is constructed and presented. In the second half of the book, duChemin applies this methodology to his own craft, as he explores the visual language in 20 of his own images, discussing how the intentional choices of elements and decisions that went into their creation contribute to their success.

henri cartier bresson the decisive moment pdf: The Decisive Network Nadya Bair, 2020 Since its founding in 1947, the legendary Magnum Photos agency has been telling its own story: Its photographers were concerned witnesses to history and artists on the hunt for decisive moments; their pictures were humanist documents of the postwar world. Based in unprecedented archival research, *The Decisive Network* peels back layers of the Magnum mythology to offer a new history of what it meant to shoot, edit, and sell news images after World War II. Between the 1940s and 1960s, Magnum expanded the human-interest story - about the everyday life of ordinary people - to global dimensions while bringing the aesthetic of news pictures into new markets. Its best-known work started as humanitarian aid promotion, travel campaigns, corporate publicity, and advertising. Working with this range of clients, Magnum made photojournalism integral to visual culture. Yet Magnum's photographers could not have done this alone. This book unpacks the collaborative nature of photojournalism as it transpired on a daily basis, focusing on how picture editors, sales agents, spouses, and publishers helped Magnum photographers succeed in their assignments and achieve fame. *The Decisive Network* concludes in the late 1960s and early 1970s, when, amidst the decline of magazine publishing and the rise of an art market for photography, Magnum turned to photo books and exhibitions to manage its growing picture archives and consolidate its brand. In that moment, Magnum's photojournalists became artists and their assignments turned into oeuvres. Such ideas were necessary publicity, and they also managed to shape discussions about photography for decades. Bridging art history, media studies, cultural history, and the history of communication, this book transforms our understanding of the photographic profession and the global circulation of images in the pre-digital world--

henri cartier bresson the decisive moment pdf: Regarding the Pain of Others Susan Sontag, 2013-10-01 A brilliant, clear-eyed consideration of the visual representation of violence in our culture—its ubiquity, meanings, and effects. Considered one of the greatest critics of her generation, Susan Sontag followed up her monumental *On Photography* with an extended study of human violence, reflecting on a question first posed by Virginia Woolf in *Three Guineas*: How in your opinion are we to prevent war? For a long time some people believed that if the horror could be made vivid enough, most people would finally take in the outrageousness, the insanity of war. One of the distinguishing features of modern life is that it supplies countless opportunities for regarding (at a distance, through the medium of photography) horrors taking place throughout the world. But are viewers inured—or incited—to violence by the depiction of cruelty? Is the viewer's perception of reality eroded by the daily barrage of such images? What does it mean to care about the sufferings of others far away? First published more than twenty years after her now classic book *On Photography*, which changed how we understand the very condition of being modern, *Regarding the Pain of Others* challenges our thinking not only about the uses and means of images, but about how war itself is waged (and understood) in our time, the limits of sympathy, and the obligations of conscience.

henri cartier bresson the decisive moment pdf: The Print and the Process David duChemin, 2012-11-30 *The Print and the Process* is a book of ideas, thoughts, and techniques about our photographs and the process that leads us to the final image. (To be clear, it is not an instructional book about how to print your images.) In this beautiful book, David duChemin takes the reader behind the scenes on four distinct photographic projects, discussing motivation, image creation, and post-production. The projects he walks the reader through are from Iceland, Kenya, Antarctica, and Venice—and for each he discusses the hows and whys of his own image-making process. Each project begins with a beautiful series of 20-30 final images from that project—this is the print section, and it's geared for the reader to really take in those images holistically. Then, duChemin discusses the process behind creating those images. In this section, the reader will see the project images again but as thumbnails, and David goes through each one, explaining very thoroughly his process. duChemin does not pre-visualize a scene, as Ansel Adams famously discussed. Instead, he feels it. And it's from that feeling that he begins working with the elements in front of him and looking at the choices available to him. As he moves around, including and excluding elements from the frame, the camera and the photographer become collaborators. It's from this struggle that the final image emerges. DuChemin has been making images for over two decades, and this process has changed and evolved during that time. By exploring duChemin's images and reflecting on the process behind them—both behind the camera and in post-processing—the reader learns to pay more attention to their own process, and identify ways in which their process can be further examined and improved in order to take more compelling images.

henri cartier bresson the decisive moment pdf: An Inner Silence Agnes Sire, Jean-Luc Nancy, 2010-04-27 "These masterful photos blend the spontaneity of a great snapshot with the highly organized composition of a classical painting."—Publishers Weekly Henri Cartier-Bresson (1908–2004) was perhaps the finest and most influential image maker of the twentieth century, and his portraits are among his best-known work. Over a fifty-year period, he photographed some of the most eminent personalities of the era, as well as ordinary people, chosen as subjects because of their striking and unusual features. Originally published to coincide with an exhibition at the Fondation Henri Cartier-Bresson in Paris, this book features both well-known images and previously unpublished portraits: Ezra Pound, André Breton, Martin Luther King, Samuel Beckett, Truman Capote, Susan Sontag, Carl Jung, William Faulkner, Marilyn Monroe, Henri Matisse, and many more. Each photograph was chosen because it perfectly embodies Cartier-Bresson's description of what he was attempting to communicate in his work: "Above all I look for an inner silence. I seek to translate the personality and not an expression." The portraits reproduced here—discreet, without artifice—confirm once more the singular gift of Cartier-Bresson, who instinctively knew in which revealing fraction of a second to click the shutter.

henri cartier bresson the decisive moment pdf: Sergio Larrain Agnès Sire, 2013 A notoriously reclusive artist, Sergio Larrain (1931–2012) has nonetheless become a touchstone for those who have come to know and love his work, including authors Roberto Bolaño and Julio Cortázar. Celebrated by Henri Cartier-Bresson, his contemporary and a co-founder of Magnum, Larrain's experimental process yielded images that transformed the fixed nature of the medium. His images have left generations of viewers in awe of the simultaneous serenity and spontaneity that a camera can capture--when placed, that is, in the hands of an artist with such rare meditative passion. "A good image is born from a state of grace," the artist once explained. Sergio Larrain, a selection of more than 200 images, rectifies Larrain's omission from the canon of significant twentieth-century photographers, and combines his work in Latin America with photographs taken in Europe. Following a creatively fertile period in the 1950s and 60s, Larrain put away his camera and devoted himself to the solitary pursuit of spiritual mysticism, a decision that further contributed to his reputation as a romantic, a "fatal personage," in the words of Bolaño. Created with the encouragement of Larrain's family, the book is sumptuously produced, designed by Xavier Barral and edited by Agnès Sire, who enjoyed a long correspondence with the photographer and has worked with Magnum on preserving his photographic estate.
