Core Arguments Presented in the Book

The central thesis of the book is that atheism is not a purely rational position but one that involves faith as well. The authors present a series of arguments designed to illustrate that belief in God is logically consistent and supported by evidence from various fields such as philosophy, science, and history.

The Impossibility of the Contrary

One of the primary arguments made is based on the principle known as the "Impossibility of the Contrary." This states that for something to be true, its opposite must be impossible. The authors argue that since the existence of God cannot be proven impossible, atheism cannot be asserted with absolute certainty.

Logical Arguments for God's Existence

The book explores classical philosophical arguments including the cosmological argument, teleological argument, and moral argument. These are used to establish the necessity of a first cause, purposeful design, and objective moral values, respectively, which point toward the existence of a theistic God.

Critique of Naturalism and Materialism

Geisler and Turek critique the naturalistic worldview often embraced by

atheists, highlighting perceived shortcomings in explaining the origin of the universe, consciousness, and morality without invoking a supernatural cause.

i don t have enough faith to be an atheist pdf: A Manual for Creating Atheists Peter Boghossian, 2014-07-01 For thousands of years, the faithful have honed proselytizing strategies and talked people into believing the truth of one holy book or another. Indeed, the faithful often view converting others as an obligation of their faith—and are trained from an early age to spread their unique brand of religion. The result is a world broken in large part by unquestioned faith. As an urgently needed counter to this tried-and-true tradition of religious evangelism, A Manual for Creating Atheists offers the first-ever guide not for talking people into faith—but for talking them out of it. Peter Boghossian draws on the tools he has developed and used for more than 20 years as a philosopher and educator to teach how to engage the faithful in conversations that will help them value reason and rationality, cast doubt on their religious beliefs, mistrust their faith, abandon superstition and irrationality, and ultimately embrace reason.

The new atheists, led by Richard Dawkins, Christopher Hitchens and Sam Harris, do not make moral arguments about religion. i don t have enough faith to be an atheist pdf: The Doubters' Club Preston Ulmer, 2021-09-07 The closer we get to the heart of God, the closer we should grow toward the doubter, the skeptic, the differing perspective, even the atheist. And that should make us wonder: Is it possible to grow in our Christian faith without engaging the doubter or the skeptic? And if growing in our faith means growing closer to the doubter, how do we do that without compromising what we believe to be true? The Doubters Club is a guide for people who want to live in friendship with those who think differently than them. In The Doubters Club, you'll learn how to: (1) rebuild the impression the other person has of us as Christians; (2) renovate the intention we have with the nonbeliever; (3) rely on an invitation into real life (not a church service); (4) reexamine our views through initiating conversations that matter; and (5) redefine progress as imitation, not just immersion. You'll get practical steps and tools to help you navigate relationships and conversations but not foolproof methods (because there aren't any). Maybe you're ready to take a chance because it's your mom or dad who is the skeptic, a sibling, an old friend, a coworker, or a neighbor. Maybe you're just ready to embrace the adventure of your faith. If you are open to the mystery of doubt, The Doubters Club invites you to bring your uncertainties as common ground for relationship with skeptics and see what God does.

i don t have enough faith to be an atheist pdf: Cosmic Chemistry John C Lennox,

2021-09-17 In this accessible and engaging introduction, [John Lennox] guides us through the great debates about science and faith, and offers incisive assessments of the issues. Alister McGrath, Professor of Science and Religion, University of Oxford Is the rigorous pursuit of scientific knowledge really compatible with a sincere faith in God? Building on the arguments put forward in *God's Undertaker: Has Science Buried God?*, Prof John Lennox examines afresh the plausibility of a Christian theistic worldview in the light of some of the latest developments in scientific understanding. Prof Lennox focuses on the areas of evolutionary theory, the origins of life and the universe, and the concepts of mind and consciousness to provide a detailed and compelling introduction to the science and religion debate. He also offers his own reasoning as to why he continues to be convinced by a Christian approach to explaining these phenomena. Robust in its reasoning, but respectful in tone, this book is vital reading for anyone exploring the relationship between science and God.

i don t have enough faith to be an atheist pdf: *Atheists* Nick Spencer, 2014-05-08 The clash between atheism and religion has become the defining battle of the 21st century. Books on and about atheism retain high profile and popularity, and atheist movements on both sides of the Atlantic capture headlines with high-profile campaigns and adverts. However, very little has been written on the history of atheism, and this book fills that conspicuous gap. Instead of treating atheism just as a philosophical or scientific idea about the non-existence of God, *Atheists: The Origin of the Species* places the movement in its proper social and political context. Because atheism in Europe developed in reaction to the Christianity that dominated the continent's intellectual, social and political life, it adopted, adapted and reacted against its institutions as well as its ideas. Accordingly, the history of atheism is as much about social and political movements as it is scientific or philosophical ideas. This is the story not only of Hobbes, Hume, and Darwin, but also of Thomas Aitkenhead hung for blasphemous atheism, Percy Shelley expelled for adolescent atheism, and the Marquis de Sade imprisoned for libertine atheism; of the French revolutionary Terror and the Soviet League of the Militant Godless; of the rise of the US Religious Right and of Islamic terrorism. Looking at atheism in its full sociopolitical context helps explain why it has looked so very different in different countries. It also explains why there has been a recent upsurge in atheism, particularly in Britain and the US, where religion has unexpectedly come to play such a significant role in political affairs. This leads us to a somewhat paradoxical conclusion: we should expect to hear more about atheism in the future for the simple reason that God is back.

i don t have enough faith to be an atheist pdf: Legislating Morality Norman L. Geisler, Frank Turek, 2003-02-12 America's moral decline is not secret. An alarming number of moral and cultural problems have exploded in our country since 1960--a period when the standards of morality expressed in our laws and customs have been relaxed, abandoned, or judicially overruled. Conventional wisdom says laws cannot stem moral decline. Anyone who raises the prospect of legislation on the hot topics of our day - abortion, family issues, gay rights, euthanasia - encounters a host of objections: As long as I don't hurt anyone the government s should leave me alone.Ó No one should force their morals on anyone else.Ó You can't make people be good.Ó Legislating morality violates the separation of church and state.Ó 'Legislating Morality' answers those objections and advocates a moral base for America without sacrificing religious and cultural diversity. It debunks the myth that morality can't be legislatedÓ and amply demonstrates how liberals, moderates, and conservatives alike exploit law to promote good and curtail evil. This book boldly challenges prevailing thinking about right and wrong and about our nation's moral future.

i don t have enough faith to be an atheist pdf: Correct, Not Politically Correct Frank Turek, Is there anything wrong with same-sex marriage or transgenderism? Who could possibly be hurt? Using sound reason and evidence—not religion—award-winning author Frank Turek shows that virtually everyone is hurt by same-sex marriage and transgenderism, even those who identify as LGBTQ. Turek provides concise answers to objections about equal rights, discrimination, being born a certain way, and the charge that people who disagree are homophobic or transphobic. He shows how the quest to obliterate all sexual distinctions is self-contradictory and how the march to transition children is producing horrific and irreversible consequences. Turek's message is direct but respectful—correct, not politically correct. It is a message we must not ignore.

i don t have enough faith to be an atheist pdf: You Lost Me David Kinnaman, Aly Hawkins, 2011-10-01 Close to 60 percent of young people who went to church as teens drop out after high school. i don t have enough faith to be an atheist pdf: Why I Became an Atheist John W. Loftus, 2012-10-10 For about two decades John W. Loftus was a devout evangelical Christian, an ordained minister of the Church of Christ, and an ardent apologist for Christianity. With three degrees--in philosophy, theology, and philosophy of religion--he was adept at using rational argumentation to defend the faith. But over the years, doubts about the credibility of key Christian tenets began to creep into his thinking. By the late 1990s he experienced a full-blown crisis of faith. In this honest appraisal of his journey from believer to atheist, the author carefully explains the experiences and the reasoning process that led him to reject religious belief. The original edition of this book was published in 2006 and reissued in 2008. Since that time, Loftus has received a good deal of critical feedback from Christians and skeptics alike. In this revised and expanded edition, the author

addresses criticisms of the original, adds new argumentation and references, and refines his presentation. For every issue he succinctly summarizes the various points of view and provides references for further reading. In conclusion, he describes the implications of life without belief in God, some liberating, some sobering. This frank critique of Christian belief from a former insider will interest freethinkers as well as anyone with doubts about the claims of religion.

i don t have enough faith to be an atheist pdf: How to Defend the Christian Faith John W. Loftus, Peter Boghossian, 2015-11-01 The first book on Christian apologetics written by a leading atheist figure that teaches Christians the best and worst arguments for defending their faith against attack The Christian faith has been vigorously defended with a variety of philosophical, historical, and theological arguments, but many of the arguments that worked in an earlier age no longer resonate in today's educated West. Where has apologetics gone wrong? What is the best response to the growing challenge presented by scientific discovery and naturalistic thought? Unlike every work on Christian apologetics that has come before, How to Defend the Christian Faith is the first one written by an atheist for Christians. As a former Christian defender who is now a leading atheist thinker, John Loftus answers these questions and more. He shows readers why Christian apologists have failed to reach the intelligent nonbeliever and offers practical advice for Christians, whether they want to better defend their faith against atheist arguments, or actively convert more individuals to Christianity.

i don t have enough faith to be an atheist pdf: The Irrational Atheist Vox Day, 2008-02-01 On one side of the argument is a collection of godless academics with doctorates from the finest universities in England, France, and the United States. On the other is Irrational Atheist author Vox Day, armed with nothing more than historical and statistical facts. Presenting a compelling argument (but not for the side one might expect), Day strips away the pseudo-scientific pretensions of New Atheism with his intelligent application of logic, history, military science, political economy, and well-documented research. The arguments of Richard Dawkins, Sam Harris, Christopher Hitchens, Daniel Dennett, and Michel Onfray are all methodically exposed and discredited as Day provides extensive evidence proving, among other things, that: More than 93 percent of all the wars in human history had no relation to religion The Spanish Inquisition had no jurisdiction over professing Jews, Muslims, or atheists, and executed fewer people on an annual basis than the state of Texas Atheists are 3.84 times more likely to be imprisoned than Christians Red state crime is primarily in blue counties Sexually abused girls are 55 times more likely to commit suicide than girls raised Catholic In the twentieth century, atheistic regimes killed three times more people in peacetime than those killed in all the wars and individual crimes combined. The Irrational Atheist provides the rational thinker with empirical proof that atheism's claims against religion are unfounded in logic, fact, and science.

i don t have enough faith to be an atheist pdf: The Case for Christ Lee Strobel, 2010-11 The book consists primarily of interviews between Strobel (a former legal editor at the Chicago Tribune) and biblical scholars such as Bruce Metzger. i don t have enough faith to be an atheist pdf: The Atheist Who Didn't Exist Andy Bannister, 2015-07-17 A breath, a gust, a positive whoosh of fresh air. Made me laugh, made me think, made me cry. Adrian Plass In the last decade, atheism has leapt from obscurity to the front pages: producing best-selling books, making movies, and plastering adverts on the side of buses. There's an energy and a confidence to contemporary atheism: many people now assume that a godless scepticism is the default position, indeed the only position for anybody wishing to appear educated, contemporary, and urbane. Atheism is hip, religion is boring. Yet when one pokes at popular atheism, many of the arguments used to prop it up quickly unravel. The Atheist Who Didn't Exist is designed to expose some of the loose threads on the cardigan of atheism, tug a little, and see what happens. Blending humour with serious thought, Andy Bannister helps the reader question everything, assume nothing and, above all, recognise lazy scepticism and bad arguments. Be an atheist by all means: but do be a thought-through one.

When 4-year-old Colton Burpo emerges from life-saving surgery with remarkable stories of his visit to heaven, his family doesn't know what to believe. Heaven is For Real details what Colton saw and his family's journey towards accepting their young son had visited the afterlife. "Do you remember the hospital, Colton?" Sonja said. "Yes, mommy, I remember," he said. "That's where the angels sang to me." Colton told his parents he left his body during an emergency surgery—and proved that claim by describing exactly what his parents were doing in another part of the hospital during his operation. He talked of visiting heaven and described events that happened before he was born and how he spoke with family members he'd never met. Colton also astonished his parents with descriptions and obscure details about heaven that matched the Bible exactly, even though he had not yet learned to read. With disarming innocence and the plainspoken boldness of a child, Colton recounts his visit to heaven, describing: Meeting long-departed family members Jesus, the angels, how "really, really big" God is, and how much God loves us How Jesus called Todd, Colton's father, to be a pastor The Battle of Armageddon Retold by his father, but using Colton's uniquely simple words, Heaven Is for Real offers a glimpse of the world that awaits us, where as Colton says, "Nobody is old and nobody wears glasses." Heaven Is for Real will forever change the way you think of eternity, offering the chance to see, and believe, like a child. Praise for Heaven is for Real: "A beautifully written glimpse into heaven that will encourage those who doubt and thrill those who believe." —Ron Hall, coauthor of Same Kind of Different as Me

i don t have enough faith to be an atheist pdf: The Case Against Miracles John W. Loftus, 2019-11-22 For as long as the idea of miracles has been in the public sphere, the conversation about them has been shaped exclusively by religious apologists and Christian leaders. The definitions for what a miracles are have been forged by the same men who fought hard to promote their own beliefs as fitting under that umbrella. It's time for a change. Enter John W. Loftus, an atheist author who has earned three master's degrees from Lincoln Christian Seminary and Trinity Evangelical Divinity School. Loftus, a former student of noted Christian apologist William Lane Craig, got some of the biggest names in the field to contribute to this book, which represents a critical analysis of the very idea of miracles. Incorporating his own thoughts along with those of noted academics, philosophers, and theologians, Loftus is able to properly define miracle and then show why there's no reason to believe such a thing even exists. Addressing every single issue that touches on miracles in a thorough and academic manner, this compilation represents the most extensive look at the phenomenon ever displayed through the lens of an ardent nonbeliever. If you've ever wondered exactly what a miracle is, or doubted whether they exist, then this book is for you.

i don t have enough faith to be an atheist pdf: The Varieties of Religious Experience William James, 2009-01-01 Harvard psychologist and philosopher William James' The Varieties of Religious Experience: A Study in Human Nature explores the nature of religion and, in James' observation, its divorce from science when studied academically. After publication in 1902 it quickly became a canonical text of philosophy and psychology, remaining in print through the entire century. Scientific theories are organically conditioned just as much as religious emotions are; and if we only knew the facts intimately enough, we should doubtless see 'the liver' determining the dicta of the sturdy atheist as decisively as it does those of the Methodist under conviction anxious about his soul. When it alters in one way the blood that percolates it, we get the Methodist, when in another way, we get the atheist form of mind.

i don t have enough faith to be an atheist pdf: Farewell to God Charles Templeton, 2011-01-14 For more than twenty years, Charles Templeton was a major figure in the church in Canada and the United States. During the 1950s, he and Billy Graham were the two most successful exponents of mass evangelism in North America. Templeton spoke nightly to stadium crowds of up to thirty thousand people. However, increasing doubts about the validity of the Old Testament and the teachings of the Christian church finally brought about a crisis in his faith and in 1957 he resigned from the ministry. In Farewell to God, Templeton speaks out about his reasons for the abandonment of his faith. In straightforward language, Templeton deals with such subjects as the Creation fable, racial prejudice in the Bible, the identity of Jesus of Nazareth, Jesus' alienation from his family, the second-class status of women in the church, the mystery of evil, the illusion that prayer works, why there is suffering and death, and the loss of faith in God. He concludes with a positive personal statement: "I Believe."
